General expenses	251,336 83	124,461 97
Total	$3,013,211 76	$2,929,842 39

This shows results as follows:

Decrease of gross earnings	$244,179 14
Increase in expenses	83,369 37
Decrease in net earnings	327,548 51

The loss of revenue resulted from a decrease in the ton and passenger mileage, and also in the rates received.

There is an increase in general expenses of $124,036; this being considered, the operating expenses are reduced, as compared with last year, $81,074. The increase of $31,304 in conducting transportation of freight is caused by the charge of $78,534 on account of "hire of cars." This road and its equipment is in good condition, and I think has improved during the past year.

The above earnings were per mile of road $6,235 in 1875, and $6,656 in 1874, a decrease of $421 per mile, or 6.3 per cent. Of the $169,397, shown as a decrease in the freight earnings, $93,257 occurred in the local business, and $76,140 in the foreign or competitive business. The decline in the earnings from local freight was the result of a reduction in the average rate received. This reduction was equal to 6.3 per cent. There was an increase of 7,577 tons, or nearly 1 per cent. in the local tonnage. In the foreign or competitive branch of the freight traffic the diminished earnings were caused by a decrease in the tonnage of 27,991 tons, together with a reduction of 1⅓ per cent. in the average rate received. The latter was, in 1875, 7.5 mills per ton per mile, as against 7.6 mills in 1874, in both cases less than the general average cost.

In the passenger business there was also a considerable falling off in earnings, amounting to $53,407, of which $28,763 was in the local traffic, and $24,648 was in the foreign passengers, or those received from or destined to other roads.

A large decrease is shown in the item of earnings from rent of railway, amounting to $30,038. This was caused by a readjustment of the terms of the contract with the Chicago, Danville and Vincennes Railroad Company for the use of a portion of the track of the Columbus, Chicago and Indiana Central Railway, leading into Chicago, and by a large credit to this account in 1874 of the amount due from the Chicago, Danville and Vincennes and Columbus and Hocking Valley railroad companies for rent of tracks prior to 1874, and paid in that year.

The earnings absorbed by expenses in 1875 were 83¼ per cent.; in 1874 they were 75.83 per cent.

The expenses of this road have varied greatly in the different departments of service. In that of motive power a considerable decrease is shown, equivalent to 8.3 per cent., but this was absorbed twice over by the increase in other departments. In general expenses alone the increase was $126,874. Of this amount, $42,302 was for increased taxes paid; 78,512 for rents of property, now charged to this account instead of, as before, to operating expenses, and $4,399 for increased legal expenses. The net absolute increase in the expenses of this road was $83,369. The increase computed on the basis of service performed, or mileage of trains, was 5 per cent, for while the expenses per mile run in 1874 were 69 35 cents, they increased to 72.83 cents in 1875. This in the face of the fact of a reduction in the train mileage of 87,327 miles, or 2 07 per cent. The great difficulty in the way of attaining favorable results in the operating of this road is the low earning capacity of its trains. These were 87.49 cents per mile run in 1875, and 91.46 in 1874. Until they can be considerably augmented, so that they may compare more favorably with those of other roads, either by the obtaining of higher rates for the freight carried, or a greater amount of tonnage per train mile, which in 1875 was only 81.7 tons, it will be idle to hope for much better results on this road.

Portland, Saco and Portsmouth Railroad.

The annual meeting of the stockholders of this company was held at Kittery, Me., on the 5th inst.

After the reading of the records of the last meeting the President read the report of the directors to the stockholders, which showed that the future dividends are to be three per cent., semi-annually, and the Eastern to pay all taxes. The report gives no statement of earnings or other statistics. The claim of the Boston and Maine, the directors are advised, is without validity.

The directors recommend that the amount of mortgage be $500,000. A stockholder wanted to know if this mortgage was to aid the Eastern road, and proposed a committee to nominate a ticket for directors, and also inquired if the present lease of the road is legal. The President, in reply, stated that he was advised that it was legal.

Ex-Governor Goodwin then explained why $500,000 was asked for. The motion for the appointment of a committee was suspended, and the report of the directors accepted, after which a committee was appointed, members being nominated from the floor.

It was asked if any of the members of the Committee were stockholders in the Eastern road, and it was objected that such gentlemen should not serve on the Committee. The same objection was made to gentlemen owning stock in the Boston and Maine.

Mr. Thorndike offered votes authorizing the issue of $500,000 in six per cent. bonds secured by mortgage to three trustees, to run for 20 years, to pay all outstanding liabilities and to provide funds for contingencies.

The Committee on Nomination reported a list of names as candidates for Directors, and the committee were authorized to receive, sort and count the votes cast. The meeting then proceeded to ballot for Directors.

A stock vote was demanded, and a committee of three was appointed to receive the votes, which resulted in 2270 voting in the affirmative and 162 in the negative.

The committee on the votes show the state of their ballot for directors to have been as follows:

S. Lothrop Thorndike of Beverly	2597
John B. Brown of Portland	2587
Chas. E. Barrett of Portland	2596
Geo. E. B. Jackson of Portland	2558
Nathaniel Hooper of Boston	1927
Wm. H. Y. Hackett of Portsmouth	1927
Samuel C. Lawrence of Medford	2591
Chas. J. Brown of Rye	605
John Robinson of Salem	605

The votes authorizing the issue of bonds were then passed.

A vote of thanks to Ex-Gov. Goodwin who retires, was passed, and the meeting dissolved.

Nashua and Lowell Railroad.

At the annual meeting of the Nashua and Lowell Railroad Company, held at Nashua, N. H., on the 31st ult., the following gentlemen were elected directors for the ensuing year: Dani. S. Richardson, Wm. W. Bailey, Augustus Lowell, Charles W. Amory, Frank A. McKeon. Treasurer, Theodore H. Wood. Corporation Clerk, Edward P. Emerson. The financial standing of the corporation is thus summed up in the report of the Board of Directors:

For the year ending March 31, 1875, the loss sustained by us on the year's business was $32,580 53, and including the old joint account balances and the amount paid Central Vermont Railroad, in adjustment of old claims under former business arrangements, that sum was increased to $79,245 97, the account of which is contained in our last report. In the first six months of the past year we have made a net profit of $4046 72, and in the last six months a further net profit of $7666 68, amounting in all to $11,713 40 on the actual business of the year. But out of this sum was paid and charged in the last six months the award to Wilton Railroad of $7675 for the rent of the previous year, thereby reducing our net profits of the year to $4038 40. This sum is small, but we doubt whether any income is so small as to be disregatded in these times. The result of the year certainly shows the ability of the line to meet the demands of the public without loss, at what may be considered, we hope, the lowest ebb of business, and gives just encouragement to the stockholders for reasonable and substantial income, with the increasing prosperity of our patrons.

The Erie and Lehigh Valley Line.

The laying of the third rail on the Erie Railway between Buffalo and Elmira has been completed, and the narrow gauge route thus completed between Niagara Falls, Buffalo and Philadelphia, via Waverly, will be known as the Erie and Lehigh Valley Line.

The Erie Railway is one of the best lines in the country, and passes through one of the most picturesque regions in the United States. This new route to Philadelphia is by the Erie line as far as Elmira, and thence by the Lehigh Valley, North Pennsylvania and Reading roads. Passing, as it does, through a region of fine scenery all the way, and being as expeditious as any other, it must become a favorite route to Philadelphia. The time from Buffalo to the former city is about fourteen hours, and the distance 415 miles.

☞ The ordinance permitting the West Philadelphia Passenger Railway Company to use improved steam cars on their road, was signed by the Mayor on the 2d inst. The ordinance contains a proviso that the rate of fare in these cars shall not exceed five cents. It also reserves to the city the right to revoke this permission by the passage of an ordinance to that effect.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

The asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, June 10, 1876.

Financial and Commercial Affairs.

Money has been offered with marked freedom nearly all through the week, and rates on loan and discount accommodation have been kept down to low figures, call loans ruling generally at 2@3 per cent, and best mercantile credits at 4@6 per cent per annum, lenders reporting increased difficulty in placing balances at even these quotations. Warlike reports and rumors from Europe have had little weight in influencing the course of the quotations. Local speculative and commercial requirements have not been urgent, and have been very promptly met. The City banks have been gainers in the line of reserves, while reporting a falling off in the loan and discount averages, and in the item of circulation. The increase in the legal tender board is important, reaching nearly 2¼ millions. The deposits are about 2½ millions ahead of the preceding week. The Government office at this port has been losing both currency and coin, the former nearly to the extent of the gain of legal tenders shown on the City bank exhibit. The U. S. Sub Treasury currency balance was reduced $2,280,344, and the specie reserve $547,514. National Bank notes received at the Treasury Department last week for redemption were to the amount of $4 357,000. The City Banks have had their deposits enlarged $2,217,900; and their legal tender reserve $2 476,100. The specie average has been enlarged $120,300. The loan and discount item was cut down $813,200. The circulation was diminished $115,400. The U. S. Sub Treasury in this city closed the week with a currency balance of $33,446,274 against $35,726,618 the pre-

ceding week; and a coin board of $38,203,255 against $38,750,768 on the previous return. The City bank exchanges i. currency reached $336,490,932, or a daily average of $67,498,186. The customs revenue of the port during the week was $1,409,000. The City banks reported their average of gold last week at $17,488,800, and their greenback average at $51,766,500. Their deposits stood at $211,196,600. The loan item was $250,679,500. The circulation was $15,943,800.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $16,456,150 as against $14,414,225, the preceding week.

The aggregate of the outstanding U. S. currency, of all denominations, June 1st was $407,991 585. The outstanding amount of legal tender notes is $370,191,705. The National bank circulation is now $334,208,588, including $2,098,190 of national gold bank notes.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $9,154,832; special deposit of legal tenders for the redemption of certificates of deposit, $34,845,000; Coin, $65,537,673; Coin certificates, $24,376,300.

The week's import entries of Foreign Merchandise at New York were $4,087,668, including $760,209 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 108½ millions; and from Customs, 139½ millions.

The Treasury disbursements by warrants during May on account of civil and miscellaneous, War, Navy, and Interior, (Indiana and pensions,) were $19,934,282 42, exclusive of payments made on account of the interests for principal of the public debt of the United States.

The last public debt statement exhibited a further liquidation in May of $4,617,516, and since July 1, 1875, of $25,367,984 or equal to $2,306,189 per month, reducing the aggregate of the debt to $2,103,820,743 on June 1, 1876.

The New York City debt, as officially reported by the Comptroller, and as represented in stocks and bonds May 31, was $158,869,299 58; sinking fund, $29,063,588 18; balance $129,805,711 40; net debt January 1, $116,773,724 09; cash city treasury, $393,377 34; cash in sinking funds, $440,594 21; stocks and bonds issued in 1876, $17,165,368 19.

Gold dealings this week at the Gold Board have been on a less confident basis, especially on speculative account. The customs inquiry for coin has been very moderate. The export drain has been to a fair average. The extremes of the price during the week have been 112⅜@112⅞, closing on Wednesday at 113⅛, as against 112⅝ on Wednesday of the preceding week. The specie outflow last week was $937,733 against $1,421,500, the previous week. The imports of specie at this port last week were $64,580, and since January 1st $1,742,582 as against $6,371,912 same time last year. The customs demand for gold last week averaged $281,800 per day. Foreign Exchange has been in more demand and at the close quoted rather firmer than on the earlier dealings of the week. Bankers sixty day bills on London closed on Wednesday at $4 87½@$4 88; sight bills on London at $4 89½@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,574,847. The week's imports of Dry Goods and general merchandise were to the specie value of $4,087,668 as against $5,904,607 the corresponding week of 1875.

Government Securities have been more urgently sought after on investment account, and have been quoted stronger in price on much lighter offerings, especially of the favorite Five Twenties. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $343,950,850.

U. S sixes of 1881 closed on Wednesday of this week at 123¾@123½; U. S. Five-Twenties of 1865, at 115½@115¾; U. S. Five-Twenties of 1865 consolidated, 119⅝@119⅞; U. S. Five-Twenties of 1867, 122@122½; U. S. Five-Twenties of 1868, 123⅝@123⅞; U. S. Ten-Forties at 118½@118¾; U. S. Fives of 1881,(Funding Loan) 117¼@117½; Six per cent. currency Sixes 124⅞@125⅛.

State and Railway bonds have been in fair demand, and generally quoted firmer as to price. And in the line of Railway and Miscellaneous share property business has been moderately active, with prices, however, quoted quite variable, closing with more steadiness.

General business has been less active. Domestic produce has been selling less freely. The export move in Breadstuffs and Provisions was on a restricted scale,especially toward the close. Prices ruled lower, and were quoted irregular. Foreign merchandise has been in comparatively limited request. The Metal trade has been somewhat brisker. Eglinton Pig Iron quoted here at $27 50@$28 50; Glengarnock $29 50@$30; Coltness $30@$31; No. 1 American Pig at $22@$23; No. 2 do. at $20; Forge, $18@20; American Rails at works $40@$42 50; Old Rails $21 50 @$22 50. Wrought Scrap, $28. Ocean freights have been fairly active, especially in the line of Grain accommodation, at much stronger rates. Saturday's Grain chartering movement was again exceptionally large. Toward the close the market exhibited less animation.

The following quotations of sales of Railway and other securities are in addition to those giver elsewhere in our columns:—

☞ The Directors of the Miami Valley Narrow Gauge railway have adopted a route between Cincinnati and Waynesville.

The Great Railroad Feat.

The Pittsburg Chronicle of June 2, publishes the following calculations of the performance of Engine "573," which drew the "Continental Fast Train" from Jersey City to Pittsburg on the 1st inst:

The driving wheels of "553" are five feet in diameter, their circumference, therefore, fifteen feet. Each turn of her drivers sent her ahead fifteen feet, and to get over the 2,344,320 feet, (444 miles) between the Union Depot and Jersey City, the driving wheels made just 156,288 revolutions. Now the stroke of her pistons is two feet, and each revolution of the drivers necessitates two strokes of the piston or a lineal travel of four feet. These 156,288 revolutions of the wheels, therefore, mean that each piston of "573" traveled 625,152 feet, backward and forward, while the piston plunged in and out of the cylinder over 300,000 times. This distance traveled by one piston is 118½ miles, by both 227 miles. In the ten hours taken to come over the 444 miles and make the above number of revolutions the steam was admitted and escaped from each cylinder twice during each revolution, and the 156,288 revolutions being accomplished in ten hours, 15,628 were made each hour. Multiplied by two, this gives 31,256 puffs of steam from each cylinder per hour, or 72,512 for the two cylinders. Thus the engine, each minute, cut off and admitted the steam 1,042 times, or nearly eighteen times per second during the average speed attained during the memorable trip of June 1, 1876. That such amazing rapidity can be sustained for such a length of time, and in so complicated a creation as a modern locomotive indicates to what astonishing degree of perfection the iron horse of '76 has been bought.

A feature which was not mentioned yesterday, is the device for oiling the journals of the car wheels while the train was in motion. A trap door in the floor of the car, and the peculiar construction of the stuffing boxes rendered this aid to "no stops" possible.

☞ At the annual meeting of the stockholders of the Chicago, Milwaukee and St. Paul Railway Company held on the 5th inst, the following Directors were chosen: Alexander Mitchell, Milwaukee; Selah Chamberlain, Cleveland; Julius Wadsworth, Walter S. Gurnee, David Dows, Jeremiah Millbank, Abram R. Van Nest, John M. Burke, Peter Geddes, all of New York; George W. Wilde, Boston; John Plankinton, Milwaukee; Joseph G. Thorp, Eau Claire; Jonathan M. Bowman, Kilbourne, City. The old officers were re-elected.

☞ At the annual meeting of the stockholders of the St. Louis, Alton and Terre Haute Railroad Company, held at St. Louis on the 5th inst., the old Board of Directors was re-elected, with the exception that Edwin Abend takes the place of W. H. Underwood, deceased. The new board elected Robert Bayard of New York President; George W. Parker, Vice President and General Manager; E. F. Leonard, Secretary; Henry T. Nash, Auditor, and H. S. Depew, General Freight and Passenger Agent.

☞ The receipts of the Nashville, Chattanooga and St. Louis Railroad for ten months ending April 30, 1876, were $1,489,615, the expenses $869,096, and the net receipts $620,519—an increase over the corresponding period of 1875 of $158,877.

☞ Hon. Lewis Rice has been elected President, and Frederick L. Chapman Clerk and Treasurer of the Troy and Greenfield Railroad Company.

Berkeley Railroad.

Articles of incorporation of the Berkeley Railroad Company were filed in the office of the Secretary of State of California on the 25th ult. The object of the company is the construction of a steam railroad track from the westerly shore of San Francisco Bay to the easterly boundary of the State University grounds, with lateral branches commencing about half a mile west of the University grounds, running thence northerly about five miles; also, a branch, commencing at or about a half mile west of the University grounds, and running about six miles in a southerly direction. The entire length of the road and branches will not exceed twenty miles. The capital of the company is $1,000,000, in shares of $20 each. The directors are: A. Rammelsberg, H. T. Graves, F. Chappellet, John Everding, A. P. Bacon, Delos Lake and Henry Bernyman. The principal place of business will be in San Francisco.

☞ In the United States Circuit Court at Richmond, Va., on the 6th inst., Judges Bond and Hughes presiding, the latter announced that the court had decided to appoint as joint Receivers in the Atlantic, Mississippi and Ohio Railroad case, Messrs. Charles L. Perkins, of New York, and Henry Finke, the present Superintendent of the line. These gentlemen were recommended by both parties to the case, Mr. Perkins on the part of the bondholders, and Mr. Finke on the part of the railroad company.

☞ The extent of line in operation in Russia, at the close of 1875, had grown to 17,658 verstes, as compared with 16,933 verstes at the close of 1874. The aggregate receipts of all the Russian lines in 1875 were 141,013,278 roubles, as compared with 140,933,789 roubles in 1874. The average receipt per verste in 1875 was 8,141 roubles. The corresponding average receipt in 1874 was 8,980 roubles per verste.

☞ The branch of the North Pacific Railroad running from Fulton, a station a few miles beyond Santa Rosa, to Guerneville, in the heart of the redwood country, has been completed and opened for traffic. The road traverses a distance of about sixteen miles, over rather a difficult and expensive route, there being two large Howe truss bridges on the line, one of 150 feet, the other, over Russian river, of 181 feet span.

☞ The directors of the United New Jersey Railroad and Canal Company, recently elected, are: John J. Astor, William Bucknell, A. L. Dennis, Benjamin Fish, Hamilton Fish, Cambridge Livingston, Nehemiah Perry, Isaac W. Scudder, John G. Stephens, Robert F. Stockton, Ashbel Welch, Samuel Welch.

☞ A company of engineers who have been making a survey and estimate of the work already done, and the amount of labor required to complete the New York and New England Railroad (formerly the Boston, Hartford and Erie), report that it is more than two-thirds finished.

☞ The completion of the new narrow gauge route between Buffalo and Philadelphia, via the Erie Railway and the Lehigh Valley and North Pennsylvania Railroads, was formally celebrated on the 6th inst.

Total entered at port.	$50,047,784	$40,415,012

☞ The Railroad Commissioners of the State of Maine have been engaged for some time in making a careful examination of the railroads of that State. They pronounce the Maine Central, the Boston and Maine, the Portland and Ogdensburg, and the Portland, Saco and Portsmouth Railroads in good condition—the latter, however, needing a little new iron.

Pittsburg Rolling Mills.

The Manufacturer says that the Sligo iron works were built in 1825; Eagle rolling mill in 1825; Juniata iron works in 1824; Pittsburgh iron works in 1833; Kensington rolling mill in 1828; Birmingham iron works in 1836; Sable iron and nail works in 1845; Wayne iron and steel works in 1829; Anchor nail and tack works in 1837; Clinton and Millvale rolling mills in 1841. The old portion of Etna rolling mill was built in 1828, the new in 1873-4.

The American Iron Works, the largest in Pittsburgh, containing seventy-five puddling furnaces, were built in 1852.

The first rolling mill in Pittsburgh was built in 1811. The second was built in 1819, and in this mill was done the first puddling in America. This mill blew up in 1829, and was not rebuilt, the owner taking a part of the machinery to Covington, Ky., where he built another mill.

Statement of the Public Debt of the United States, June 1, 1876.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, May 31, 1876

B. H. BRISTOW,
Secretary of the Treasury.

☞ The Canadian government expect to be able before January, 1877, to invite tenders for building and working sections of the Canadian Pacific Railway between Lake Superior and the Pacific Ocean. The contractors will receive lands or proceeds of lands at the rate of 20,000 acres and cash at the rate of $10,000 for each mile of railway constructed, with interest at the rate of 4 per cent for twenty-five years from the completion of the work on any further sum which may be stipulated in the contract.

☞ The Herald of June 7th says it is rumored that a proposition is being considered in London, and likely to be made at an early meeting of the English stockholders, which involves the scaling of the second consolidated mortgage bonds thirty or forty per cent, and the funding of the coupons of the fifth, the first consolidated and the second consolidated bonds into income bonds, payable in five years; also the surrender and cancellation by the holders of half the stock, common and preferred.

☞ The New York and Boston division of the New York, Boston and Montreal Railroad was sold on the 5th inst. under first mortgage bond foreclosure for $3,230 835 to the Farmers' Loan and Trust Company, who are trustees for the benefit of the bondholders.

The Coal Trade.

The return of the anthracite coal trade from all the anthracite regions for the week ending the 27th ultimo foots up 891,442 tons, against 825,587 tons for the corresponding week last year, showing an increase of 65,855 tons. The total amount of anthracite mined for the year is 6,073,774 tons, against 5,003,399 for same period last year, an increase of 1,070,375 tons. The quantity of bituminous coal sent to market for the week was 80,839 tons, against 89,543 tons for corresponding week last year, a decrease of 8704 tons. The whole bituminous tonnage from the beginning of the coal year is 1,278,612 tons, against 1,243,093 tons in corresponding time last year, an increase of 35,519 tons. The total tonnage of all kinds of coal for the week is 472,281 tons, against 424,130 to corresponding date last year, an increase of 48,151 tons, and the total tonnage for the coal year is 7,852,386 tons, against 6,246,492 tons to same date last year, an increase of 1,105,894 tons. The quantity of coal and coke carried over the Pennsylvania Railroad the last week was 91,403 tons, of which 75,121 tons were coal and 16,286 tons coke. The total carried this year is 1,441,282 tons, of which 1,183,490 were coal and 257,868 coke. This total embraces all the coal carried over the road, east and west. At Port Richmond for the week ending on the 3d instant there were receipts of 50,000 tons of coal and shipments of 40,000 tons, leaving 191,500 tons on hand. We continue to quote freight charges to New York at 70 cents, Providence at $1 20@$1 25, and to Boston at $1 25@$1 30 per ton. At Perth Amboy for the week ending on the 27th ultimo the receipts of coal were 17,350 tons and the shipments 10,539 tons, leaving 88,364 tons on hand. Freights to Boston, $1; Hartford, 45 cents; New York, 40 cents.—*Phila. Ledger, June 5.*

Railway Safety Appliances.

At a recent meeting of the English Society of Arts, Mr. F. J. Bramwell called particular attention to the causes of collisions on railways, and explained what is known in England as the special safety appliance called "the staff and ticket system." This appliance owes its efficiency to the simple fact that a material substance cannot be in two places at once, and that if no engineer was allowed to go a singe line of rails from A to B, without having with him a certain piece of wood, called a "staff" which piece of wood belongs to that particular part of the line which lies between A and B and to nowhere else—that so long as this rule was obeyed no collision could occur. A want of elasticity in this system was somewhat of a drawback; and the ticket with some slight modifications, had been used, giving a certain degree of security. The newer system of brakes, with their automatic action, Mr. Bramwell asserted, sometimes, from the fact of their being too powerful, had been the means of destroying life instead of saving it. Motion suddenly arrested in one place it was evident developing destructive force in another. In England, from 1870 to 1873, Mr. Bramwell showed the following percentage of accidents: 58.7 from collisions of various kinds, 12 from trains turned into wrong lines, 9.2 from trains leaving lines, 9.2 from defects in rolling stock, 4.6 from trains breaking away on inclines, 1.8 from trains entering stations at too high rates of speed, and 4.5 from miscellaneous causes. The number of persons who met their death from causes beyond their control per annum was 35.5 In England, exclusive of season tickets, over three hundred and ninety seven million journeys were taken in the year, the journeys per death being 11,000,000.

☞ At the annual meeting of the stockholders of the Illinois Central Railroad Company, held in Chicago on the 31st ult., William Tracy, Frederick Sturges, L. V. F. Randolph, Constantine Menelas and Wm. H. Osborn were elected directors.

☞ Messrs. Weiss, Brittain & Co. have taken the contract for the construction of the extension of the Parker's and Karns' City (Penn.) Narrow Gauge Railroad to Butler, a distance of 17 miles.

FINANCIAL.

ALEX. FROTHINGHAM & CO., BANKERS AND Brokers, No. 12 Wall st., make for customers desirable investments of large or small amounts in stocks of a legitimate character, which frequently pay from five to twenty times the amount invested every thirty days.

Reliable stock privileges negotiated at favorable rates. Stocks bought and carried as long as desired on deposit of three to five per cent. Circulars and weekly reports sent free. 1y23*

MACHINERY.

A NEW FOOT LATHE FOR SALE — WITH slide rest and screw cutting attachment; 3 feet bed, 10 inch swing; suitable for a mathematical instrument maker, optician or an amateur.
4t23* J. TOWNSEND, 182 Centre st.

ENGINE AND BOILERS FOR SALE CHEAP.—One 18×36, one 14×18, one 12×24, one 9×20 stationaries; and one 8×12 portable; all new; also a system of good second hand line Preparing and Spinning Machines, Rope and Bagging Machinery.
4t23* J. C. TODD, 10 Barclay st.

FOR SALE—A 40-HORSE ENGINE AND BOILer, in excellent condition; one 36 and one 30-inch Mill; three Burns' Patent Coffee Roasters; one large size double column platform scale; one large fire-proof safe, nearly new, with folding and inside doors. Apply at 160 Duane st. 2t23*

BOGARDUS' PATENT UNIVERSAL ECCENTRIC MILLS—For grinding Bones, Ores, Sand, Old Crucibles, Fire Clay, Guanos, Oil Cake, Feed, Corn, Corn and Cob, Tobacco, Snuff, Sugar, Salts, Roots, Spices, Coffee, Cocoanut, Flaxseed, Asbestos, Mica, etc., and whatever cannot be ground by other mills. Also for Paints, Printers' Inks, Paste Blacking, etc. JOHN W. THOMSON, successor to JAMES BOGARDUS, corner of White and Elm sts., New York. 3m24*

FOR SALE—TWO STEAM HAMMERS AND Complete set of Forge Tools for manufacturing heavy forgings, car axles, &c. Address G. M. CLAPP, 206 Broadway, room 9. 4t22*

American Railroad Journal.

New York, Saturday, June 17, 1876.

Miller's Platform and Couplers.

For some time past there has been a case pending in the Canadian Courts, regarding the validity of the "Miller Car Platform Patent." It was claimed by one McNab, that this patent was an infringement on a patent claimed to have been obtained by himself, for a similar purpose. In order to bring the case properly before the courts, McNab commenced proceedings against the Grand Trunk Railway Company, as they are using the Miller Platform and Couplers, praying the court to grant an injunction restraining the defendants from further use of these improvements, or to oblige them to pay royalty. The case came to trial on the 2d inst., at London, Ont., and after hearing the testimony of the plaintiff, the Judge dismissed the case with costs, as the plaintiff failed to show that Miller's Platform and Couplers infringed his Patent. The hundreds of railroad managers all over the country who are using this most valuable improvement on the cars of their passenger trains, will rejoice at this decision, for it wholly relieves them of threatened litigation at the hands of this Canadian inventor.

Boston and New York Air Line Railroad.

At the annual meeting of this company held at Middletown, Conn., on the 7th inst., the following gentlemen were elected directors for the ensuing year: Samuel S. Sands, D. B. Hatch, H. B. Hammond, Ripley Ropes, Charles Dana, E. Ellery Anderson, Thomas L. Watson, Henry Lewis, Isaac Anderson, Allyn M. Colgrove, J. N. Camp, Benj. Douglass and George S. Moulton. President, Samuel S. Sands; Treasurer, D. B. Hatch; General Manager, H. B. Hammond; Secretary, Thomas L. Watson.

The gross earnings for the year ending June 1, 1876, were $165,986 83; the operating expenses for the same period were $128,635 16; surplus applied to construction, $37,351 17.

In the operating expenses are included the following disbursements, which will not be again required for a long period:

Painting of iron bridges	$6,629 54
Repairing and rebuilding locomotives and passenger cars	15,771 87
Rent of engines	1,200 00
Total	$23,601 41

The operating expenses were 77 per cent of the gross earnings. Deducting the above extraordinary expenses or disbursements the operating expenses would have been 63 per cent, or less than the average operating expenses of New England railroads.

Grand Rapids and Indiana Railroad.

At a meeting of the directors of this company held at Grand Rapids, Michigan, on the 1st of June, the following officers were elected: President, W. O. Hughart; Secretary and Treasurer, W. R. Shelby; Auditor, F. A. Gorham; Superintendent of Northern division, J. M. Metheany; Superintendent of Southern division, P. S. O'Courke; General Freight Agent, J. B. Leet; General Passenger and Ticket Agent, J. H. Page; Master Mechanic, J. M. Broom; Paymaster, J. H. Hughart; Purchasing Agent, A. K. Allen. It is stated that the affairs of the company are in a most prosperous condition, that extensive improvements will be made this season, and that possibly it will take hold of an incomplete project—the Grand Rapids, Rockford, Greenville and Alpena Railway, and iron the track now graded from Rockford to Greenville. Should it do so, it will eventually complete the road to Alpena, where it will tap the finest region of the State for lumber freight from local mills.

Vermont and Massachusetts Railroad.

At the annual meeting of the Vermont and Massachusetts Railroad Company, held in Boston on the 7th inst., the following report of the directors was submitted:

RECEIPTS.

Received from Fitchburg R. R. Co.	$117,400 00
Received from interest	352 53
Total	$117,752 53

EXPENDITURES.

Paid dividends	$114,400 00
Expenses, including salary of the Treasurer	3,352 53
	$117,752 53

The report was accepted, and the following Board of Directors elected: Daniel S. Richardson of Lowell, William H. Hill of Boston, James A. Dupee of Boston, Francis Goodhue of Brattleboro', George F. Fay of Fitchburg, Wendall T. Davis of Greenfield and Thornton R. Ware of Fitchburg.

☞ The Toledo, Wabash and Western Railway was sold by auction at Toledo, Ohio, on the 10th inst., in pursuance of the decree of the Supreme Courts of Ohio, Indiana and Illinois. The road was bought by the following committee of the gold bondholders:—Messrs. John W. Ellis, John T. Martin, George I. Seney, Alexander M. White and H. A. V. Post. The total issue of gold bonds is $5,000,000, and this committee represent $4,943,000. This sale extinguishes both common and preferred stock amounting to $15,000,000, and relieves the road of several unprofitable leases and interest on about $6,000,000 bonds. No bonds which precede the gold bonds under which foreclosure was made are disturbed.

☞ The earnings of the Flint and Pere Marquette Railroad in May, 1876, were $90,161, and from January 1 to May 31, $395,876. The company has paid $502,992 of its floating indebtedness since October 1, 1875.

Western Union Telegraph.

The following is the report of the Executive Committee of the Western Union Telegraph Company submitted to the directors on the 7th inst.:

The Executive Committee respectfully submit the following statement of the operations of the company and the condition of its affairs.

In the report presented by the committee at the last quarterly meeting of the Board, held March 8, 1876, the net profits for the quarter ending March 31 (February business being partially and March wholly estimated) were stated at		$720,014 53
And the liabilities paid and accruing, for which provision had not then been made		686,387 93
Leaving a surplus of		$33,626 60

The official returns for the quarter ending March 31 showed the profits to be $788,790 75, or $68,776 22 in excess of the estimate. Adding this excess to the estimated surplus of $33,626 60, as above, gives $102,492 82 as the actual surplus April 1, 1876.

This was what remained after providing for six months' interest on the bonded debt, due May 1, and one year's appropriations for the sinking fund and payment of all liabilities for the completion and furnishing of the new building, all of which have since been paid.

The net profits for the current quarter ending June 30, inst., based upon official returns for April, nearly complete returns for May and estimating the returns for June, will be about		$735,488 57
Add dividend received on the shares of the International Ocean Telegraph Company, held by this company		125,000 00
And surplus April 1, as above		102,402 82
Makes a total surplus July 1, 1876, of		$962,891 39
Interest on the bonded debt for one quarter (not payable till November 1, 1876), is	$116,576 90	
One quarter's proportion of sinking fund (not payable till May 1, 1877), is	20,000 00	
		136,576 90
Deducting and setting this aside leaves		$826,314 49

In March last steps were taken with the view to secure to this company control of the lines of the Southern and Atlantic Telegraph Company, in case it should become desirable to do so. Early in May it became expedient to close the matter, which was done by purchasing a majority of the stock. A lease of the lines has since been negotiated, the details of which have been substantially settled, and it is expected that possession will be given us in a short time:

The amount of the purchase is about $200,000, which, deducted from the balance of $826,314 49, as above, leaves		$626,314 49
There has been expended for construction of new lines from January 1 to May 1, 1876		32,900 60
Deducting this from balance of surplus as above leaves		$593,413 89
A dividend of one and one-half per cent on the capital outstanding requires		506,720 00
Deducting which, leaves a balance of		$86,693 89

To avoid possible misapprehension, it may be stated here that all expenditures for reconstruction and rental of leased lines are charged to profit and loss as current expenses, and deducted from gross receipts before profits are stated.

In view of the preceding statements, the committee recommend the adoption by the Board of the following:

Resolved, That a dividend of one and one-half per cent from the net earnings of the three months ending June 30, be and the same is hereby declared payable on the 15th day of July next.

Resolved, That for the purpose of such dividend the stock books be closed at three o'clock on the afternoon of the 20th inst., and be reopened on the morning of the 17th of July.

Northern Central Railway.

We gave in our issue of May 20th (p. 642) the Report of the President of this Company for the year ending December 31, 1875, showing the receipts from operations of the road to have been $4,926,247 72, the operating expenses $3,362,123 68, and the net earnings $1,564,124 04. From the Treasurer's statements, which have since been received, we learn that the receipts and expenses were apportioned as follows:

RECEIPTS.

Main Line		$3,246,348 45
Shamokin Division		410,022 98
Elmira Division		649,160 00
Chemung Division		237,242 12
Canandaigua Division		369,151 65
Green Spring Branch		14,322 52
Total earnings		$4,926,247 72
Dividends on stock, Elmira, Jefferson and Canandaigua R. R. Co.		23,530 00
Dividends on stock, Shamokin Valley and Pottsville Railroad Co		36,102 00
Contribution for operating Elmira, Chemung and Canandaigua Divisions (from Pennsylvania Railroad Company)		82,883 27
Total receipts		$5,068,762 99

EXPENDITURES.

Main Line	$2,092,661 75	
Shamokin Division	204,726 72	
Elmira Division	513,538 59	
Chemung Division	154,932 75	
Canandaigua Division	362,101 93	
Green Spring Branch	34,161 94	
Total expenses	$3,362,123 68	
Interest on funded debt	609,120 00	
Interest on Income Convertible bonds	70,000 00	
Interest on Income bonds, Chemung & Canandaigua Division	210,000 00	
Interest, discount, gold premium and taxes	114,230 50	
Dividends Chemung R. R. Co	1,659 00	
Rent, Shamokin Valley and Pottsville Railroad	52,167 00	
Rent, Elmira and Williamsport Railroad	165,000 00	
Rent Elmira, Jefferson and Canandaigua Railroad	25,000 00	
		4,609,800 18
Net income for the year		$459,462 81
Extraordinary expenses, to replace equipment worn out in previous years		173,950 00
Balance, credited profit and loss		$285,512 81
Add balance from previous year		82,704 80
Total to credit of profit and loss December 31, 1875		$368,217 61

The financial condition of the company, December 31, 1875, was as follows:

ASSETS.

Railway and appurtenances		$11,761,267 99
Real estate		1,043,461 73
Equipment		3,940,676 81
		$16,745,406 53
Stock of Chemung Railroad Co., and Elmira, Jefferson and Canandaigua Railroad Co		3,048,680 82
Cash on hand and in bank	$410,937 54	
Due from agents	111,910 99	
Due from connecting roads, etc	493,558 13	
Bonds and stocks	641,802 82	
Suspense account	100,719 15	
Materials and supplies	550,863 55	
		2,309,792 18
		$22,103,879 53

LIABILITIES.

Capital stock 116,840 shares		$5,842,000 00
Mortgage to State of Maryland to secure Annuity of $90,000, irredeemable		1,500,000 00
Mortgage 6 per cent coupon bonds (York and Cumberland R. R. Co.) due Jan. 1, 1877	$500,000 00	
Mort. Sinking Fund 6 per cent coupon bonds, due July 1, 1885	1,490,000 00	
Mortgage 6 per cent coupon bonds, due April 1, 1900	1,126,000 00	
Mortgage 6 per cent gold bonds due July 1, 1900: coupons, $2,559,000; registered, $205,000	2,804,000 00	
Consolidated General Mort. Gold bonds: series A & B, sinking fund 6 per cent dollar or sterling, coupon bonds, due July 1, 1904	2,964,000 00	
		8,884,000 00
Income Convertible 7 per cent coupon bonds, due April 1, 1880		1,000,000 00
Income 7 per cent coupon bonds, (issued in purchase of Chemung, and Elmira, Jefferson and Canandaigua Railroad stocks) due Jan. 1, 1922		3,000,000 00
Bills payable	$466,420 95	
Proportion of interest and rents chargeable against the revenues of the year 1875, but not yet due	416,624 58	
Pay rolls and vouchers	574 825 79	
Other current liabilities	51,790 60	
		1,509,661 92
		$21,735,661 92
Profit and Loss account		368,217 61
		$22,103,879 53

President.—THOMAS A. SCOTT.

Vice President.—A. J. CASSATT.

Directors.—A. J. Cassatt, Wayne MacVeagh, J. C. Bullitt, J. N. Hutchinson, S. M. Felton, Wistar Morris, H. P. Borie, S. M. Shoemaker, M. B. Sellers, M. B. Greensfelder, R. Oppenheimer, George Small.

Secretary.—ROBERT S. HOLLINS.

Assistant Secretary.—STEPHEN W. WHITE.

Treasurer.—JOHN S. LEIB.

Auditor.—JOHN CROWE.

General Counsel.—WAYNE MACVEAGH.

General Manager.—FRANK THOMSON.

Baltimore and Potomac Railroad.

The annual meeting of the stockholders of this company was held in Baltimore on the 7th inst. From the report of the directors, which was presented, we learn that the gross earnings from all sources for the year were $678,091 69, the total expenses $550,012 72, and the net earnings $128,078 97. Of the total earnings, $638,992 38 were on the Washington line and tunnel, and $39,099 31 on the Pope's Creek line. Of the total expenses $507,205 60 were on the Washington line and tunnel, and $42,807 12 on the Pope's Creek line. The increase in earnings over the previous year was $62,676 33, and the increase in expenses $65,104 26—making a decrease in the net earnings of $2,427 93. There was an increase of about $16,000 in passenger and freight receipts on both lines, but there was a decrease of that amount from mail and miscellaneous matter.

The general expenses of 1875 were reduced nearly fifty per cent, and the other increased expenditures occur mainly in maintenance of way, in conducting transportation and increased taxation on real estate, particularly on the passenger depot in Washington, which not being paid in 1874 made the amount in 1875 double the sum properly chargeable to that year. The increase in maintenance of way is caused by laying over five hundred tons of steel rails and nearly 17,000 new cross-ties, and improvements about the Washington depot.

In addition, five Lorenz switches and ten steel frogs have been put in at Fulton Junction, Lafayette, end of double track, Calverton road, Annapolis Junction and south end of Long Bridge, Washington; and high signals erected at Fulton, Lafayette, Calverton, Odenton, Bowie, Navy Yard and Long Bridge. Grading has been done for double track at different stations and from the Navy Yard tunnel to the Eastern Branch bridge. In Washington much change has been made in the tracks to make grades conform to those recently established by the engineer of the District; and several new buildings for warehouses and freight delivery erected in place of old ones torn down to meet the requirements of the city authorities.

The property purchased by the company at Fourteenth street in Washington, has been converted into an extensive coal yard by the erection of three series of trestles, each laid with double tracks, and the yard graded, paved and inclosed. The bridges over all the streams and rivers between Washington and Baltimore have been repaired and greatly strengthened by additional floor beams, etc.; all the superstructure above the piles, one thousand five hundred and seventy feet in length, except the Howe truss, of the Eastern Branch pile bridge, has been renewed; general repairs, including track-stringers and floor beams of three spans, have been made on the Long Bridge, and the channel widened at the south draw, to give a clear width between the fender piles of over sixty-six feet.

On the Pope's Creek line nearly all the bridges have also been repaired and strengthened, additional platforms and sidings laid, the turn-tables at Pope's Creek rebuilt and other improvements made; there has also been an increase of expenditure in the repairs of cars and motive power to keep both up to a proper standard for the requirements of the largely increased service.

The total number of passengers carried in 1875 was 1,030,706, as against in 1874 783,623— an increase in 1875 of 247,083. The amount of freight carried in 1875 aggregated in tons 215,859, as against in 1874 161,314—an increase in 1875 of 54,545 tons. The transportation per passenger per mile was seven-tenths of a cent, and per ton one mill per mile less in 1875.

Although the ratio of operating expenses to gross receipts is unquestionably large, the report says "it must be borne in mind that the company is required to keep up a large train service, more expensive terminal arrangements, and a higher standard of efficiency generally than the present business warrants, because of a keen rivalry with one and connections with other lines. If the present net results are, therefore, not as favorable as any would desire, we must remember that, in addition to several extraordinary expenses in 1875, which we are now better provided against in the future, the comparison with the year 1874 could not but be unfavorable, as the expenses of that year were, in common with every other road, reduced to a point at which they could not long be maintained, and we may look confidently to the future development of business more commensurate with present expenditures."

The old board of directors was re-elected, as follows: A. J. Cassatt, George B. Roberts, B. F. Newcomer, W. T. Walters, George Small, Dr. E. J. Henkle and Samuel Cox. Oden Bowie, president; A. J. Cassatt, vice-president; John S. Leib, treasurer; and John Crowe, secretary and auditor.

An Automatic Car Brake.

The Committee on Science and the Arts constituted by the Franklin Institute, made a favorable report recently on an ingenious automatic car brake, invented by T. E. Thompson, of Richmond, Indiana. The momentum of the car or cars is used to operate it, the brakes on each car acting independently of the brakes on the other cars. When a locomotive is retarded, either by the operation of its own brake or the reversing of its engine, the momentum already acquired by the car or cars following it carries them one against the other until their momentum is lost. The automatic brake mechanism is attached to the "draw-bar," by which the cars are coupled together, and which has a movement of a few inches. When two cars come together the thrust on the "draw-bar" of the second car applies the brake on that car, and when the thrust ceases the brake is withdrawn. Any obstruction on the track which retards a car applies the brakes automatically to the wheels of that car, and so on throughout the train. Ingenious mechanism, which cannot be described without the use of diagrams, prevents the thrust on the draw-bar from coming on the wheels when it is desired to back the car. The automatic brake may be applied to any car with the present hand brakes, and does not interfere with the use of the latter. The Committee of the Franklin Institute saw it operated on a single car, and report that so far as this experiment with one car enabled them to judge, "the invention is ingenious and effective, and possesses very decided merits." They also say "This brake would be, in our opinion, especially available when applied to freight cars, as each car has all the mechanism within itself necessary to control its own motion."

Austro-Hungarian Railroads.

Within the past five years the railroad growth of both parts of the Austrian Empire has been very rapid, the mileage in 1875 being nearly double that of 1870. The figures as officially given at the close of each of the last six years are as follows:

	Austria. Miles.	Hungary. Miles.	Total. Miles.
1870	3,697 20	2,135.76	5,832.96
1871	4,467.06	2,708.02	7,175.08
1872	5,180.67	3,300.17	8,480.84
1873	5,681.04	3,829.23	9,510.27
1874	5,899.75	3 937.72	9 837.47
1875	6,314 52	3,937.72	10,252.24
Increase in 5 years	2,617.32	1,801.96	4,419.28

This table shows, however, that during the last past two years railroad extension in the Empire-Kingdom has fallen off in a very remarkable manner, and that it has entirely ceased in Hungary.

Finances of New Hampshire.

The following is an abstract of the forthcoming report of the Treasurer, showing the revenue and expenses for the years ending June 1, 1875 and 1876, a comparative statement of the debt at the close of each year, and the state of the Treasury on the 1st of June, 1876:

Revenue:	1875.	1876.
State tax	$400,208 00	$400,000 00
Railroad tax	87,980 73	88,595 98
Insurance tax	11,575 19	11,756 68
Interest	5,697 59	2,192 26
Miscellaneous revenue	192 70	783 27
Totals	$505,654 21	$503,328 19
Expenses:	**1875.**	**1876.**
Ordinary expenses	$149,064 80	$189,461 87
Extraordinary expens.	85,240 04	29,395 05
Interest	236,089 80	222,679 31
Totals	$420,394 64	$391,536 23

COMPARATIVE STATEMENT OF DEBT.

	June 1, 1875.	June 1, 1876.
Liabilities	$3,775,457 35	$3,677,792 72
Assets	34,126 90	48,254 23
Net indebtedness	$3,741,330 45	$3,629,538 49
Reduction of debt during the year		$111,791 96

STATE OF TREASURY, June 1, 1876.

Liabilities:	
Trust funds	$58,592 72
Floating debt	100 00
Funded debt	3,619,100 00
Total	$3,677,792 72
Assets:	
Total	$48,254 23
Net indebtedness	$3,629 538 49

Dayton and Southeastern Railroad.

President Yeoman, of the Dayton and Southeastern Narrow Gauge Railroad Company, writes that 44 miles of the road are now graded and ready for the rails. One-third of the ties have been delivered, and another third is ready. The right of way for the whole line has been secured, except in a few cases in each county, which will soon be arranged. The first purchase of iron from the Cambria iron works will soon be delivered at Xenia. The first track laying will be done between Xenia and Washington. An engine has been purchased, and a train of construction cars has been built at the Barney & Smith car works. The work is going forward without drawback.

☞ The Coshocton Age says the Massillon and Coshocton Railway is now in a fair way of being completed at an early day. The road will intersect the Cleveland, Tuscarawas Valley and Wheeling Railway near Barr's Mills station, about twelve miles below Massillon, giving direct communication between Cleveland and Coshocton.

☞ The stock and bondholders of the Galena and Southern Wisconsin Narrow Gauge Railroad have concluded to extend the road from Platteville along the Little Platte river to Washburn and thence to Wingville, a distance of nineteen miles. The proposed cost is $13,825.

☞ Ground was broken on the 31st ult., for the railroad extension from Appleton, Wis., to New London. It is estimated that the road will be completed by the 1st of September.

Railroads of Ohio.

The following is an abstract of the forthcoming report of Hon. John G. Thompson, Commissioner of Railroads and Telegraphs of the State of Ohio:

There were but 86½ miles of track laid in Ohio last year, 125 miles less than the previous year.

The total number of passengers carried was 17,193,948, an increase over the previous year of 1,706,654. The total number of tons of freight carried was 25,750,501, an increase of 145,725. This estimate does not include supplies carried for company's use.

The gross earnings of all the lines were $64,945,325 83, against $70 928,194 67 last year, a decrease of $6,432,868 84, or nearly ten per cent.

The net earnings were $17,515,686 94, against $19,798,169 39 for year previous, being $2,272,482 43 less, or a fraction over 11 per cent. decrease, and amounting to only 3 per cent. upon the paid in capital stock and indebtedness of the companies owning the lines operated.

Passenger earnings were $17,116,524 48, a falling off of $5,779 82 from last year.

The earnings from freight transportation were $43,230,930 11, being $6,377,646 41 less than the amount derived from this source last year, and a decrease of 12.83 per cent.

The companies report a total paid in capital stock of $267,013,980 19, with $269,416,732 92 of bonds issued, and other indebtedness amounting to $31,808,044 45, an aggregate liability of $568,238,757 56.

The interest paid amounts, on funded debt, to $12,691,903 72, and on other debt to $685,081 36.

Dividends are reported as paid, on preferred stock, of $73,456, and $5,604,335 09 on common stock.

The aggregate length of main line and branches owned or leased is 8,219 miles, the traffic, etc., reported, however, being upon 7,489 miles.

The proportions paid for Ohio are, of

Capital stock paid in	$151,386,011 78
Funded debt	144,460,225 60
Other debt	19,829,115 02
Total debt	164,290,040 62
Total stock and debt	315,676,052 40
Miles of main track laid with rail	4,460 93
Miles of double track, siding, etc.	1,189 66
Total earnings (against $37,177,129 74 last year)	$35,254,117 60
Net earnings ($10,113,855 89 last year)	9,681,059 46
Number of employes (increase of 5)	27,716

The following list gives, in alphabetical order, the name of each road and by whom operated:

Ashtabula, Youngstown and Pittsburgh Railroad—by Pennsylvania Co.

Atlantic and Great Western Railroad—Receiver.

Atlantic and Lake Erie Railway—Construction Co.

Baltimore, Pittsburgh and Chicago—Baltimore and Ohio Railroad Co.

Baltimore Short Line Railway—Marietta and Cincinnati Railroad Co.

Bowling Green Railroad—Company.

Central Ohio Railroad—Baltimore and Ohio Railroad Co.

Chicago and Canada Southern Railway—Canada Southern Railway Co.

Cincinnati and Baltimore Railway—Marietta and Cincinnati Railroad Co.

Cincinnati, Hamilton and Dayton Railroad—Company.

Cincinnati, Hamilton and Indianapolis Railroad—Cincinnati, Hamilton and Dayton Railroad Co.

Cincinnati and Indiana Railroad—Indianapolis, Cincinnati and Lafayette Railroad Co.

Cincinnati and Muskingum Valley Railway—Pittsburgh, Cincinnati and St. Louis Railway Co.

Cincinnati, Richmond and Chicago Railroad—Cincinnati, Hamilton and Dayton Railroad Co.

Cincinnati and Springfield Railway—Cleveland, Columbus, Cincinnati and Indianapolis Railway Co.

Cincinnati, Sandusky and Cleveland Railroad—Company (except 24 miles, Springfield to Dayton, leased to Cincinnati and Springfield Railway Co, and included in its line.)

Cincinnati and Whitewater Valley Railroad—White Water Valley Railroad Co.

Cleveland, Columbus, Cincinnati and Indianapolis Railway—Company.

Cleveland and Mahoning Valley Railway—Atlantic and Great Western Railroad Co.

Cleveland, Mount Vernon and Delaware Railroad—Company.

Cleveland and Newburgh Railroad—Company.

Cleveland and Pittsburgh Railroad—Pennsylvania Company.

Cleveland, Tuscarawas Valley and Wheeling Railway—Company.

Columbus, Chicago and Indiana Central Railway—Pittsburgh, Cincinnati and St. Louis Railway Co.

Columbus and Hocking Valley Railroad—Company.

Columbus, Springfield and Cincinnati Railroad—Cincinnati, Sandusky and Cleveland Railroad Co.

Columbus and Xenia Railroad—Pittsburgh, Cincinnati and St. Louis Railway Co.

Dayton and Michigan Railroad—Cincinnati, Hamilton and Dayton Railroad Co.

Dayton and Union Railroad—by Trustees.

Eastern Ohio Railroad (not incorporated)—Company.

Gallipolis, McArthur and Columbus Railroad—not operated.

Harrison Branch Railroad—White Water Valley Railroad Co.

Iron Railroad—Company.

Lake Erie and Louisville Railway—Receiver.

Lake Shore and Michigan Southern Railway—Company.

Lawrence Railroad—Pennsylvania Co.

Little Miami Railroad—Pittsburgh, Cincinnati and St. Louis Railroad Co.

Mahoning Coal Railroad—Lake Shore and Michigan Southern Railway Co.

Mansfield, Coldwater and Lake Michigan Railroad—Pennsylvania Co.

Marietta and Cincinnati Railroad—Company.

Marietta, Pittsburgh and Cleveland Railway—Company; since 5th August by Receiver.

Massillon and Cleveland Railroad—Cleveland Mt. Vernon and Delaware Railroad Co.

Newark, Somerset and Straitsville Railroad—Baltimore and Ohio Railroad Co.

North Columbus Railway—Company.

Ohio and Mississippi Railway—Company.

Ohio and Toledo Railroad—Company.

Painesville and Youngstown Railroad—Company.

Pittsburgh, Cincinnati and St. Louis Railway—Company.

Pittsburgh, Fort Wayne and Chicago Railway—Pennsylvania Co.

Rocky River Railroad—Company.

Sandusky, Mansfield and Newark Railroad—Baltimore and Ohio Railroad Co.

Toledo, Canada Southern and Detroit Railway—Canada Southern Railway Co.

Toledo and Maumee Narrow Gauge Railroad—Company.

Toledo and State Line Railroad—Pennsylvania Company.

Toledo, Tiffin and Eastern Railroad—Pennsylvania Company; and

Toledo, Wabash and Western Railway—by a Receiver.

Making twenty operated by company owning road or by a receiver, twenty-eight by lessees, and one by construction company—four not being operated.

The total miles of track in the state is 10,306 including siding, 1,432 of which has steel rails.

The aggregate reported cost for constructing 3,434.30 miles, laid with rail and owned by forty companies, reporting this item separate from equipment, but including 653.46 miles of additional track graded, not ironed, is $176,353,450 65. The lines of eighteen being either leased or in progress, the companies owning no rolling stock. The cost of rolling stock, reported separately by twenty-four companies, representing 2,524.72 miles, is $28,333,941 90; while fifteen, with 3,927.75 miles of line, give cost of road and equipment combined at $289,654,811 48—a total of $494,342,204 03.

The amount of capital stock paid in of the entire sixty-two companies reporting is $268,507,543 68,—an apparent increase within the year of $3,549,923 20—$2,093,165 of which appears in the report of the Mansfield, Coldwater and Lake Michigan; $1,500,000 being issued to trustees to apply on construction contract with the Pennsylvania Company.

The bonded indebtedness is given as $269,470,632 92, and unfunded debt (not deducting cash, securities, etc., available to payment), $32,101,384 31, a total of $301,572,017 23—an increase of $11,645,317 37 of funded, and $12,228,702 39 other debt; and a total of paid in stock and debt of $570,029,560 91, being an increase of the combined items of $27,423,942 96.

The miles of track, main line, have increased from 36 miles in 1841 to 4,461 in 1875.

The aggregate cost of this 4,461 miles laid with rail is $276,470,817 86; but this includes, however, the grading of about 200 miles additional track, the separate cost of which is not given. Divided upon the completed line, this is an average per mile of $61,975 07. There is also reported as expended within the state, upon the lines of the Chicago and Atlantic, Cincinnati Railway Tunnel, Columbus and Toledo, the Valley, and the Wheeling and Lake Erie companies, the additional amount of $1,843,194 62, making the total expenditure for cost of construction $278,314,812 48—an increase over amount reported last year of $5,376,200 19, in addition to the excluding of $441,000 then entered, being certificates of stock issued by the Cincinnati and Great Northern Railroad Company for the purpose of acquiring 50 miles of the line in its proposed road, which had been previously graded by the old Cincinnati and Mackinaw company, the amount to balance being carried to construction account.

There is an increase in amount of bonded indebtedness reported of $6,678,270 84 (5.62 per cent.), making $144,514,825 60. The net floating debt (deducting means available to its liquidation) is $16,732,260 64, being an increased 7.28 per cent., or $1,135,450 07 since previous report.

This gives as total net debt of railway companies in Ohio $161,247,086 24, and a total increase of debt of $8,813,720 91.

The aggregate of paid-in capital stock and debt is $313,961,605 51—an increase for the year of $10,980,343 04; that of stock being 1.57, of debt 5.78, or, combined, of a fraction over 3.68 per cent.

The expense per mile of operating has been $5,833 61, $617 23 less than for year ending June 30th, 1874, being a total of $25,573,058 14, distributed as follows: Maintenance of way and structures, 24.95 per cent.; maintenance of cars, 8; motive power, 17.13; conducting transportation, 42.53; taxes, 4 52, and the other general expenses of operating, 2 87 per cent.

The amount reported as paid for loss and damage of goods, baggage, etc., for the year is $244,403 89; for injuries to persons, confined to those occurring in Ohio, is, to passengers, $14,698 58; to employes, $71,010 82; to others, $7,133 15; and for animals killed within the state, $35,668 68; a total of $372,912 62.

Omitting companies from whom no report has been received, which have a bonded indebtedness, the Lake Erie and Louisville, Mansfield, Coldwater and Lake Michigan, the Painesville and Youngstown, and the Toledo, Tiffin and Eastern have paid no interest the past year on their funded debt. The aggregate reported paid by thirty-seven companies is $12,691,903 72, an increase over amount paid the year previous of $61,525 89.

Eighteen companies report having paid dividends the past year, fourteen being on entire capital stock, as follows: The Baltimore Short Line, 8 per cent.; the Central Ohio, 6 per cent.; the

Cincinnati and Baltimore, 8 per cent.; Cleveland, Columbus, Cincinnati and Indianapolis, 3.50 per cent.; Cleveland and Mahoning Valley, 6 per cent.; Cleveland and Pittsburg, 7 per cent. (10 on about $20,000 of "old stock"); the Columbus and Hocking Valley, 8 per cent.; the Columbus and Xenia, 8.40 per cent.; the Iron, 135 per cent.; Lawrence, 10 per cent.; Little Miami, 8 per cent.; Massillon and Cleveland, 5 per cent.; Pittsburgh, Fort Wayne and Chicago, 7; and the Sandusky, Mansfield and Newark, 4 per cent.

The Dayton and Michigan paid 8 per cent. dividend on preferred, and 3.50 per cent. on its common stock; the Lake Shore and Michigan Southern 10 per cent. on preferred, and 3.25 per cent. on common; and two companies, the Cincinnati, Sandusky and Cleveland 3 per cent., and the Ohio and Mississippi 7 per cent., on preferred stock only.

The total amount paid was $6,377,791 09, of which $773,456 was on preferred stock. This is $134,427 12 less than amount paid preceding year.

Franklin Telegraph Co.

At the annual meeting of the stockholders of the Franklin Telegraph Company, held in Boston on the 7th inst., the following gentlemen were elected directors: Sidney Dillon, Jay Gould, W. J. Lyons, John A. Mortimer, Thomas J. Echert, Henry M. Taber, Frederick L. Ames, Edwin F. Atkins, E. H. Rollins. From the report of the company which was submitted, it appears that during the last fiscal year three miles of pole line and seventy miles of wire line have been constructed at a cost of $4,147 54. Seven offices have been opened and six closed, leaving in operation at the end of the year 1,185 miles of pole and 375 miles of wire telegraph, in good order, connecting 158 offices. The cost of repairs the past year was $32,000; receipts $320,660 76; expenses, $336,431 64; deficit, $12,770 88. The increase of receipts over last year was $24,703 06; increase in expenses, $36,703 32. The assets are $17,680 79; liabilities, $78,118 70. The reduction of rates had proved favorable to the line. The relations with the Direct Cable and other companies were satisfactory. New lines are recommended as follows; from Boston to Portland; from Bristol, N. H., to Wells River, Vt.; from Providence, via Fall River, to New Bedford; from Springfield, via Holyoke, North and East Hampton, to Greenfield, Mass., thence to Troy and Albany, N. Y.

☞ At the annual meeting of the Middletown, Unionville and Water Gap Railroad company, held at Middletown, N. Y., on the 29th ult., President Burt reported that all difficulties arising under the lease to the New Jersey Midland had been adjusted and a settlement of accounts arranged with the receivers, which was now before the Chancellor of New Jersey for approval. During the year the floating debt of $8,000 has been paid; about $29,000 had been paid on account of past due coupons, and $8,760 more was ready for payment to the second mortgage bondholders on June 1. The coupons accruing during the year have all been paid. The rental is now punctually paid.

☞ George G. Sanborn, Esq., of Concord, late Superintendent of the Nashua, Acton and Boston Railroad, had been appointed General Business Agent of the Northern Pacific Railroad, with headquarters at St. Paul. He will also have charge of the freight and ticket business of the road.

The Coal Trade.

It is known that the anthracite coal trade was almost entirely suspended all last week by previous agreement of the associated coal carrying companies and coal operators. How much the coal product was lessened by such suspension of production and transportation, however, we shall not positively know until the end of the present week, as our tabulated return is only up to the 3d instant, just one week behind the actual working of the trade. The last weekly returns furnished by the several carrying companies connecting with the anthracite regions for the week ending on the 3d instant footed up nearly the same as those of the previous week. The aggregate for the week foots up 409,095 tons, against 342,193 tons for the corresponding week last year, showing an increase of 66,902 tons. The total amount of anthracite mined for the year is 6,492,428 tons, against 5,364,634 for same period last year, an increase of 1,127,794 tons. The quantity of bituminous coal sent to market for the week was 82,429 tons, against 98,430 tons for corresponding week last year, a decrease of 16,001 tons. The whole bituminous tonnage from the beginning of the coal year is 1,361,040 tons, against 1,341,523 tons in corresponding time last year, an increase of 19,517 tons. The total tonnage of all kinds of coal for the week is 491,524 tons, against 440,623 to corresponding date last year, an increase of 50,901 tons, and the total tonnage for the coal year is 7,858,468 tons, against 6,706,157 tons to same date last year, an increase of 1,147,311 tons. The quantity of coal and coke carried over the Pennsylvania Railroad the last week was 90,025 tons, of which 73,043 tons were coal and 16,982 tons coke. The total carried this year is 1,531,307 tons, of which 1,256,533 were coal and 274,850 coke. This total embraces all the coal carried over the road, east and west. At Port Richmond for the week ending on the 10th instant there were receipts of 12,300 tons of coal and shipments of 25,000 tons, leaving 171,000 tons on hand. We continue to quote freight charges to New York at 70 cents, Providence at $1 20@$1 25, and to Boston at $1 25@$1 30 per ton. At Perth Amboy for the week ending on the 3d instant the receipts of coal were 21,021 tons and the shipments 23,514 tons, leaving 88,179 tons on hand. Freights to New Haven, 60 cents; Hartford, 95 cents; New York, 40 cents. The coal market is without special feature, beyond the fact that a more cheerful feeling prevails and the trade generally is hopeful that the crisis in the trade for this year has passed. The prospective advance in prices a month or two hence stiffens the market in the present, and by making it more equal will steady the industries that most depend on coal.—*Phila. Ledger, June* 12.

☞ F. W. Bennett & Co., auctioneers, sold at the Baltimore Exchange on the 10th inst $15,000 in coupon bonds of $1,000 each of the Chesapeake and Ohio Railroad Company, 7 per cent. interest payable in gold. The bonds are part of an issue of $15,000,000, known as the second mortgage. Unpaid coupons since 1873 were attached. The bonds offered at the Exchange were purchased by Jacob Tome at 10 cents on the dollar.

☞ At a meeting of second mortgage bondholders of the Atlantic and Pacific Railroad, held on the 12th inst., Joseph Seligman, A. Pierce, F. Butterfield, William H. Coffin, M. F. Buckley, James P. Robinson and Uriel Crocker were appointed a committee to prepare a plan of reorganization of the company, with instructions to report promptly.

☞ The California Board of Transportation Commissioners held its initial meeting at the State Capitol on the 2d inst., and organized by electing Gen. Stoneman as President, and Walter M. Phillips as Secretary.

Railroad Earnings.

The earnings of the Michigan Central Railroad for the first week in June, 1876, were $135,481 75, against $114,997 42 for the first week in June, 1875, an increase of $20,484 33.

The earnings of the Ohio and Mississippi Railroad for the first week in June, 1876, were $75,789 94, against $64,527 77 for the first week in June 1875, an increase of $11,262 17.

The earnings of the Toledo, Peoria and Warsaw Railway for the first week in June, 1876, were $40,150, against $19,450 for the first week in June, 1875, an increase of $20,700.

The earnings of the Chicago, Rock Island and Pacific Railroad for the first week in June, 1876, were $174,153 51, against $146,877 31 for the first week in June, 1875, an increase of $27,776 20.

The following are the comparative earnings of the Chicago, Milwaukee and St. Paul Railway Company:

First week of June, 1876	$241,000
First week of June, 1875	178,355
Increase	$62,645
January 1 to June 7, five months, 1 week:	
1876	$3,324,115
1875	2,828,628
Increase	$495,487

The following are the comparative earnings of the St. Louis, Kansas City and Northern Railway Company for the week ending June 7:

1876	$54,879 73
1875	42,255 38
Increase	$12,624 35
Total from January 1 to date:	
1876	$1,328,042 72
1875	1,101,253 80
Increase	$226,788 92

☞ A special fast freight train of eight cars left Auburn on the 3d inst. over the Southern Central Railroad. Each of the eight cars displayed ten flags, flying from short staffs projecting from the edge of the roof. There were the stars and stripes, the cross of St. George, the tri-color, and, indeed, the flags of all nations. The occasion was the shipment of mowers and reapers to Europe by D. W. Osborne & Co., of Auburn.

☞ The Lockport (N. Y.) Journal says that at a meeting of the directors held on the 3d inst. "all expressed themselves in favor of proceeding at once to contract the road from this city to Tonawanda. From the decision and energy manifested at this meeting, we have no doubt but this road will be constructed and in running order in time for the fall trade."

☞ The sale of the "Western Extension" of the New York and Oswego Midland Railroad took place at Ithaca on the 31st of May, in accordance with the last postponement, at the County Clerk's Office, by the referee, D. Ira Baker, of New York. The property was disposed of for $25,000 to O. F. Peet, of New York.

☞ The first meeting of the Brownsville and Sebec Railroad Co. was held in Bangor, Me., on the 24th ult. The charter was accepted and the following Board of Directors elected: O. W. Davis, Jr., A. H. Merrill, M. S. Drummond, Judso Briggs, M. W. Brown, C. L. Dunning, F. M. Ford

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, June 17, 1876.

Financial and Commercial Affairs.

Supplies of Money available to responsible borrowers in the local market have been largely in excess of all current requirements whether for speculative or mercantile use; and rates on accommodation have been ruling very low throughout; closing with call loans quoted at 2@2½ per cent to the leading Street firms, and best commercial credits at 4@6 per cent per annum, with a very small offering noted of strictly choice short date business paper. A further important increase in legal tender hoard of the city banks was shown on the last weekly exhibit, with a falling off in the specie and deposit lines, and a contraction in the loan and discount items, as well as in the circulation. The U. S. Sub Treasury reported a falling off in the coin and currency reserves of the office but not of much moment. The U. S. Sub Treasury currency balance was reduced $412,679, and the specie reserve $109,933. National Bank notes received at the Treasury Department last week for redemption were to the amount of $5,324,000. The City Banks have had their deposits cut down $366,100; and their legal tender reserve enlarged $1,293,500. The specie average has been reduced $1,759,700. The loan and discount item was diminished $1,308,800. The circulation fell off $133,700. The U. S. Sub Treasury in this city closed the week with a currency balance of $33,033,595 against $33,446,274 the preceding week; and a coin hoard of $38,093,322 against $38,203,255 on the previous return. The City bank exchanges in currency reached $355,287,518, or a daily average of $59,214,585. The customs revenue of the port during the week was

$1,650,000. The City banks reported their average of gold last week at $15,729,100, and their greenback average at $53,060,000. Their deposits stood at $210,830,500. The loan item was $249,370,700 The circulation was $15,810,100.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $16,081,475 as against $16,456,150, the preceding week.

The aggregate of the outstanding U. S. currency, of all denominations, June 1st was $407,931,585. The outstanding amount of legal tender notes is $370,123,668. The National bank circulation is now $332,680,006 including $2,099,190 of national gold bank notes.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency $10,154,675; special deposit of legal tenders for the redemption of certificates of deposit, $35,180,000; Coin, $64,828,118; Coin certicates, $23,596,700.

The week's import entries of Foreign Merchandise at New York were $5,907,450, including $819,394 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 110 millions; and from Customs, 141 millions.

Gold has been less active and less buoyant since our last. The speculative inquiry has been much less confident, having lacked the support of war reports and rumors of any weight. The customs call has been moderate. The export drain has been very light. The extremes of the price during the week have been 112⅜@112¾, closing on Wednesday at 112¾, as against 112⅝ on Wednesday of the preceding week. The specie outflow last week was only $421,421 against $937,736, the previous week. The imports of specie at this port last week were $63,812, and since January 1st $1,806,394 as against $6,467,332 same time last year. The customs demand for gold last week averaged $275,000 per day. Foreign Exchange has been less sought after and quoted rather easier and irregular in price. Bankers sixty day bills on London closed on Wednesday at $4 87½@$4 88; sight bills on London at $4 89½@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $6,513,296. The week's imports of Dry Goods and general merchandise were to the specie value of $5,907,450 as against $6,286,815 the corresponding week of 1875.

Government Securities have been of generally very ready sale through the week, the demand on investment account having been quite brisk, and prices have been quoted firmer, with an upward tendency. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $343,756,050.

U. S sixes of 1881 closed on Wednesday of this week at 123¾@124; U. S. Five-Twenties of 1865, at 115⅞@116⅛; U. S. Five-Twenties of 1865 consolidated, 120⅜@120⅝; U. S. Five-Twenties of 1867, 122¾@122⅞; U. S. Five-Twenties of 1868, 123¾@124; U. S. Ten-Forties at 118½@118¾; U. S. Fives of 1881, (Funding Loan) 117½@117¾; Six per cent. currency Sixes 125½@126.

State and Railway bonds have been generally more active, and prices of the more substantial loans have shown more firmness. And in the line of Railway and Miscellaneous share property the movements have been on a comparatively moderate scale with prices fluctuating frequently though closing with some show of steadiness, in the instance of the leading speculative favorites.

A less satisfactory movement has been reported in the line of domestic produce, particularly in Breadstuffs, Provisions, and Cotton, prices of which have further declined, closing irregularly. Foreign merchandise has also been in less confident demand, but without important changes as to values. Sugars have favored sellers on an increased call for supplies for the refining interest. Metals have been in less request at about former figures. Eglinton Pig Iron quoted here at $27 50@$28 50; Glengarnock $29 50@$30; Coltness $30@$31; No. 1 American Pig at $22@$23; No. 2 do. at $20; Forge, $18@20; American Rails at works $40@$43; Old Rails $21@$22. Wrought Scrap, $28. Ocean freights have been less active, at easier rates. Accommodation for Grain, Provisions, Flour, Cotton, Tobacco and Petroleum, most sought after.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Illinois Central Railroad.

During the month of May 1876, 610.42 acres of Land were sold for $4,759 23. The cash collected on Land Contracts during the same time was $16,365 01. The Traffic on the Main Line in Illinois was $461,094 63, against $449,593 98 in May, 1875. The Traffic of the Iowa Lines, (leased at 35 per cent of gross receipts), was $124,874 27, against $155,286 87 in May, 1875.

☞ The Wason Manufacturing Company, Brightwood, Mass., have placed in the Annex, Main Building of the Centennial Exhibition at Philadelphia, a first-class Railway Passenger Car. This car was not built for exhibition, but is one of 156 built by this company for the Central Railroad of New Jersey, without exterior ornamentation, or unnecessary and extravagant expense; but they do claim for it superior design, material and workmanship.

☞ The Scioto Valley Railroad was completed from Columbus to Chillicothe on the 31st ult., the last twenty miles having been completed within twenty-five days.

☞ The route of the Painesville, Canton and Bridgeport (Ohio) Narrow Gauge Railroad has been changed so as to pass through Cuyahoga, Summit and Tuscarawas counties.

Elkton and Middletown Railroad.

It gives us pleasure to be able to report progress in this very desirable enterprise—such as bids us entertain a lively hope of its accomplishment. The directors of the Philadelphia, Wilmington and Baltimore railroad held their semi-annual meeting in Wilmington on Thursday last. At that meeting the subject of building the Elkton and Middletown railroad was actively discussed, and a committee, consisting of Messrs. Jacob Tome, Enoch Pratt and Joseph Bringhurst, appointed to examine the matter more fully, and report their conclusion. The *personelle* of this committee affords gratifying evidence that business is meant. Messrs. Tome and Pratt are known to heartily favor the enterprise, and will undoubtedly report in its favor at the earliest moment. It then remains to get the indorsement of a majority of the board to their recommendation either to build the road or to indorse the bonds, and when we learn that Messrs. Tome and Pratt have offered to take the bonds or the stock at par there ought to be no reason why the work should not be early begun. Mr. Jones was present with facts and figures to demonstrate the importance and the feasibility of the work, and with six of the board of directors actively favoring the measure, we may confidently look for early evidence that it will, ere long, be.—*Cecil (Md.) Whig.*

☞ It is expected that the Scioto Valley Railroad will be opened for regular business between Columbus and Chillicothe on the 19th inst. The Chillicothe Gazette says that active preparations are being made at that place by the Marietta and Cincinnati Railroad Co. to complete the connection of the two roads.

☞ The Woonsocket, Rhode Island, Reporter says that the "stock of the Rhode Island and Massachusetts Railroad has been all subscribed, and a meeting for organization was held in Franklin on Monday. Mr. E. G. Sweatt of this town has contracted to build the Massachusetts end."

☞ An effort is being made to induce the Dominion Government to build a railway bridge across the St. John River, connecting the Intercolonial with the Consolidated European and North American Railway to Bangor and Boston.

☞ The Johnstown (Penn.) Tribune says that 1137 tons of Bessemer rails were sent from the Cambria Iron Works on the 8th inst., via the Pennsylvania Railroad, consigned to the Pittsburg, Ft. Wayne and Chicago Railway Company.

☞ The officers of the Springfield and Northwestern (Ills.) Railroad, elected on the 6th inst., are: President, John Williams; Vice President, John T. Stuart; Treasurer, George Passefield; Secretary, H. Olendorff.

☞ Dalton, Mass., in town meeting, on the 10th inst., decided to build a $2500 iron bridge at the Center, with double track and sidewalks on both sides.

☞ At a meeting of stockholders of the Piscataquis Railroad Company in Bangor, Me., the old board of directors was re-elected with G. H. Jewett for President.

☞ Engineers have commenced the survey of the line of the Manchester and Keene (N. H.) Railroad between Greenfield and North Weare.

☞ James Collett has been re-elected President of the Evansville, Terre Haute and Chicago Railroad Company.

Chicago, Burlington and Quincy Railroad.

The earnings of the Chicago, Burlington and Quincy Railroad in April, 1876, was $892,369 80, the expenses $530,773 31, and the net earnings $361,596 49. In April, 1875, the earnings were $979,560 45, the expenses $491,891 38, and the net earnings $487,669 07—showing a decrease in earnings of $87,130 65, an increase in expenses of $38,881 93, and a decrease in net earnings of $126,072 58. From January 1 to April 30, 1876, the earnings were $3,536,707 28, the expenses $1,910,184 73, and the net earnings $1,626,522 55. For the corresponding period of the previous year the earnings were $3,625,590 89, the expenses $1,941,661 14, and the net earnings $1,583,929 25—showing an increase in earnings of $11,116 39, a decrease in expenses of $31,746 41, and an increase in net earnings of $42,592 80.

☞ The directors of the Hudson Suspension Bridge and New England Railway Company, elected on the 5th inst., are: Chas. J. Pusey, Edward W. Serrell, John Q. Hoyt, L. T. Guthrie, N. P. Stanton, A. W. Humphreys, Edward R. Wiswell, Job H. Jackson, N. M. Halsted, Alden Swan, Alfred R. Griggs, James R. Macbeth and Alfred F. Marsh. The officers are: President, Chas. J. Pusey; Vice President, John Q. Hoyt; Treasurer, A. W. Humphreys; Secretary, James R. Macbeth; Chief Engineer, Edward W. Serrell.

☞ The officers of the Chicago, Milwaukee and St. Paul Railway Company, elected on the 5th inst., are: President, Alexander Mitchell; Vice President, Julius Wadsworth; General Manager, S. S. Merrill; Assistant General Manager, John C. Gault; Secretary and Treasurer, R. D. Jennings; Auditor, J. P. Whaling.

☞ The officers of the St. Louis, Alton and Terre Haute Railroad Company, elected on the 5th inst., are: Robert Bayard, President; George W. Parker, Vice-President and General Manager; E. F. Leonard, Secretary; Henry T. Nash, Auditor, and H. S. DePew, General Freight and Passenger Agent.

☞ The earnings of the Pacific Railroad (of Missouri) for May, 1876, are reported at $264,847, against $222,331 for May, 1875, an increase of $42,516; and from January 1 to June 1, 1876, $1,448,803, against $1,173,720 for the corresponding period of 1875, an increase of $275,083.

☞ The earnings of the Atlantic and Pacific Railroad for May, 1876, were $99,601 18, against $93,895 61, for May, 1875, an increase of $5,705 57. From January 1 to May 31, 1876, the earnings were $504,697 83, against $465,650 84 for the corresponding period of 1875, an increase of $39,046 99.

☞ The Commissioner of Patents has reissued the patent of S. A. Little & Co. to the Yale Lock Company. It is said to be a controlling patent upon chronometer locks for safes and vaults.

☞ At the annual meeting of the Pennsylvania Railroad Company, held in Pittsburg on the 4th inst., the old board of directors was re-elected.

☞ It is stated that the Southwest Pennsylvania Railroad will be completed as far as Uniontown by the Fourth of July.

Total exports	$301,988,856	$276,819,007

The Illinois Railroad Tax Cases.

The following is the decision of the United States Supreme Court affirming the decision of the Circuit Court, holding the assessment valid and the State law constitutional:

No. 702. Isaac Taylor, Collector of Peoria County, et al., appellant, vs. James F. Secor and William Tracy, and Nos. 701 and 703—Appeals from the Circuit Court for the Northern District of Illinois.—The three cases whose titles stand at the head of this opinion are appeals from decrees enjoining the appellants from the collection of taxes assessed by the proper officers of the State of Illinois, against three several railroad companies, organized under the laws of that State, and doing business in it. The plaintiffs in the first named of the above suits are mortgagees of the Toledo, Peoria and Warsaw Railroad Company. In the other two cases the complainants are stockholders of the respective companies whose interests they represent—namely, the Chicago and Alton Railroad Company in No. 701, and the Chicago, Burlington and Quincy Railroad Company in No. 703. The acts of the Legislature of Illinois of March 30, 1872, under which the taxes complained of were assessed, makes special provisions for the taxation of railroads and other corporations, the main feature of which is the purpose of leaving to each county, city and town the power of assessing for taxation what is properly local in the same manner that other similar property is taxed in that municipality, and at the same time to subject to like taxation, on some fair basis, that which is not in its nature so clearly local, but which, by reason of its being appurtenant or incident to the railroad, should pay its share to the State and to all the counties, towns and cities through which any part of the road runs. The theory of the system is manifestly to treat the railroad track, its rolling stock, its franchise and its capital as a unit for taxation, and to distribute the assessed value of this unit according as the length of the road in each county, city and town bears to the whole length of the road. The principal provision of the law providing for the valuations to be made was as follows:—

The capital stock of all companies and associations now or hereafter created under the laws of this State shall be so valued by the State Board of Equalization as to ascertain and determine respectively the fair cash value of such capital stock, including the franchise, over and above the assessed value of the tangible property of such company or association. Said board shall adopt such rules and principles for ascertaining the fair cash value of such capital stock as to it may seem equitable and just; and such rules and principles, when so adopted, if not inconsistent with this act, shall be as binding and of the same effect as if contained in this act, subject, however, to such change, alteration or amendment as may be found from time to time to be necessary by said board; provided that in all cases where the tangible property or capital stock of any company or association is assessed under this act the shares of capital stock of any such company or association shall not be assessed or taxed in this State. This clause shall not apply to the capital stock or shares of capital stock of banks organized under the general banking laws of this State. The objection was that the law was repugnant to the constitution of the State. The Court decides thus:—

While this Court does not lay down any absolute rule limiting the powers of a court of equity in restraining the collection of taxes, it declares that it is essential that every case be brought within some of the recognized rules of equity jurisdiction, and that neither illegality nor irregularity in the proceedings, nor error or excess of valuation, nor the hardship or injustice of the law, provided it be constitutional, nor any grievance which can be remedied by a suit at law, either before or after the payment of the tax, will authorize an injunction against its collection.

This rule is founded on the principle that the levy of taxes is a legislative and not a judicial function, and the Court can neither make nor cause to be made a new assessment if the one complained of be erroneous, and also in the necessity that the taxes, without which the State could not exist, should be regularly and promptly paid into the treasury. Query—Whether the same rigid rule against equitable relief would apply to taxes levied solely by municipal corporations for corporate purposes as that here applied to State taxes? Probably not. No injunction, preliminary or final, can be granted to stay collection of taxes until it is shown that all the taxes conceded to be due, or which the Court can see ought to be paid, or which can be shown to be due by affidavits, has been paid or tendered without demanding a receipt in full.

While the constitution of Illinois requires taxation in general to be uniform and equal, it declares, in express terms, that a large class of persons engaged in special pursuits, among whom are persons or corporations owning franchises and privileges, may be taxed as the Legislature shall determine, by a general law, uniform as to the class upon which it operates, and under this provision a statute is not unconstitutional which prescribes a different rule of taxation for railroad companies from that for individuals. Nor does it violate the provision of the Constitution of the United States. The capital stock, franchises, and all the real and personal property of corporations are justly liable to taxation, and a rule which ascertains the value of all this by ascertaining the cash value of the funded debt and of the shares of the capital stock as the basis of assessment is probably as fair as any other. Deducting from this the assessed value of all the tangible real and personal property which is also taxed, leaves the real value of the capital stock and franchises subject to taxation as justly as any other mode, all modes being more or less imperfect. It is neither in conflict with the constitution of Illinois nor inequitable that the entire taxable property of the railroad company should be ascertained by the State Board of Equalization, and that the State, county and city taxes should be collected within each municipality on this assessment, in the proportion which the length of the road within such municipality bears to the whole length of the road within the State. The action of the Board of Equalization in increasing the assessed value of a railroad company or an individual above the return made to the Board does not require a notice to the party to make it valid, and the courts cannot substitute their judgment as to such valuation for that of the Board. The Supreme Court of the State of Illinois having decided that the law complained of in these cases is valid under her constitution, and having construed the statute, this Court adopts the decision of that Court as a rule to be followed in the federal courts. Mr. Justice Miller delivered the opinion.

☞ The first through train passed over the Northern Division of the Intercolonial Railway between Moncton and St. Flavie Station on the 2d and 3d insts. The road was opened for freight traffic between Halifax and Quebec on the 12th inst. Express passenger trains will commence to run on the 3d of July. The formal opening will take place about the 1st of July.

☞ A decree for foreclosure of mortgage and an order of sale of the Missouri Pacific Railroad was formally entered in the United States Circuit Court at St. Louis on the 9th inst. The sale will be made by Master in Chancery, S. D. Thompson, and will take place the same day as that of the Atlantic and Pacific.

☞ Regular trains have commenced running between Philadelphia and Mount Ephraim over the Camden and Gloucester and Mt. Ephraim Narrow Gauge Railway.

A New Narrow Gauge Railroad.

The Louisville Courier-Journal says that prominent citizens of Southern Indiana are agitating the enterprise of constructing a narrow gauge railroad from Bedford to Madison, via Brownsville, with the ultimate design of connecting the road with Louisville and extending it westward to St. Louis, and then adds:

We know nothing of the responsibility of the promoters of the undertaking, but it appears to have a good popular support, and it is given out that subscriptions and surveys will be commenced immediately. The promoters of the scheme have given a substantial evidence of their good sense in adopting the narrow gauge, at all events, as that system is no doubt the system of the future, except for a few great trunk lines.

☞ The Central Vermont Railroad Company filed its account on the 7th inst., as Receiver of the railroads, for the year ending July 1, 1875. All sums of money paid out for rents of the different roads and all payments of interest on the funded debt are not included in the statement. The figures show a falling off during the six months ending July 1, 1875, as compared with the six months ending January 1, 1875. The gross earnings were $3,772,065 79; the expenses, $2,689,867 44, leaving the net earnings $1,082,198 35.

☞ At the annual meeting of the stockholders of the Columbus, Chicago and Indiana Central Railway Company held at Columbus, Ohio, on the 7th inst., the following named persons were elected Directors: Adrian Iselin, W. Whiteright jr., F. R Fowler, Henry Morgan, John Bloodgood, A. W. Greenleaf, Alexander Taylor, jr., J. Nelson Tappan, and John B. Thompson, of New York; J. T. Thomas of Philadelphia; John S. Newman and J. N. Converse, of Indiana; John Gardner, of Norwalk, Ohio; B. E. Smith and William Jamison, of Columbus, Ohio.

☞ The state of commerce between the United States and Turkey during the fiscal year ended June 1875, shows that the value of the imports was $579,570, including $472,477 in commodities free of duty. The domestic exports to Turkey were $4,244,784. The re-exports amounted to $34. The indirect imports amounted to $1,638,592, of which $146 was brought through the ports of France, and $1,638,446 through the ports of England.

☞ The Philadelphia and Reading Railroad Company announces that that portion of the 6 per cent general mortgage bonds which fall due on July 1, numbering 214 bonds, and amounting to $214,000 in gold, have been drawn, and will be paid at the office of the company, in Philadelphia, or at the counting house of Messrs. McCalmont Brothers & Co., London, at the option of the holders, on and after that date.

☞ At the annual meeting of the Canada Southern Railway Company, held at St. Thomas on the 7th inst., resolutions were passed approving and confirming the sale of a majority of the stock of the company to Commodore Vanderbilt. The following gentlemen were elected directors for the ensuing year: William H. Vanderbilt, Augustus Schell, Samuel F. Barger, E. D. Worcester, Joseph Harker, W. L. Scott, Sidney Dillon, Adam Crooks, and E. A. Wickes.

☞ The track of the Southern Pacific Railroad has been extended to the summit of the Sierra Nevada mountains, at Tehachepa, and regular trains have commenced running daily between San Francisco and Keene station, 338 miles, or to within seventy-eight miles by stage of Los Angeles, and the grading of this gap is being crowded with workmen. The track is already laid 150 miles east of Los Angeles.

☞ At a meeting of the Shore Line Railroad Company, held at Cherryfield, Maine, on the 9th inst., 2,300 votes were cast for a new directory committed to put the road under contract at an early day. Hon. J. C. Talbot was re-elected President.

New York, Saturday, June 24, 1876.

Canton Company.

At the annual meeting of the stockholders of this company, held in Baltimore on the 15th inst., the report of the president and directors for the year ending May 31, 1876, was presented. The report states that, notwithstanding the unprecedented commercial depression, the prosperity of the Canton Company has been maintained, and the operations of the Union Railroad largely increased during the past year; that there has been no decline in the value of the landed estate of the company, but that by reason of the extensive railroad and other improvements its value has been largely enhanced. The few sales made during the past year are attributed to the dullness of trade and the lack of disposition to enter upon new enterprises. Some advantageous sales are, however, said to have been made, and others under consideration which, if negotiated, will add largely to the revenue of the company. The total amount of sales and leases for the year, estimated at a valuation of six per cent, is put at $45,333 33, of which $27,366 66 were ground rents bought by the trustees of the sinking fund of the Union Railroad Company, and with other funds on hand applied to the liquidation of $41,000 of the bonded debt.

The total income of the Canton Company from rents, etc., was $80,133 58, an increase over the previous year of $4,955 43. The ordinary expenses for the same period were $51,828 37; a reduction over the previous year of $13,002 98. The ordinary expenses of the present year are estimated at about $36,000. The ordinary receipts for the past seven years are shown to have amounted in the aggregate to $527,119 84, and the ordinary expenses to $490,747 52. The total receipts and expenses, ordinary and extraordinary, for the same period, are given in detail, and exhibit receipts from all sources of $2,166,919 92, and expenses $2,144,899 55; leaving a balance in bank on the 31st of May last of $22,020 37. The sinking funds of the Union and Canton Companies were increased by rents, etc., during the last fiscal year $127,543 12. These funds have now to their credit $521,189 51; besides which the mortgage debt has been reduced $48,000. The actual amount of the bonded debt of the two companies, at the present time, exclusive of the sum invested in the sinking fund, is $2,886,810 49. As security for this debt the Canton Company has some eighteen thousand building lots in the city and the county adjoining, and nine hundred acres of farm and wood land, with over three miles of wharf, dock and water front on the deep water of the harbor. Besides these the Canton Company owns the Union Railroad, ground rents, warehouses, dwellings, etc., estimated at $3,356,892 50.

The appended report of the Union Railroad shows that 19 568 freight cars passed over the road during the fiscal year, as against 11,308 for the same period in 1875. The gross revenue was $62,540 90, the working expenses $32,126, leaving a net revenue for the year of $30,414 50, as against $8,354 52 in 1875. The total revenue from the elevator was $11,445 41. The previous year it was $10,738 33, being a gain for the past year of $707 38.

The report next refers to the improvements making in Canton by the Northern Central Railroad Company, and the promise of an increase of traffic from the Western Maryland Railroad, and asks whether, with the terminal and railroad facilities now furnished or in progress, an amount of revenue may not reasonably be expected from the Union Railroad within the next two years adequate not only to meet all its own expenses and the interest on its bonds, but also to make a return to the Canton Company sufficient to pay every liability? Finally, assurance is given that ample provision has already been made to liquidate all liabilities of either the Union Railroad or the company that may accrue within said time.

Philadelphia, Newtown and New York Railroad.

On the 15th inst., the Philadelphia, Newtown and New York Railroad was opened for travel as far as Fox Chase, in Philadelphia County, a distance of eleven miles. On that day a special train of two cars made a trial trip, leaving the Pennsylvania Railroad Depot, Thirty-second and Market streets, at 3 o'clock P. M., conveying officers of the company and invited guests, the entire party numbering about one hundred persons. After passing over the Pennsylvania Railroad as far as Erie Avenue Station, the train branched off upon the new road and continued on its way to Fox Chase, six miles beyond. The train returned at 4.30 P. M. The Philadelphia, Newtown and New York Railroad was first projected nearly twenty years ago, its construction being retarded by various obstacles until quite recently. Although the track extends no further than Fox Chase, yet considerable progress has been made between that point and Newtown in the way of grading and in building of bridges. The Directors expect to complete the road over the intervening ten and a half miles very soon. Their charter permits them to form a connection with any of the railroads of New Jersey or Delaware. For the present the depot and the rolling stock of the Pennsylvania Railroad Company will be used.

☞ Lyman T. Touly and others filed a certificate of incorporation with the Secretary of State of Ohio on the 16th inst., of the Painesville and Southern railroad company, from Painesville township, Lake county, to Phelan station, Trum-

bull county, through the counties of Lake, Geauga, Portage and Trumbull. Capital stock, $400,000.

Cincinnati, Hamilton and Dayton Railroad.

The earnings of this road for the year ending March 31, 1876, were as follows:

From passengers		$312,924 87
" freight		509,696 14
" mails and express		21,028 89
" rents from other companies		233,316 77
" mileage of cars		31,194 98
" interest		29,071 60
" miscellaneous		1,984 90
		$1,147,753 24
Expenses, viz:		
Transportation	$677,577 60	
Taxes	53,043 61	
Interest on bonds	162,430 00	
	893,051 21	
Net earnings		$254,702 03
To which add net earnings of—		
Dayton and Michigan Railroad		53,357 86
Cincinnati, Richmond and Chicago Railroad		8,229 79
		$316,289 68
Less loss in operating Cincinnati, Hamilton and Indianapolis R. R.		178,744 23
Total net earnings		$137,545 45
To which add—		
Sale of 700 Cincinnati, Hamilton and Dayton Consolidated Sinking Fund bonds		612,500 00
Two locomotives sold Dayton and Michigan Railroad		6,000 00
Reduction of fuel and material for repairs		21,624 31
Total		$777,669 76
Which is accounted for as follows:		
New locomotive for Cincinnati, Hamilton and Dayton Railroad		$9,380 00
New water station at Hamilton		6,717 18
Internal revenue taxes		5,618 13
Judgments and costs against Dayton and Michigan Railroad		3,521 76
Amount paid Trustee of Bonds, and expense of printing		7,432 00
Exchange of real estate at Brighton		1,275 11
Bills receivable increased		11,525 81
Real estate at Toledo		3,305 61
Current liabilities reduced		1,046 54
Cincinnati, Richmond and Ft. Wayne interest guaranty		33,041 80
Advances to Cincinnati, Hamilton and Indianapolis Railroad for construction, equipment and renewal		86,106 14
Advances to Dayton and Michigan Railroad on account sinking fund, construction and equipment		48,160 00
Bills payable reduced		560,639 68
Total, as above		$777,669 76

The gross earnings of all the lines owned or controlled by the company for the fiscal year ending March 31, 1876, were $2,875,779 38, the expenses including interest and taxes $2,738,233 93, and the net earnings $137,545 45. The Report says:

This is equal to a little less than four per cent. on the capital stock of your company, and a decrease from last year of $59,647 30, viz: decrease on the C., H. & D. R. R., $47,700 91; on the C., H. & I. R. R., $21,529 29; C., R. & C. R. R., $17,893 21; and an increase on the D. & M. R. R. of $26,276 11.

The aggregate Passenger receipts show an increase of $36,321 09, or 4.17 per cent., of which $20,347 28 was local, and $15,973 86, through business. The train mileage, 13.7 per cent. increase; the number of passengers carried increased 9.8 per cent; the receipts per mile of trains, were 85 cents; amount received per passenger, per mile carried, 2.558 cents. Of this increased business, $22,708 70 was on the Cincinnati, Hamilton and Dayton, $14,630 38 on the Cincinnati, Hamilton and Indianapolis, $1,571 94 on the Cincinnati, Richmond and Chicago, and a decrease on the Dayton and Michigan of $2,589, 93.

The aggregate freight receipts show a falling off of $200 05, or a decrease of $52,144 10 on local business, and an increase of $51,944 05 on through business, with an increase of 8 per cent. in tonnage, and 11¼ per cent. in train mileage. Of the local decrease, $37,391 93 was on the Cincinnati, Hamilton and Dayton Railroad, of which sum $38,895 was for transportation of gravel for Mill Creek fills; $3,709 01 was on the Dayton and Michigan Railroad; $8,127 64 on the Cincinnati, Richmond and Chicago Railroad, and $2,915 52 on the Cincinnati, Hamilton and Indianapolis Railroad.

The increase on through freight was $15,107 63 on the Cincinnati, Hamilton and Dayton; $31,191 73 on the Dayton and Michigan; $14,980 67 on the Cincinnati, Hamilton and Indianapolis, and a decrease of $9,335 98 on the Cincinnati, Richmond and Chicago.

The aggregate receipts per mile of trains were $1.469 cents; average receipts per ton, $1.058, and amount per ton per mile, 1.691 cents; had we received the same rate per ton per mile as last year, our freight receipts would have shown an increase of $31,326 62.

It will be seen that while the passenger receipts of the Cincinnati, Richmond and Chicago Road increased two per cent., the freight decreased eleven per cent., which is about equally divided between through and local business. An investigation into the cause shows it to be attributable to failure of the crops in that section, and a consequent falling off in transportation of farm products, and is entirely on south bound business.

Our receipts from the Cincinnati, Richmond and Fort Wayne Railroad on south bound freight were $9,797 84 less than the year before, and our advances to that company for interest guaranty instead of diminishing, as we had expressed the hope in our last report, have increased. The amount advanced to date being $81,559 51, including interest. It is proper to state that while the amount of advances has gradually increased, it has not, so far, been a tax upon the earnings of your road, as the amount of revenue derived exclusively from that road the past four years has been $231,562 08.

On the 26th of May last, the contract with the Erie Railway Company, for use of our broad gauge track, which went into effect May 1st, 1869, for a period of ten years, and on the 20th day of May, 1871, made perpetual, or until terminated by mutual consent, was put an end to by the Receiver of that Company refusing to carry out its provisions from the date that the road passed into his control as Receiver, on the grounds that the terms were onerous, leaving us no alternative but to accept such terms as we could get, or abandon the use of the track, which had been laid by our company at a large cost, to accommodate this business.

Under this contract we received $15,000 per month for the exclusive use of the broad gauge track, together with equal privileges in the use of depots and all other buildings, including also the revenue on all business from and to all stations on our line between Cincinnati and Dayton, to and from all stations on the Atlantic and Great Western and Erie Railways, and their branches, which sum, as above, has always been credited to income account, as rents, and as compensation for moving their trains and handling their business, including the cost of motive power and other necessary expenses connected therewith, but not including anything for maintenance of track, bridges, or buildings, all of which has been borne by this company, we received an average of about $12,000 per month, based on the per centage of wheelage of broad and narrow gauge cars, which sum was credited to expense account.

This manner of keeping the account, it will be apparent, was wrong; although it produced the same result as to net earnings, it did not show the actual cost of operating the whole business of the road.

Pending the negotiation of the present contract, which went into effect on the first day of March last, we received $800 per day, exclusive of Sunday, which sum covered all rents and expenses of doing the business; and from the 26th of May, the amount so received was credited to income account as rents; this will explain why our receipts as well as operating expenses show an apparent increase, in comparison with last year, while there was an actual decrease in revenue of $95,107 65, of which $72,783 12 was from that source, and a decrease in operating expenses of $51,273 54, with an increase of interest on bonds of $3,866 80; at the same time there was an increase of 8 8 per cent. in our narrow gauge freight mileage, and 16.2 per cent. in the broad gauge freight mileage, and had we received what we were entitled to under the old contract, our net earnings, instead of showing a decrease, would have shown a handsome increase.

The present contract gives us a pro rata portion of 80 miles in the distance from and to all stations between Cincinnati and Dayton, to and from all stations east of Salamanca, which by consent of the parties take New York rates and divisions, and the same distance is allowed us in the division of rates from and to all our stations, to and from interior points in Pennsylvania, or other common points in the East. This is designated as through business, and for all other business we get substantially our local rates; the Erie and Atlantic and Great Western Railroad furnishing all the cars, for which we pay no mileage.

Before this contract was finally agreed upon, it had become apparent that the time was near at hand, when the broad gauge track could not be maintained without a loss to this company and arrangements were commenced, several months ago, looking toward its final abandonment, and transferring the business of the broad gauge road to our narrow gauge track, by means of the "steam hoist," which has been erected by the Atlantic and Great Western Company, at Dayton, changing the car bodies from broad to narrow gauge trucks. One month's operations under this contract convinced us that no time should be lost in giving the requisite notice of ninety days, as provided, which was done on the 11th of April. Our total receipts from this business, for the year ending March 31, 1875, were $325,922 17, as against $253,139 05, the past year, and as the broad gauge wheelage the past year was greater, the whole difference, $72,783 12, must be treated as a loss to us of so much net earnings. It is believed that with the abandonment of the broad gauge track, and using the iron, of which there will be about 8,000 tons, to extend our second track to Hamilton, and furnishing the balance of our road with steel rails, it can be worked with much more economy, and that what is now a loss of net earnings, will in the end be recovered; but it will not restore to us the amount of our investment, except so far as the present value of the rails to the company.

The expenditures upon the locomotives and cars of the road and its branches have been more than ordinary, showing an aggregate increase over the previous year of $52,384 08. It has been the policy of your managers to put them in first class condition as far and as fast as practicable. Nineteen locomotives have been altered from wood to coal burners, which has resulted in a handsome saving of fuel, and we anticipate much more favorable results for the future. It is the intention to continue this change throughout as there can no longer be any question as to the economy of working the road in this respect.

One hundred and fifty seven freight cars or about ten per cent of all, have been rebuilt; twenty of which, entirely new, have been charged to repairs of C., R. & C. R. R.; thirty one pas-

senger and three baggage cars have had general repairs, painted and varnished, and one baggage car built for the D. & M. R. R.; all of this work has been charged as operating expenses of the year.

It will be seen by the Superintendent's statement of equipment, that the Cincinnati, Richmond and Chicago Railroad has no passenger cars; it had three when we took the road. The Dayton and Michigan Railroad had eight and now has fourteen, an increase of six, while the business has increased in a greater ratio. The Cincinnati, Hamilton and Indianapolis Railroad which had nine has now but eight fit for service, and one reclining chair, or sleeping car, with an increasing passenger business, making but twenty three passenger cars for two hundred and eighty five miles of road, and as a consequence the Cincinnati, Hamilton and Dayton Railroad Company has to supply this want from its own equipment of thirty four cars, besides paying mileage to other roads. It is important to the prosperity of your road that the passenger cars should be increased in number, as well as in more modern style, to meet the demands of the traveling public.

A much needed improvement has been made at Brighton Station by which our facilities for handling bulk business in that locality have been considerably increased; the cost of which, with the exception of $1,275 11 paid in exchange of real estate has been charged to operating expenses.

There has been expended at Hamilton for a new water station $6,617 18, and it will require a further expenditure of $1,200 to complete the work; this will save us annually upwards of $2,400, besides being a great protection in case of fire, as well as a saving of time in movement of trains; the cost of this work has been charged to surplus earnings.

Sixty-two miles of main track have been renewed during the year on the several roads, eleven miles of which is steel, on the Cincinnati, Hamilton and Dayton Road; also four miles of side track have been added, nearly one mile of which was laid double gauge, and 133,425 cross ties have been laid in the several tracks.

A considerable expenditure will be required the present year to put the road bed near Brighton Station in proper condition in consequence of the unusual and extraordinary rains and floods prevailing the past winter, by which we have for several months been deprived of the full use of our double track at a point where most needed. A further large expenditure will be necessary to protect the Miami River Bridge at Hamilton, the south abutment of which has several times been in danger of washing out. The passenger depot at Glendale which was burned a year ago last September, will also be re-built.

With the view of providing for the bonded debt of the company, $500,000 of which matures June 1, 1877; $1,250,000 May 1, 1880, and $500,000, July 20, 1885, and at the same time relieve it from the embarrassments of a floating debt, a consolidated mortgage of $3,000,000, or £600,000 sterling was executed and delivered, bearing date December 1, 1875, to the United States Trust Company, of New York, payable in 30 years from October 1, 1875, with interest at the rate of seven per cent per annum, payable semi-annually on the first days of April and October, in the City of New York; or at the rate of six per cent sterling, payable in London. The mortgage providing that a portion of each, can be issued, if desirable. A sinking fund has also been created, of one per cent per annum on the amount of these bonds at any time outstanding and payable semi annually on the first days of January and July of each year, which sum is to be invested in any of the bonds secured by this mortgage, or any bonds of the company which it is intended to provide for. The bonds so purchased are to be cancelled by the Trustee, and returned to the company.

One million of these bonds payable in New York have been negotiated to net the company 87½ cents on the dollar; $700,000 of which have been delivered and the proceeds applied toward the payment of the floating debt as it matured, leaving a balance as shown on the balance sheet of $75,076 14, a portion of which has since been paid. The remaining $300,000 are deliverable on the 1st of June next, payable in cash, or in Third Mortgage Bonds of the Company at par and interest; the proceeds thereof, with the remaining two millions are to be held by the Trustee for the redemption of the outstanding bonds and can be used for no other purpose.

The discount on the bonds sold, with expenses for printing and amount paid the Trustee, has been charged to Surplus Earnings Account.

The condition of your property has been greatly improved. All expenditures for renewals, construction, equipment and real estate, as well as items charged to surplus earnings, have been made from the net earnings of the year. We are relieved of a troublesome floating debt, and our relations with all connecting roads are harmonious, so that the road is in condition to ensure to the stockholders in the shape of dividends, whatever increase of net earnings may be realized from the revival of business, the improvement of rates, and saving of expenses.

The income from operations of the Dayton and Michigan Railroad during the year was $1,079,384 91; and the operating expenses were $649,916 23, taxes $49,877 94, interest on bonds $188,405 14, dividend on preferred stock $102,728, and dividend on common stock $35,099 74—making a total of $1,026,027 05, and leaving for net earnings the sum of $53,357 86.

The income from operations of the Cincinnati, Richmond and Chicago Railroad was $221,116 56; and the operating expenses $164,605 29, taxes $4,431 32, interest on bonds $43,120, and general interest $730 16—total $212,886 77, leaving the sum of $8,229 79 to credit of Cincinnati, Richmond and Chicago Railroad.

The income from operations of the Cincinnati, Hamilton and Indianapolis Railroad was: from passengers, $148,368 17; freight, $265,696 98; mails and express, $10,630 87; rents from real estate, $2,828 65—a total of $427,524 67; and the operating expenses were $413,844 38, taxes $9,133 65, interest on bonds $129,220, and general interest $54,070 87—a total of $606,268 90, showing a deficit of $178,744 23, to which add expenditures for renewals of track, equipment, construction, deferred payments on real estate, etc, during the year, $86,106 14—making a total of $264,850 37; which added to amount expended up to the close of the previous year, $1,138,720, gives a total expenditure on account of purchase, etc., of Cincinnati, Hamilton and Indianapolis Railroad, of $1,403,570 37.

The gross income from operations of all the roads was $2,875,779 38, viz: from passengers, $870,746 98; freight, $1,587,890 34; mails and express, $84,070 50; rents from other companies, $288,316 77, rents from real estate, $16,500 87, mileage of cars, $31,194 98, interest, $29,071 60, Toledo elevator, $19,114 91, miscellaneous $3,872 43; and the operating expenses were $1,905,943 50, taxes $116,486 52, interest on bonds $523,175 14, dividends D. & M. R. R., as above, $137,827 74, and general interest $54,801 03—total, $2,738,233 93—leaving a balance of $137,545 45.

The net earnings of the Cincinnati, Hamilton and Dayton Railroad for the year were $254,702 03; from which deduct: for locomotive $9,380, for internal revenue taxes assessed $5,618 13, for judgment and costs against D. & M. R. R., $3,521 76; for new water station, $6,617 18; for trustee of bonds and engraving, $7,432—a total of $32,569 07, leaving a balance of $222,132 96; which added to amount received from D. & M. R. R., as above, $53,357 86, makes the amount to credit surplus earnings C., H. & D., R. R, for the year $275,490 82, and the total amount of surplus earnings at the close of the year $1,432,328 62.

The following is a statement of engines and cars owned by Cincinnati, Hamilton and Dayton and leased lines, April 1st, 1876:

	C.H.&D.	D.&M.	C.R.&C.	C.H &I.	Tot.
Engines	33	27	5	20	85
Passenger cars	34	14	....	8	56
Mail cars	2	1	....	....	3
Baggage cars	13	3	3	4	23
Box cars	230	337	87	279	933
Stock cars	30	90	24	51	195
Coal cars	66	119	8	18	211
Flat cars	91	110	51	92	344
Caboose cars	10	11	1	8	30
Hand cars	20	25	7	22	74
Truck cars	24	26	6	19	75

Also one Reclining Chair car bought of the Ohio Falls Car Company for Cincinnati, Hamilton and Indianapolis. Six Construction Train cars and one hundred Saginaw and Cincinnati Lumber Transportation Company cars, (fifty box and fifty flat.)

President.—FREDERICK H. SHORT.

Vice President.—GEO. T. STEDMAN.

Directors.—F. H. Short, Rufus King, L. B. Harrison, Oliver Perin, Samuel Fosdick, Geo. T. Stedman, Henry D. Huntington, Henry Lewis, Joseph H. Rogers.

Secretary and Treasurer.—C. B. MARSH.

General Superintendent.—LEWIS WILLIAMS.

☞ A company has been organized in New Jersey, of which James P. Michellon is President, F. P. Pfeiffer Treasurer, and Frank P. Michellon Secretary, to build a narrow gauge railroad from Mount Ephraim, the present terminus of the Camden, Gloucester and Mount Ephraim road, to Haddonfield.

American Society of Civil Engineers.

The Eighth Annual Convention of the American Society of Civil Engineers commenced its sessions in Judges' Hall, Centennial Grounds, Philadelphia, on Tuesday, June 13th, Mr. George S. Greene, President, in the chair.

Mr. Theodore G. Ellis, of Hartford, Vice President, read a paper giving a history of engineering in this country. Washington was the first civil engineer of which the speaker had found any record. He gave some attention to canals, and was afterwards on a commission for improving the navigation of the Potomac. The year 1787 was a date of great interest to the profession. In that year, John Fitch, a Philadelphian, built the first steamboat, and there is every reason to believe that when he built it he was ignorant of Watt's improvements. He built the first propeller ever constructed in 1796; in 1798 he built the first steamboat for carrying passengers, and in 1799 ran it on the Delaware, between Philadelphia and Burlington. In 1804 Oliver Evans, of Philadelphia, constructed the first machine for building docks—a heavy, flat-bottom boat, with a chain and buckets to clear out the mud. It had wheels for land and a stern wheel to propel it in the water. It seems to have been the archetype of stern-wheel boats. At this time stage coaches had not come into use. In 1807 Robert Fulton built his steamboat, and in 1811 he and Mr. Stephenson built a stern-wheel boat at Pittsburg, with which a voyage was made to New Orleans in fourteen days. This was the first steamboat on Western waters.

The introduction of stage coaches produced a demand for bridges across the larger streams, and here was a fine field for engineering talent. Among these early structures was the magnificent 340 feet span over the Schuylkill, built in 1812 and burned in 1838. Travel between New York and Philadelphia a century ago can be estimated from the advertisements in the daily prints of that day, naming the time at which a stage coach would leave for New York twice a week. On the cel bration of the semi-centennial anniversary it was recorded as a matter of great wonderment that as many as three hundred New Yorkers were in Philadelphia. In 1823 the Champlain Canal was finished and several others were in progress. About this time the evidences of progress in civil engineering began to multiply, railroads were first talked of, and there were few to prophesy what should result from their introduction. In fact, it was authoritatively stated that the claim that locomotives would some day travel twelve miles an hour was bringing ridicule and harm to the whole project.

The first locomotive run in this country was built in England and was called the Lion. The first built in this country was constructed on West street, New York, in 1829. It was a four-wheeler, with upright boiler, and was built for the South Carolina road. Baldwin commenced to build engines in 1833. The first iron railroad bridge consisted of three spans 55 feet long, for the Baltimore and Susquehanna Railroad Company, in 1846, built by James Mulholland. Iron suspension bridges were previously used in 1796, over Jacob's creek, Virginia, built by Mr. Finley. Iron bridges, however, did not come into general use until just before the civil war.

In fact, in the short space of a century, American engineering has sprung from obscurity to be equal to any in the world. We have the longest bridges, with the greatest span and deepest foundations, and the only railway suspension bridge in the world; the longest railways, the best equipped, and supplied with the most comfortable conveniences. It is idle to prophesy where another century's progress may find it. The day will come when men will smile at iron bridges when a lighter, stronger and more abundant metal will supplant iron. In aluminum is found lightness combined with strength, the only drawback to its use being the expense of extracting it from its combinations. It is not too much to expect to see bridges of a mile span made out of this metal.

It is peculiarly appropriate that the Convention should meet in this city on this Centennial year, for it is well known to most of the members that the science of engineering in this country commenced in Philadelphia, and many of the great inventions which gave an impetus to it can be traced directly to this city.

The President resigned the chair to Mr. Thomas C. Clarke, of the firm of Clarke, Reeves & Co.

The first regular business before the Convention was the discussion of a paper by Mr. C. Bender, printed in the May number of the society's publication on the subject of "The theory of continuous girders in relation to economy in Bridge building."

Mr. Clemens Herschell, of Boston, who is an advocate of continuous girders, defended his position against what he considered an unwarranted attack by Mr. Bender's paper. He was replied to by Mr. Bender, who thought theorizing without practical knowledge often did much harm. He instanced a case where the calculated depression of a girder was ninety per cent greater than the actual depression when the weight of the railroad train was applied.

The further discussion on the topic was postponed until Thursday morning.

Mr. Pettit, architect of the Main Exhibition building, read a paper on the character of the engineering work in the construction of that building, giving the reasons for the adoption of that plan. The knowledge that there would not be a Government appropriation fixed definitely for the first time the sum that the architects felt they could depend upon. Their work was not to draw their plans and then calculate what the work would cost, but with a certain sum of money to construct a building that would suffice for the needs of the Exhibition. A radical change in the original design was, therefore, necessary. A temporary building, to cover at least 18 acres, must be constructed at a cost not to exceed $100,000 per acre. It must, of necessity, have a wrought iron frame work; must be built in sections, so that it could be added to if occasion demanded; must be so constructed that the materials could afterwards be used and sold; must reduce the danger by fire by placing the flooring on the ground, and building the outer walls of incombustible materials.

The building must be a mere shell, no partition walls could be afforded. There was much discussion whether it should be straight or curved work—that is, whether it should be constructed of arches or with straight trusses and rafters. The latter idea prevailed, as the material would be most saleable when no longer needed. It was also found that propositions from builders favored the straight work. This determination was reached June 30, 1874. It was a design upon which both the Centennial Commission and Board of Finance were agreed. The contract was awarded to Mr. Dobbins, for $1 076,000.

The work was commenced in October, and this had such a vitalizing effect on the community that it at once became evident that the building would have to be enlarged. This was done by increasing the proposed length and putting on the two wings, which was easily done by the plan adopted. This increased the cost to $1,420,000, which was still much less than the limit of $100,000 per acre.

The peculiarity of construction is much like the framework of a table. The long iron supports carry the dead weight, and the trussels resist the side pressure. A good test of its stability was made in February last, when a wind causing a pressure of 18 pounds per square foot caused no perceptible vibration. The first iron column was raised May 8, 1874, and the last on December 2, of the same year.

The amount of iron used was 8,340,000 pounds. The iron, flat, angle and round, measures 141 miles in length, and if made into a cubic block it would measure 25 feet 10½ inches on each edge. There is one square foot of glass for each four square feet of surface covered.

In the installation of the exhibits Mr. Pettit, who is also Chief of the Bureau of Installation, said the following general plan had been adopted. The building was divided into four great divisions by the two main avenues crossing at right angles. The attempt was made to bring the prominent nations to the centre.

The northeast corner was given to France as the representative of the Latin races; the northwest to Great Britain, as the representative of the Anglo-Saxon; the southwest to Germany, as the representative of the Slavonic races, and the southeast to America, as the representative of the coming race. By this means they are brought in as close proximity as possible, and general comparisons may be made.

Mr. Schwartzman, architect of Memorial Hall and other buildings, was called upon for a few remarks. He said the taste for architectural effect in this country had been somewhat neglected. When attempts have been made at ornamentation in great public works there seems to have been an effort to conceal what in itself would be the best ornament. It is not probable that any distinctively new style of architecture will be introduced until new materials of construction are brought into use. The material to a great extent determines the form. Much of the expense of ornamenting bridges would be avoided if a little more attention were paid to beautifying the lines.

It was announced that the Austrian Society of Engineers and Architects had presented to the Society their very interesting collection on exhibition in the Main Exhibition. It consists of drawings and photographs of works projected by the members of that Society. The gift was accepted and the President was delegated to express the thanks of the Society.

The Convention then adjourned until Thursday morning, at ten o'clock.

On Wednesday afternoon the members of the Society visited places of interest on the Delaware in a steamer placed at their disposal by the American Dredging Company, Mr. F. C. Prindle, civil engineer. The boat steamed up the river to the head of Petty's Island, giving the visitors an opportunity to see the river front of the city, Cramp's ship yard, the Reading Railroad Company's wharves and other places. On the return trip the visitors stopped at Cramp & Son's new dry dock, and spent some time in examining the caisson gate and the powerful pumping machinery used to discharge the water from the dock. Steam Collier No. 18 was in the dock for repairs, and every part of the vessel was exposed to the workmen. The dock itself was as though it had never been filled with water. Re-entering the tug the party next visited the property of the American Dredging Company, in South Camden. Steam dredging machines were at work at this place dredging the docks, and one large Baltic grapple dredge was inspected while at its work. The boat is 100 by 35 feet, and is capable of operating in 50 feet of water. The bucket is in two parts, hinged so that they may be opened and driven into the river bottom as scoops, which close together, forming a bucket. The dirt is removed from the river to mud-scows, cars or wharves, and dumped by the opening of the two parts of the bucket. From 2000 to 3000 cubic yards of dirt may be removed by one of these machines, in a day, and under favorable circumstances, 3500 yards have been dredged. From South Camden the visitors were taken to League Island, where the Navy Yard buildings were inspected, and thence to Gloucester, to see the operation of a gun powder pile driver, operated by the American Dredging Company. There have been many difficulties in the way of harnessing the force of exploding gunpowder, so as to make it available for such purposes as pile driving, but they have been so far overcome that the Dredging Company has four such pile drivers in successful operation.

The cannon and the head of the ram are now made of steel, and the guides of wrought iron. The cartridge (from one to one and a half ounces of powder) is exploded by the heat generated from the blow of the ram, and the latter is driven up by the force of the explosion, so that when caught by a friction brake it is again in position for repeating the blow. The head of the ram is not injured at all by the force used, which is a push rather than a blow. The explosion does not take place until the inertia of the pile has been fairly overcome by the blow from the ram. The pile driver does its work very effectively, and was studied with great interest by the engineers.

The Convention re-assembled on Thursday morning, Mr. Thomas C. Clarke, of Clarke, Reeves & Co., presiding.

The discussion of the subject of bridges and roofs was continued.

Mr. Virgil Bogue, of Brooklyn, read a paper on the Verrugas Bridge of the Callao, Lima and Oroya Railway of Peru. This is the first railway which has been projected to connect the Pacific with navigable water on a tributary of the Amazon.

The Secretary of the society, Mr. Gabriel Leverich, read a paper by Mr. Charles McDonald, of New York, on the new Portage viaduct, on the line of the Erie Railway; and a paper on the same subject was read by Mr. N. G. Morrison, of New York.

The next subject considered was that of Practical Hydraulics. Under this head a paper was read by Mr. C. Herschel, of Boston, "On waves of translation that emanate from a submerged orifice, with an examination of the feasibility of the proposed Baie Verte Canal." Brief remarks on this subject were made by Mr. C. J. McAlpine, of New York, and Gen. Theodore G. Ellis, of Hartford. The paper of Gen. Ellis, giving a description and results of hydraulic experiments with large apertures, at Holyoke, Mass., in 1874, was next in order, and a few remarks on the paper were made by Mr. C. Herschel.

The President announced that invitations had been received for the society to go on an excursion over the new railroad from Philadelphia to New York, and from Worthington & Sons, of New York, to examine their new pumping engine, furnished by them for the Centennial Water Works at the foot of Lansdowne Valley.

General Theodore G. Ellis presented a report of the committee appointed to consider the feasibility of establishing a uniform system of gauging of streams in connection with observations of rainfall. The committee came to the conclusion that it could not recommend any uniform system of gauging, but would call the attention of engineers to the importance of gauging streams, securing the corresponding rainfall, and of getting other valuable data.

The paper of B. S. Church, entitled "Notes and Suggestions on the Croton Water Works and supply for the Future," was the next subject for consideration.

Mr. James R. Croes, of New York, said that he did not favor the use of a masonry aqueduct, unless it was made sufficiently strong to resist the pressure of water, independently of the earth embankment. It was unwise, in his judgment, to rely upon an earth embankment unless the masonry conduit were strong enough in itself to withstand the pressure, and he was borne out in this opinion by the fact that the Washington, Croton and Boston aqueducts, constructed after that plan, have practically failed—that is, they have cracked longitudinally from top to bottom from the action of the frosts and thaws.

The next subject discussed was the paper by W. Milnor Roberts, of New York, on the improvement of the mouth of the Mississippi.

A recess was taken for one hour.

The Society reassembled in the afternoon.

Gen. Wm. Sooy Smith, of Maywood, Ill., presented the report of the Committee on Tests of Iron and Steel. The report calls the attention of the Society to the importance of making a strenuous effort to secure an appropriation by Congress to enable the Board appointed by the United States Government to test iron, steel and other metals to carry on its work. The Government, in the opinion of the Committee, cannot afford to dispense with the services of the Board; for in the columns of the Government Buildings now in course of construction, and in another already built, more money has been wasted than would defray the expenses to be incurred in making tests for a year to come; and this waste, in a greater or less degree, is believed to run throughout the iron architecture of the country, both public and private.

The report concludes by expressing the hope that the members will each, in any way that may seem best, aid in obtaining the appropriation asked for by the Board.

Mr. Stephen Chester, of New York, moved that the committee be requested to present a memorial to Congress on the subject. Agreed to.

Mr. Clemens Herschel, of Boston, read a paper advocating the adoption of the metric system of measurement, and offered a resolution to the effect that the Society will in all legitimate methods further the adoption of the metric system in this country, and that a committee be appointed to present a memorial to Congress in furtherance of the resolution.

Mr. Herschel expressed a desire to have the resolution voted on by letter. A few remarks were made in favor of the metric system by Prof. J. B. Davis, of the University of Michigan, and Prof. Hilgard, of the United States Coast Survey; and a brief address against it by Mr. Coleman Sellers, of Philadelphia.

It was agreed to refer the matter to a committee to be appointed by the Chairman.

Mr. William P. Shinn, of Pittsburg, read a paper on Railroad Accounts and Returns, which was discussed by Messrs. C. H. Fisher, of New York; Latimer, of the Atlantic and Great Western Railway; Mendez Cohen, of Baltimore, and W. Milnor Roberts, of New York. A resolution was adopted, as the sense of the Convention, that the Society shall appoint a committee to take the matter into consideration.

Reports of committees were also read, as follows: Report of committee on the form, weight, manufacture and life of rails, by A. Welch, of Lambertville, New Jersey; on nomenclature and classification of masonry, by James R. Croes, of New York; and on the failure of the dam at Worcester, Massachusetts, by Gen. Theodore G. Ellis.

Remarks on the last report were made by Mr. W. J. McAlpine, of New York.

A report on "Resistances of Railway Trains" was read by Mr. W. P. Shinn, of Pittsburg. The Convention, then, after adopting resolutions of thanks to the Philadelphia members of the Society, the President and others, adjourned.

Narrow Gauge Railroad Rails.

A new process has recently been patented by a prominent Pittsburg manufacturer for forming new rails out of old ones for use of narrow gauge railroads. By this process the new rails are made entirely from the old rails, thus doing away with the cost of the heavy plate of new iron used in re-rolling under the old process, and at the same time utilizing a much larger amount of the old rails. An important feature of the process is that the relative qualities composing the different sections of the old rails are not disturbed, but transferred to the like sections of the new rail. In the old process the different qualities become mixed up, to the detriment of the new rail. Narrow gauge rails are usually made to weigh thirty pounds to the yard, and have heretofore cost about ten per cent more to manufacture than rails of 60 pounds, such as are used on standard gauge roads, because a mill can only turn out one-half the quantity of 30 pounds that it can of 60 pounds rails. But the new process, we are told, reverses this order of economy, and is enabled to manufacture narrow gauge rails at 10 per cent less than large rails can be made, thus reducing the cost of narrow gauge rails 20 per cent.

An Improved Iron Furnace.

The Zanesville, Ohio, Courier gives the following description of an improvement in iron furnaces, for which a patent has just been granted to Mr. A. F. Cassell, of that place:

The patent covers two kinds of furnaces—puddling and heating; its claims are: economy, both of fuel and time, and the superiority of the iron produced. The old puddling furnaces are so constructed that a vast amount of fuel—thirty-three per cent—escapes through the stacks in what is commonly termed "smoke." Mr. Cassell's furnace arrests the smoke—or more properly gas—and provides for its complete consumption. A system of hollow tubes admits the air from the outside through the roof over the "bridge" wall and also into an air chamber in front of the bridge wall, which, with the peculiar construction of the roof and "bridge," produces perfect combustion, and consequently a large saving in fuel. By actual tests, extending through a period of several months, in furnaces at the works of the Ohio Iron company in this city, it has been demonstrated that the Cassell furnace saves, at the least calculation, twenty five per cent. in fuel, and from one to one and a half hours in time to each turn, thus reducing the amount of labor very materially. The value of this invention is seen in the quality of the iron produced. The device for producing perfect combustion destroys the sulphur and other impurities, and of course prevents their amalgamation with the metal—an item of immense value to the iron trade. From careful estimates, the actual expense in the construction of this furnace is not to exceed $5 over the old furnace, while the saving in the cost of fire bricks for the "necks" and "stacks" will more than compensate for the expense attending their construction.

☞ The sale of the Louisville, New Albany and St. Louis Air Line Railway took place at New Albany, Ind., on the 20th inst., under the foreclosure of the first mortgage bonds, in accordance with the decree of the United States Circuit Court. J. J. Brown became the purchaser at the nominal sum of $18,000, for the bondholders. What disposition will be made of the road is not known. Over two million dollars has been expended on the work, and twenty-one miles of road are already in operation.

☞ The track of the Columbus and Toledo Railroad is now laid from Delaware to Marion. A bridge 120 feet in length has just been completed over the Tymochtee river. The track is laid from the bridge to Carey, in Wyandot county. On the first of July a gang of track layers will start from Delaware laying rails toward Columbus. Four locomotives are now in use on the road. The managers say that there is no doubt but that the road will be completed early in the fall.

☞ The Fourth Annual Convention of the Master Car Builders' Association was held in this city last week. Leander Geary, of the Hudson River and New York Central railroad, presided. The committee on railroad brakes made a report recommending that the power brake be attached to freight cars. The committee on ventilation of railroad cars also reported on various modes of ventilating these conveyances. Both reports were discussed at length and finally accepted.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "1."

American Railroad Journal.

Saturday, June 24, 1876.

Financial and Commercial Affairs.

The supply of Money is augmenting rapidly at this centre. The requirements of responsible borrowers are very moderate for all purposes, and do not afford the opportunity of employing balances profitably to anything like the extent which would suit the interests of lenders. The dullness in the loan and discount market tends to divert large sums of money into other channels, notably into the line of investment purchases of U. S. bonds, which are quoted stronger in price on restricted offerings. Call loans are quoted at 1½@2 per cent, and best mercantile credits at 4@6 per cent per annum. The City banks report a further gain of legal tender notes, with a falling off in other items. The Government office here enlarged its coin and currency balances moderately during the week. The U. S. Sub Treasury currency balance was augmented $521,902, and the specie reserve $547 677. National Bank notes received at the Treasury Department last week for redemption were to the amount of $4,716,000. The City Banks have had their deposits cut down $2,228,500; and their legal tender reserve enlarged $1,300,200. The specie average has been reduced $410,900. The loan and discount item was diminished $2,508,600. The circulation fell off $163,700. The U. S. Sub Treasury in this city closed the week with a currency balance of $33,556,497 against $33,033,595 the preceding week; and a coin hoard of $38,640,999 against $38,093,822 on the previous return. The City bank exchanges in currency reached $327,361,542, or a daily average of $54,560,257. The customs revenue of the port during the week was $1,636,000.

The City banks reported their average of gold last week at $15,318,200, and their greenback average at $54,360,200. Their deposits stood at $208,602,000. The loan item was $246,862,100. The circulation was $15,646,400.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $17,527,900 as against $16,081,475, the preceding week.

The aggregate of the outstanding U. S. currency, of all denominations, June 1st was $407,991,585. The outstanding amount of legal tender notes is $370,123,668. The National bank circulation is now $332,286,678 including $2,099,190 of national gold bank notes.

On Monday of this week the cash balances of the Treasury Department at Washington were: of Currency $10,349,570; special deposit of legal tenders for the redemption of certificates of deposit, $35,120,000; Coin, $65,664,354; Coin certicates, $22,874,000.

The week's import entries of Foreign Merchandise at New York were $5,733,733, including $718,334 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 111 millions; and from Customs, 143 millions.

The specie exports from San Francisco Jan. 1 to June 8 were $19,738,478.

Gold has been quoted lower and less active. The speculative inquiry lacks spirit. The customs call has been very moderate. The export drain has been rather more extensive. The extremes of the price during the week have been 112⅜@112¾, closing on Wednesday at 112⅜, as against 112¾ on Wednesday of the preceding week. The specie outflow last week was $1,123,310 against $421,421 the previous week. The imports of specie at this port last week were $108,391, and since January 1st $1,914,785 as against $6,734,059 same time last year. The customs demand for gold last week averaged $272,667 per day. Foreign Exchange has been in moderate demand and quoted about steady in price. Bankers sixty day bills on London closed on Wednesday at $4 87⅛@$4 88; sight bills on London at $4 89⅛@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $6,233,968. The week's imports of Dry Goods and general merchandise were to the specie value of $5,733,733 as against $4,683,961 the corresponding week of 1875.

Government Securities have been in more demand for investment purposes at higher and buoyant prices. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $342,340,350.

U. S sixes of 1881 closed on Wednesday of this week at 124@124¼; U. S. Five-Twenties of 1865, at 116@116¼; U. S. Five-Twenties of 1865 consolidated, 120⅝@120⅞; U. S. Five-Twenties of 1867, 123@123¼; U. S. Five-Twenties of 1868, 124¼@124½; U. S. Ten-Forties at 118½@119; U. S. Fives of 1881, (Funding Loan) 117⅜@117⅞; Six per cent. currency Sixes 126½@127½.

State and Railway bonds have been moderately active, and prices of the more substantial ans have been quoted firmer. And in the line of Railway and Miscellaneous share property the movements have been rather more extensive with prices, however, quoted quite variable, closing with more steadiness.

General business has been less active in the leading branches. The warm weather has been, to some extent, adverse to trade interests. Domestic produce has been less sought after for shipment and home use at, in most instances, easier prices. Petroleum has been exceptionally brisk, especially refined for export. Foreign merchandise has been comparatively quiet and weak as to values. Sugars and Coffee held with confidence. A moderate inquiry has been noted for Metals, without important alterations in values. Eglinton Pig Iron quoted here at $27 50@$28; Glengarnock $29 50@$30; Coltness $30@$30 50; No. 1 American Pig at $22@$23; No. 2 do. at $20; Forge $18@20; American Rails at works $40@$43; Old Rails $21@$22. Wrought Scrap $28. Ocean freights have been moderately active, at lower rates. Accommodation for Grain, Provisions, Petroleum, Cotton, Tobacco and Flour, in most request.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, June 21, 1876.

A DIVIDEND OF FOUR PER CENT. HAS been declared by this company, payable on the 1st day of August next to the holders of full paid shares registered at the close of the 14th day of July next, after which, and until the 5th day of August the transfer-books will be closed.

L. V. F. RANDOLPH, Treasurer.

Atlantic, Mississippi and Ohio Railroad.

The Petersburg Index-Appeal says that Gen. Mahone turned over the management of the Atlantic, Mississippi and Ohio Railroad to the lately appointed receivers, C. L. Perkins, of New York, and Henry Fink, of Lynchburg, Va., on the 12th inst., together with $70,000 in cash, with the prospective receipts for the balance of June of $60,000 for connecting lines, and $40,000 from daily receipts. So the receivers will have on hand on the first of July $170,000, out of which they will only have to pay the current expenses of one month, which can be anticipated out of the receipts of the first fifteen days in July.

☞ Acting under the instructions of the board of directors the president of the James River and Kanawha Canal Company has subscribed on behalf of that company 4,000 shares of the Buchanan and Clifton Forge Railway Company, and executed a mortgage directed by the stockholders to secure $400,000 of bonds to be issued under an act of the Legislature. The proposed road is to extend from Buchanan, in Botetourt county Va., the present terminus of the canal, to Clifton Forge, a point on the Chesapeake and Ohio Railroad, a distance of thirty-two miles.

☞ H. J. JEWETT, Esq., President and Receiver of the Erie Railway Company, will sail for Europe on the 24th inst., to confer with Sir Edward Watkins and others on matters connected with that road.

Washington City, Virginia Midland and Gt. Southern Railroad.

A suit has been entered in the Orphans' Court of Alexandria, Va., by J. D. Bowie for himself and other creditors against the Washington City, Virginia Midland and Great Southern Railroad Company, and John S. Barbour, Robert Garrett, Decatur H. Miller and others, trustees of said company, the object of which is to foreclose the mortgages on the Washington City, Virginia Midland and Great Southern railroad, the Virginia and North Carolina railroad, the Orange, Alexandria and Manassas railroad, and the Orange and Alexandria railroad, and to sell the property of the several corporations and subject the proceeds of sale to the payment of their debts according to priority, and in the meantime to have a receiver appointed to take charge of the Washington City, Virginia Midland and Great Southern Railroad Company until a sale is effected.

☞ At the recent annual meeting of the stockholders of the Worcester Railroad Company, at Snow Hill, Md., the following officers were elected for the ensuing year: President, G. B. Bishop; secretary, Thos. D. Purnell; directors, John R. Franklin, George W. Covington, George C. Townsend, E. K. Wilson, George W. Purnell, Thos. D. Purnell, Wm. Showell of Md., N. L. McCready, John Bodine and E. K. Moore of N. Y., Thos. Bumgardner of Pa., and Charles C. Stokely of Del. The road was reported to be in a flourishing condition, the Franklin extension adding much to its receipts, and the financial outlook is good.

☞ Herapath's Railway Journal says the directors of the Great Western Railway company of Canada are prepared to pay at maturity the six per cent. Bonds of the Company, ude 15th July, 1876, or at the option of the holders either to renew them at the same rate of interest for three or five years, or to issue £130 of 5 per cent. Registered Debenture Stock, carrying interest from 1st February, 1876, in exchange for each £100 of such 6 per cent Bonds.

☞ The judgment of $197,000 in favor of the Pennsylvania Transportation Company against the Oil Creek Railroad, which was appealed from some months ago, was affirmed and final judgment entered by Judge Lowrie of the Crawford County Court, Pennsylvania, on the 19th inst.

☞ W. L. Scott, of Erie, Penn., has been elected President of the Canada Southern Railway Company. The Executive Committee are: W. K. Vanderbilt, Augustus Schell, S. F. Barger and Sidney Dillon.

☞ The contract for grading the Ione Railroad between Buckeye and Ione City has been let to Messrs. Turton & Knox, of Sacramento, the same firm that did the grading between Galt and Buckeye. The grading will soon be finished.

☞ Operations on the Grand Southern Railway in New Brunswick were commenced on the 8th inst. at St. George's when the first sod was turned, and a salute fired from Fort Douglas in honor of the event.

☞ Another section of the Western Counties Railway, extending from Annapolis Royal to the town of Digby, has been put up for tender.

Grand Southern Railway.

All sorts of reports are current about the letting of contracts on the above line and the commencement of work on it. The latest are to the effect that a Mr. Savage from Augusta, Maine, has taken the grading of the road for a distance of 15 miles eastward from St. George, towards St. John; a Mr. McLane, a recent contractor on the Intercolonial, 7 miles westward from St. George; and Messrs. N. Smart and H. Rudge between 15 and 20 miles from Digdeguash to St. Stephen. Meanwhile a large staff of engineers are at work, shanties are being erected along the proposed route, and navvies and contractors are flocking into St. George.—*St. Stephen Journal.*

☞ In the United States Circuit Court at Charleston, S. C., on the 15th inst., in the case of Wilmer vs. Atlanta and Richmond Air Line R. R. Co., a decree was made confirming the Georgia decree as to the position of the road in South Carolina, and ordering that the sale give a good title to the purchasers. In Marks vs. Port Royal R. R. Co. and Union Trust Company vs. the same, a decree was made for foreclosure of the first mortgage bonds and sale in default of payment of $2,500 000 and interest by July 15, allowing the bondholders to become a corporation, and making the stockholders liable for deficiencies.

☞ The Fredericksburg, Orange and Piedmont Railroad, running from Fredericksburg to Orange Court-House, has been sold to a company called "The Royal Land Company of Virginia." The new company propose making the road narrow gauge, and will extend it to Harrisonburg, where it will connect with a line which the company is now building from their coal fields near Rawley Springs. The sum paid for the road was $40,000. It is not known definitely whether Fredericksburg or Matthias' Point, on the Potomac River, will be the eastern terminus.

☞ The directors of the Middletown, Unionville and Water Gap Railroad Company, elected on the 29th ult., are: Grinnell Burt, Wm. H. Clark, H. A. Wadsworth, D. C. Dusenberry, Horatio R. Wilcox, James B. Hulse, M. S. Hayne, Oscar Dunn, Asa Smith, Wm. H. Wood, Jas. A. Bell, Jas N. Pronk, Levi Starr. The new Board organized by the election of Grinnell Burt, President; Asa Smith, Vice-President; W. H. Clark, Treasurer; J. M. Pronk, Secretary.

☞ The Edgar Thomson works are making sixty feet Bessemer rails, which they are shipping to a number of Southern roads. The Boston and Providence Railroad is using the sixty feet rails make by the Edgar Thomson works.

☞ The Denver and Rio Grande Railroad is completed and running to Levata, twenty-five miles southwest from Cucohonas, and seventy-four miles from the San Juan gold region, by the Fort Garland route.

☞ Mr. Edward Clark, of this city, has been elected a director of the Central Railroad Company of New Jersey, to fill a vacancy.

☞ Coshocton, Ohio, has subscribed $30,000 toward building the Massillon and Coshocton Railroad.

☞ G. W. Bishop has been elected President, and Thomas D. Purnell Secretary of the Worcester (Md.) Railroad Company.

President—FREDERICK H. SHORT.

Vice President.—GEO. T. STEDMAN.

Directors—Rufus King, H. D. Huntington, F. H. Short, George T. Stedman, Joseph H. Rogers, Oliver Perin, Samuel Fosdick, Henry Lewis, C. B. Marsh.

General Superintendent.—LEWIS WILLIAMS.

Assistant Superintendent.—JOHN H. WELLER.

Secretary and Treasurer.—C. B. MARSH.

☞ The Galveston News says the Texas and Pacific Railway Company, to prevent forfeiture of charter, are working to complete two gaps in that road by the middle of August. These are the thirty miles west of Dallas, Texas, between Eagle Ford and Fort Worth, on the main east and west line, and the ninety-two miles on the Fort Worth and Northeastern branch, or transcontinental branch, between Paris and Sherman.

The Severed Axle.

There is at the present time, at the office of Henry Small, Esq., on Duke street, the model of an invention which is destined to produce a revolution in railroad travel, making a higher rate of speed attainable without risk, avoiding all friction from the impingement of car wheels on the outer rail in curves, saving the consequent wear of the rails, and accomplishing more work with less motive power.

As with all great inventions, the principle is very simple, being merely that of a severed axle, with the box in the center of the truck. The wheels work independently of each other, each wheel traversing the exact length of the rail on which it runs and avoiding all impingement and friction. It is the invention of Mr. John M. Brosius, and its immense saving in motive power, attainable speed, safety, and wear and tear of rails is at once apparent to the most unskilled and unmechanical eye.

It has been endorsed by the master mechanic of the Richmond and Danville Railroad as being superior to any severed axle truck made, in percentage of saving, in curvature, lessening of resistance and nonlamination of rails. When metal is not flawed, the primary cause of breakage of axles, a great source of accident on our roads, is the crystalization produced by twisting in the impingement of the straight axle wheel on curves. The axle in general use on railroads is the rigid axle, both wheels being secured to the axle and revolving with it; as a result, when the car is run on a curve, the wheels on the inside rail describing a smaller portion of a circle, require fewer revolutions than the outside ones, thus one of the two wheels must drag or slip on the rail, and the great friction or pressure thrown upon one of the rails causes both a waste in motive power, and material, and wherever there are curves in a road the wear and tear of rails and wheels form a large item of expense. All this has been obviated by Mr. Brosius, by severing the axle of his wheels so that each wheel revolves independent of the other, thus making the exact number of revolutions required by the segment of the circle which it traverses, doing away with all dragging or slipping, and the consequent loss. Nor are these the only advantages pertaining, the truck can be changed from a freight to a passenger car truck, simply by changing the spring for an elliptic spring. The difficulty has been in the past to sever the axle in such a manner that it would remain as strong and compact as the rigid axle. This Mr. Brosius has accomplished in his patent axle and truck, by the ingenious manner in which he joins the separate portions of his axle, not only retaining all the advantages of the rigid axle, but actually rendering his much the stronger, and less liable to break. We are glad to state that the trucks of this kind are being built at the car shops of Billmeyer & Smalls, at this place, for use between York and Baltimore.—*York (Pa.) Dispatch.*

☞ It is stated that the holders of $11,000,000 out of $15,000,000 first mortgage, and of $10,900,000 out of $12,181,000 seven per cent bonds of the Chesapeake and Ohio Railroad, have given their assent to the plan of reorganization presented some time since. The foreclosure suit is progressing, and a decree of sale will probably be reached during the Summer or early in the Fall. It is further stated that the road is being economically managed, and the earnings are steadily increasing.

☞ At the annual meeting of the New York and Canada Railroad Company, held on the 20th inst., the following Board of Directors was elected for the ensuing year:—Isaac V. Baker, Thomas Deckon, Legrand B. Cannon, A. A. Low, R. G. Moulton, C. F. Norton, W. W. Cook, J. C. Hart, Andrew Williams, C. F. Young, James Roosevelt, James M. Halstead and James R. Taylor. Mr. Isaac V. Baker was elected President.

The Coal Trade.

Our report, published to-day, of the anthracite coal trade, covers the first week of the total suspension of coal production, as agreed upon by the six great producing and coal carrying companies. The time is for the week ending on the 10th instant. The Reading Railroad Company reports a very low tonnage for the week named, and all of the companies show a greatly reduced amount. The aggregate for the week foots up only 141,745 tons, against 353,811 tons for the corresponding week last year, showing a decrease of 212,066 tons. The total amount of anthracite mined for the year is 6,584,174 tons, against 5,722,364 for same period last year, an increase of 811,810 tons. The quantity of bituminous coal sent to market for the week was 95,186 tons, against 102,936 tons for corresponding week last year, a decrease of 7750 tons. The whole bituminous tonnage from the beginning of the coal year is 1,446,227 tons, against 1,444,944 tons in corresponding time last year, a decrease of 1383 tons. The total tonnage of all kinds of coal for the week is 236,931 tons, against 456,747 to corresponding date last year, a decrease of 219,816 tons, and the total tonnage for the coal year is 7,980,401 tons, against 7,167,308 tons to same date last year, an increase of 813,093 tons. The quantity of coal and coke carried over the Pennsylvania Railroad the last nine days of May was 145,656 tons, of which 121,856 tons were coal and 23,802 tons coke. The total carried this year is 1,774,538 tons, of which 1,460,152 were coal and 314,444 coke. This total embraces all the coal carried over the road, east and west. At Port Richmond for the week ending on the 17th instant there were receipts of 87,500 tons of coal and shipments of 25,000 tons, leaving 184,000 tons on hand. We continue to quote freight charges to New York at 70 cents, Providence at $1 20@$1 25, and to Boston at $1 25@$1 30 per ton. At Perth Amboy for the week ending on the 10th instant the receipts of coal were 12,134 tons and the shipments 19,109 tons, leaving 79,834 tons on hand. Freights to New Haven, 60 cents; Hartford, 95 cents; Boston, $1.—*Phila. Ledger, June* 19.

Valley (Va.) Railroad.

A preliminary lease from the Valley Railroad Company to Wm. Milnes, Jr., president of the Shenandoah Valley road, has been signed and was forwarded yesterday to Judge Sheffy, counsel for the Valley Company, at Staunton, Va. Before the lease can be consummated, a formal lease signed and the road turned over to Mr. Milnes, the law requires its ratification by the stockholders of the Shenandoah Valley Company, they not having vested their president with authority to lease the road. Mr. Milnes stated that he had called a meeting of the stockholders to take place at Winchester, Va., in thirty days, to consider and act upon the lease. The preliminary contract leases the Valley road to Mr. Milnes by the month, at $2,000 per month, when the conditions contained in the resolutions adopted by the Valley directors are complied with, and allows Mr. Milnes, at his own suggestion, ten days to place the necessary rolling stock and equipment on the road, which is to be held as security. Time has been allowed in the preliminary lease for calling a meeting of the stockholders of the Shenandoah Valley Company before consummating the formal lease. —*Balt. Sun, June* 20.

☞ The Boscobel (Wis.) Press says that the builders of the narrow gauge track between Richland Center and Lone Rock, on the Chicago, Milwaukee and St. Paul Railway, are very much elated over the trial trip made over about eight miles of the road now completed. The wooden track proves to be a success.

Cincinnati, Richmond and Chicago R. R.

The receipts of this company for the year ending March 31, 1876, were as follows:

From passengers	$73,879 56
" freight	134,704 77
" mails and express	12 357 69
" miscellaneous	174 54
	$221,116 56

Expenses:

Transportation	$164,605 29	
Taxes	4,431 32	
Interest on bonds	43,120 00	
General interest	730 16	
		212.886 77
Net earnings for the year		$8,229 79

—which has been applied to the reduction of balance due Cincinnati, Hamilton and Dayton Railroad Company, which at date of last report amounted to $16,498 19, and now stands at $8,-268 40.

BALANCE SHEET, March 31,

President.—FREDERICK H. SHORT.

Vice President.—GEO. T. STEDMAN.

Directors.—F. H. Short, Rufus King, Oliver Perin, Geo. T. Stedman, Samuel Fosdick, D. H. Huntington, Henry Lewis, Joseph H. Rogers, E. W. McGuire.

General Superintendent.—LEWIS WILLIAMS.

Secretary and Treasurer.—C. B. MARSH.

Franklin Telegraph Co.

An adjourned meeting of the stockholders of this company was held in Boston on the 15th inst. The business before the meeting was to hear the report of the committee, Messrs. Frank B. Cotton and John R. Duff, who were appointed at the meeting on June 8, with full powers to negotiate and execute a lease of its property to the Atlantic and Pacific Telegraph Company for a term of ninety-nine years; the company having agreed with the representatives of the Atlantic and Pacific Telegraph Company upon a basis of a lease.

The committee reported in favor of the lease, the main points of which are that the Atlantic and Pacific Telegraph Company assume all the debts of the Franklin Company, past, present and for the future, paying to the latter company a dividend of $2 50 per share annually, or $1 25 per share semi-annually.

The report was accepted and the lease ratified.

☞ The incorporators of the Nova Scotia and Atlantic Railway Company met in Halifax on the 16th inst., and regularly organized the company. Thomas G. Stearns was elected President. Ten per cent of the capital was subscribed and paid up by those present, for themselves and other New York capitalists, amounting to $127,000. The road will run from Middletown, in Annapolis, to Lunenburg. Col. John E. Gowan, of New York, with a staff of engineers, is now engaged locating the line.

☞ In San Francisco, on the 20th inst., in the case of A. Culotte, stockholder of the Central Pacific Railroad Company against that company, Judge Morrison of the Fourth District Court rendered a decision enjoining the directors of that company from using its money to pay interest on the bonds of the California Pacific Railroad Company, to the amount of $1,600,000, endorsed by the Central Pacific Company. In the decision Judge Morrison gives it as his opinion that the guarantee of bonds by the Central Pacific Company is illegal, and not binding on the corporation.

Phœnixville Bridge Works

Clarke, Reeves & Co.,

The attention of the officers of Railroad Companies is called to a new Album of Designs, showing the various styles of Iron Railway Bridges, Viaducts, etc., that we have constructed and are prepared to construct, which we will send by mail on application to

410 Walnut Street,

American Railroad Journal.

New York, Saturday, July 1, 1876.

Pennsylvania Railroad.

The Philadelphia *Ledger* has obtained from the office of the Pennsylvania Railroad Company the following data, which give the official results for the first four months of the year on its lines east of Pittsburg and Erie, including the New York Division and Delaware and Raritan Canal. Condensed statement comparing tons of freight moved, tons one mile and earnings, and passengers carried, passengers one mile, and earnings of all lines for four months ending April 30, 1876, with the corresponding period of 1875:

	Tons.	Tons 1 mile.	Fr'ght Earn's.
1876	4,978,304	629,747,217	$7,231,466 79
1875	4,122,660	553,228,988	6,877,038 23
Increase	855,644	76,518,228	$354,428 56

	Passengers.	Pass. 1 mile.	Pass. Earn's.
1876	4,508,244	100,218,999	$2,989,204 41
1875	4,188,193	97,436,366	2,939,964 37
Increase	320,051	2,782,633	$49,240 04

Increase freight earnings	$354,428 56
Increase passenger earnings	49,240 04
Total increase	$403,668 60
Add increase D. and R. Canal	55,027 83
Total four months	$458,696 43

The above increase in tonnage is made up as follows:

	Tons.
Through, East	17,273
Through, West	8,483
Local, East	680,192
Local, West	149,696
Total	855,644

The estimated increase in gross earnings for the month of May was $250,000, but the results, as ascertained up to this time, show that they exceed by more than $350,000 the earnings of May, 1875. The tonnage data for the month have not been worked up yet to be added to the foregoing figures, but the gross earnings to the first day of June exceed the same period of last year by $800,000. We are glad to be assured that this increased business and earnings, including the Centennial traffic for the year, will be handled at an expenditure of less than $400,000 above the expenses of last year, so that, notwithstanding the railroad war, in its most aggressive shape, the company believe they will be able to show a most satisfactory result for the year to their stockholders.

Michigan Central Railroad.

At a meeting of the stockholders of this company held at Detroit on the 26th ult., the following gentlemen were elected directors for the ensuing year: Samuel Sloane, Moses Taylor, George F. Talman, John J. Astor, Isaac Bell, August Belmont, Nathaniel Thayer, Frederick Billings and Rosewell G. Rolston. The gross earnings for the year ending May 31 amount to $6,850,964; expenses of operation $4,802,902. Reports say the business of the road is greater than ever before, but competition has cut down prices so that the receipts are really no larger. The increase of freight has been 310,746 tons over any other year.

☞ The Philadelphia and Reading Coal and Iron Company have taken a contract for the delivery of 5,000 tons of rails to the Texas and Pacific Railway Company, part of which are of their own manufacture and part of the product of two private firms on the line of their road. This contract was secured by agreeing to deliver them promptly by steam from Philadelphia at Houston, Texas, for which purpose the Philadelphia and Reading Railroad Co. was able to put its own steamers into the business in order to receive the work for its own region, and thus give employment to a great number of men now in that section.

Debt of Boston, Mass.

The gross funded debt of the city of Boston, Mass., on the 30th of April, 1876, was $43,848,835 73; the total amount of redemption funds at that date was $15,813,209 07—leaving the net debt $28,035,625 66. On the 30th of April, 1875, the gross debt was $43,414,829 99, the amount of redemption funds $15,038,899 68, and the net debt $28,375,930 31—showing an increase in the gross funded debt during the year of $434,005 74, with an increase of redemption funds of $774,309 89, making a decrease in the net debt of $340,303 65. The assets noted above consist of: cash, $1,757,584 07; City bonds, $10,005,675; Water bonds, $3,806,000; Mystic Water bonds, $244,000—total, $15,813,209 07.

☞ The July interest on the seven per cent Louisiana Consolidated Funding bonds of 1874 (due in 1914) is now being paid. These bonds represent sixty per cent by composition of the original debt of the State. By the amendment of the State constitution, ratified by the people, the whole State debt is limited to $15,000,000. The old debt is being consolidated at the rate of sixty per cent, and this $15,000,000 provision will more than cover the outstanding bonds.

☞ The last spike completing the Boston Concord, Montreal and White Mountains Railroad will be driven July 1st, by the President of the Company, John E. Lyon, in the presence of Dom Pedro and suite and a large number of railway men. This will complete an all rail route from Boston to the summit of Mount Washington.

☞ A corps of engineers has commenced the survey of the proposed extension of the Fredericksburg and Orange railroad from Orange Court House to Harrisonburg, Va. This road was recently purchased by the Royal Land Company, which owns valuable coal and iron mines in Rockingham and Augusta counties.

☞ The officers of the Canton Company, elected on the 21st ult., are: President, Charles J. Baker; Vice President, George S. Brown; Secretary and Treasurer, Wm. M. Janney.

Chicago, Rock Island and Pacific Railroad.

The income of this company for the years ending March 31, 1875 and 1876, were as follows:

	1875.	1876.
From passengers	$1,677,460 76	$1,763,900 58
" freight	5,292,412 24	5,121 556 64

Rent of Peoria and Bureau Valley Railroad	$125,000 00	
Interest on bonds	660,000 00	
Dividends April and Oct., 1875, 4 per cent each	1,678,384 00	
In settlement of U. S. Income tax	35,876 62	
		2,498,660 62
Leaving a balance of		$1,213,080 82
Add balance of income account April 1, 1875		6,542,970 66
Total, as in Balance Sheet		$7,756,051 48

Compared with the previous year, the gross income shows a decrease of $32,710 56; with a decrease in expenditures of $201,168 27—making an increase in the net income of $168,457 71. The balance after payment of rent, interest and dividends, is $103,181 09 more than at the close of the previous year. The report says:

To the lines of road operated by the company, as given in the last Annual Report, there have been added by the extension from Sigourney to Oskaloosa, 24¼ miles, making at date of this Report,

Main line	500¾ miles.
Branch lines	198¼ "
	699¼ miles.

LANDS.

The Land Commissioner reports sales for the year of 67,379.88 acres of land, for the sum of $532,960 67, being an average of $7 91 per acre.

Compared with sales of the previous year, there was an increase of 32,698 acres, or 94 per cent., at a slightly decreased price per acre; owing to a larger proportion of the lands sold being located at a greater distance from railroad facilities. $2,992 75 were realized for swamp lands, quit-claimed to parties claiming under the swamp land grant. The Company's claim to these lands was contested in the Courts, and settlement was made by advice of the General Solicitor of the Company.

There were assessed for taxes on the 1st of November, 1875, 360,319 acres of unsold lands. The taxes for 1875 amounted to $54,232 65; an average of 15 cents per acre.

At least three-fourths of the lands remaining unsold are situated from twelve to thirty miles distant from any railroad station, and their sale will be slower and at less price than if within convenient distance of some line of railroad.

Interest received during the year on time contracts, has amounted to $62,642 98. Bills receivable were increased $308,161 35 during the year, and now amount to $803,276 08.

Total land sales up to March 31, 1876, have amounted to $1,566,919 68.

The expenses of the land department for the year, for salaries, commissions, advertising, law expenses, etc., have averaged about twenty-five cents per acre for land sold.

After paying all expenses of the land department, and taxes for 1875, there have been remitted to the commissioners of the Sinking Fund $220,000 as the net cash receipts realized from the sales of land for the year; and making, with previous remittances, a total of $480,000.

SINKING FUND.

OFFICE COMMISSIONERS OF THE SINKING FUND, CHICAGO, ROCK ISLAND & PACIFIC R. R. Co. NEW YORK, April 1st, 1876.

The Commissioners of the Sinking Fund respectfully report, that since their annual report for April, 1875, they have received from the following sources:

Balance on hand at date of last report	$44,216 49
Cash received from land commissioner	220,000 00
Interest on bonds and loans	40,056 33
	$304,272 82
And they have purchased $262,000 of the mortgage sinking fund bonds of the Chicago, Rock Island and Pacific R. R. Co., at a cost of	$275,862 71
Cash in Corn Exchange Bank and loans	28,410 11
	$304,272 82

The securities and cash now held by them are as follows:

$698,000 00 in mortgage bonds of the Chicago, R. I. and Pacific R. R. Co.

$24,000 00 in mortgage bonds of the Peoria, Pekin and Jacksonville R. R. Co.

$8,410 11 Cash in Corn Exchange Bank.

$20,000 00 Loan on interest secured by collaterals.

All of the bonds of the C. R. I. & Pacific R. R. Co. held for this fund, are registered in the name of the Commissioners of the Sinking Fund, and so mutilated that they cannot be issued again.

The market value of the bonds of the Chicago, R. I. & P. R. R. Co. being higher than the rate at which the company have reserved the right to call them in for redemption, $100,000 were called in for January 1st, 1876, and the company have made an additional call for $100,000 to be paid off on the 1st of July next. Of the bonds notified to be redeemed July 1st, 1875, all have been presented for payment except one bond No. 1638, and of those notified for January 1st, 1876, four are still outstanding, Nos. 2877, 4297, 4893 and 7602, the owners of which are unknown, and they have ceased to bear interest from the date at which they were advertised to be redeemed.

All of which is respectfully submitted.

HUGH RIDDLE,
FRANCIS H. TOWS,
Commissioners of Sinking Fund.

A comparison of the details of the passenger travel, with that of the previous year, shows that the number of passengers carried has increased nearly 13 per cent., and the earnings from this source increased 5.15 per cent. The average distance traveled by each passenger and the rate per mile have slightly decreased. The earnings from local travel, originating at, or destined to stations on the line of the road, have increased 9.36 per cent., while those coming from foreign roads have decreased slightly. 51.3 per cent. of the passengers are bound west; 48.7 per cent. are eastward bound. The largest monthly earnings were in September; the least, in February.

Comparing freight earnings and movement with the previous year, the number of tons of paying freight carried one mile decreased 2.72 per cent.; while the earnings showed a decrease of 3.22 per cent.; the average rate per ton per mile having decreased about one-half of one per cent.

The decrease of freight earnings is mainly owing to the poorer crops of grain in the territory adjacent to your road in the State of Iowa, for the year 1875.

The impassable condition of the country roads, for a large portion of the winter and spring, contributed to keep back produce that otherwise would have sought a market over the railroad, and there is reason to think that a larger proportion of last year's crop is still held in the country than is usual at this season of the year, and may increase the shipments in the early summer months.

The past winter being unusually mild, led to a decrease in the quantity of coal moved. There has been an increase in the general merchandise, lumber and cattle transported; and, had the grain crop of Iowa, in 1875, been as abundant, and of as good quality as usual, there is no doubt the freight earnings would have shown a satisfactory increase.

The acres under cultivation, in the territory tributary to your road, are increasing yearly, and the surplus produce will doubtless increase in proportion to the acreage under improvement; and this justifies the hope that the past year will be an exceptional one in the history of your freight earnings.

THE RAILROAD LAW OF IOWA,

Prescribing maximum rates for passengers and freight, to which reference was made in the last annual report, still stands on the statute book of that State.

The operation of the law is not satisfactory to the railroad interests of the State, nor to a large portion of the people, who patronize the railroad; yet an effort to modify or repeal such law, by the last legislature, failed to afford any relief.

In the neighboring States of Wisconsin and Minnesota, better counsel prevailed and a modified law was enacted, that it is believed will prove satisfactory and just to the railroads, and advantageous to the people. It is as impossible to anticipate how far the continuance of this law will affect the earnings of your road in the future, as it is to foresee the new combinations and influences that may arise to control rates to points outside the State. It is believed, however, that the growth in population and production will increase the revenue, despite the disadvantages of an unjust and arbitrary law.

The expenditures on account of construction and equipment have been as follows:

Land and land damages	$9,061 75
New equipment	200,683 89
Grading, including masonry	68,824 62
Construction of second track, 16.82 miles	156,006 48
Additional side tracks, 6¼ miles	36 207 60
Reducing homestead grade	86,836 75
New depots and buildings	33,640 00
New water station and pump	4,401 87
New machinery in shops	2,614 49
Engineering and contingent exp.	5,376 00
Winterset railroad	677 53
Extension Oskaloosa Branch	557,407 17
" South Chicago Branch	21,018 07
Rock Island Bridge	13,365 69
	$1,196,121 86

The additions made and cost charged to New Equipment Account have been: 12 locomotives, 1st class freight; 6 passenger coaches, 1st class; 102 box freight cars; 50 stock freight cars; 4 caboose cars.

A second track has been constructed and brought into use from the Joliet Quarries to Aux Sable River, a distance of 16.8 miles. From Marseilles to the crossing of Fox river, near Ottawa, a distance of 6.50 miles, the grading and masonry for a second track have been completed; but no rails have been laid.

New double-track bridges, with stone piers and abutments, have been erected at the Du Page and Aux Sable rivers; the cost being charged in part to operating expenses, and part to second track, on the basis as stated in regard to masonry.

Six and one-half miles of additional side-track have been laid during the year; some at new stations recently established in Western Iowa; but more where the increase of shipments demands increased facilities for doing the work.

Eight new depots or station buildings have been erected; six at points where the increase of population made it desirable to open new stations.

At Des Moines, a convenient and substantial building of brick, two stories high, has taken the place of the old dwelling before used for passenger depot.

An addition of nearly three miles of track has been made to the South Chicago Branch road, to reach the Joseph H. Brown Steel and Iron Works and the various lumber yards.

A connection with the Baltimore and Ohio Railroad has been made at this point, and a long side track laid, to facilitate the interchange of traffic with that road.

The growth and development of new enterprises in the vicinity of South Chicago, taken in connection with the traffic already secured, gives assurance that this branch of your road will prove a valuable acquisition in the future.

The charge to Rock Island Bridge Account arises from covering the deck with sheet copper, ordered by United States War Department; one-half the cost of labor and material being charged to this railroad company.

The stockholders, at their annual meeting in June, 1875, voted to extend the Oskaloosa Branch of the Chicago, Rock Island and Pacific Railroad from Sigourney, Keokuk Co., Iowa, to Knoxville, Marion Co., a distance of about fifty miles. The contracts for grading and bridging of twenty-five miles to Oskaloosa were let the same month. The summer and fall, owing to the unusual amount of wet weather, proved unfavorable for this class of work; and this delayed track-laying, so that the road was only opened for traffic the latter part of February. The remaining twenty-five miles to Knoxville were put under contract in December, and it is expected will be finished and in operation about the first of September next.

For the information of stockholders not familiar with the State of Iowa it is proper to state, that the portion of your road known as the Oskaloosa Branch diverges from the main or Council Bluffs line at Wilton, twenty-five miles west of the Mississippi river, running southerly to Muscatine, an important town situated on the same river; thence westerly through Louisa, Washington, Keokuk and Mahaska counties to Oskaloosa, the present terminus, 103 miles from Wilton.

These counties are all well settled, and take rank with the most productive and prosperous counties of the State of Iowa. Marion county, next reached by the extension to Knoxville, is equally rich in agricultural products; and with Mahaska county contains an almost inexhaustible supply of coal, of a superior quality. As the bulk of the agricultural products of this rich territory must seek a market in Chicago, or further east, using your line for more than 300 miles, which with the traffic in coal that is sure to spring up, when the supply is known to be abundant and cheap, it is evident this extension must add largely to the tranportation of your road, and result in an increase of the net income.

A further extension of 24 miles west from Knoxville will connect with the Indianola Branch Railroad, and thus give a Western connection with your main line, via Des Moines.

With this connection complete, your company would have two parallel roads from Wilton to Des Moines, passing centrally through two adjacent tiers of counties, and they could be used to give the relief usually obtained by building a second track.

The principal items of expenditures for repairs and renewals of track have been as follows:

237,828	Cross ties, costing	$82,587 99
6,248	Gross tons Bessemer steel rails	455,865 85
1,178	Gross tons iron rails	58 912 63
255,775	lbs. railroad spikes	7,724 70
552,022	lbs. joint splices and bolts	15,232 47
43,596	Rails have been cut and repaired in company's shops at a cost of	23,468 36
66.2	miles of track have been relaid with steel.	
13.4	miles of track have been relaid with new iron.	

The company have at date of this report:

23,034½ tons of steel rail in track.
Equal to 247 miles.

Steel rails have been used altogether in the renewal of Main Line Track for the past year, and iron rails for Second Track and Branches. The entire cost of steel rails used during the year has been charged to operating expenses.

The gross earnings of the road during the year ending March 31, 1876, were $7,342,189 97; the operating expenses, $3,655 161 34; and the net earnings $3,687,028 63. During the fiscal year ending March 31, 1875, the earnings were $7,388,-684 76; the expenses, $3,856,829 61; and the net earnings, $3,532,305 15—showing a decrease in earnings during the past over the previous year of $46,444 79, a decrease in expenses of $201,168 27, and an increase in net earnings of $154,723 48. The percentage of operating expenses in 1875-'76 was 46.43; including taxes and legal expenses, 49.78; against 52.19 in 1874-'75, 55 in 1873-'74, 54.8 in 1872-'73, 50 in 1871-'72, 56.5 in 1870-'71, and 57.66 in 1869-'70.

The number of passengers transported during the year was 1,406,433, of which, 1,389,652 were first class, 6,350 second class, and 10,431 emigrant. Of the total number, 46,830 were through, and 1,359,603 way; 685,088 going east, and 721,345 west. Number of passengers carried one mile, 59,393,515; equivalent to carrying each passenger 42 miles. Average rate per passenger per mile, 2.97 cents; against 3.061 cents in 1874-'75, 3.394 cents in 1873-'74, 3.596 cents in 1872-'73, 3.617 in 1871-'72, 3.840 in 1870-'71, and 4.59 in 1869-'70. Average amount for each passenger, $1 25½. The percentage of receipts during the past year has been: from passenger earnings, 24.02; freight, 69.76; express, mails, etc., 5.22. The gross earnings per mile of road operated were $10,845 20; expenses, $5,400; net earnings, $5,-445 20. Earnings for each mile run by passenger trains, $1 98.

The amount of freight transported during the year was 3,280,000,582 pounds. Total freight carried one mile, 288,525,696 tons. Average rate per ton per mile, 1.91 cents; against 1.92 cents in 1884-'75, 2.07 cents in 1873-'74, 2 26 in 1872-'73, 2.49 in 1871-'72, 2.64 in 1870-'71, and 2.74 in 1869-'70. Earnings for each mile run by freight trains, $1 42.07.

The company owned at date of last report 217 locomotives; to which 12 have been added—making a total of 229. The company have also 12 sleeping coaches, 75 day coaches, 6 railway post office, 24 baggage, mail and express, 1 paymaster's, 2,510 box freight, 672 stock freight, 979 platform and coal, 85 caboose and drovers', 1 pile driving, 1 wrecking, and 40 gravel cars.

The number of miles run by passenger trains was 1,019,730; by freight trains, 3,587,196; by wood, construction and gravel trains, 375,525—total 4,982,451. Cost per mile run for repairs, oil, waste, fuel, and wages of engineers, firemen and wipers, 18.61.

American Railroad Journal.

Saturday, July 1, 1876.

Financial and Commercial Affairs.

Money has been very plenty all through the week, and lenders have been quite prompt in responding to the wants of borrowers in good standing at the ruling low figures. The preparations for the 1st of July interest and dividend disbursements—which despite the dulness and depression in business will be very liberal—have not seriously affected the market. Government commenced on Tuesday the payment of the July coin interest on the public debt, without rebate. The Stock and Gold Exchange dealings have not been of sufficient magnitude to call for remarkably large amounts of Money. Call loans are quoted at 2@3 per cent, and best mercantile credits at 4@6 per cent per annum. The wants of merchants generally are on a restricted scale. The City banks report a loss of legal tender notes, with a falling off in specie and circulation, and an increase in loans and deposits. The Government office here again enlarged its coin and currency balances during the week. The U. S. Sub Treasury currency balance was augmented $1,354 577, and the specie reserve $129,120. National Bank notes received at the Treasury Department last week for redemption were to the amount of $6,165,000. The City Banks have had their deposits augmented $149,800; and their legal tender reserve cut down $ 156,100. The specie average has been reduced $417,800. The loan and discount item was increased $1,585,300. The circulation fell off $42,900. The U. S. Sub Treasury in this city closed the week with a currency balance of $34,911,075 against $33,556,497 the preceding week; and a coin board of $88,770,119 against $88,640,751 on the

previous return. The City bank exchanges in currency reached $330,524,109, or a daily average of $55,087,351. The customs revenue of the port during the week was $1,524,577.

The City banks reported their average of gold last week at $14,900,400, and their greenback average at $54,204,100. Their deposits stood at $208,751,800. The loan item was $248,397,400. The circulation was $15,603,500.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $16,916,550 as against $17,527,900, the preceding week.

The aggregate of the outstanding U. S. currency, of all denominations, June 1st was $407,991,585. The outstanding amount of legal tender notes is $370,123,668. The National bank circulation is now $331,490,315 including $2,099,190 of national gold bank notes.

On Monday of this week the cash balances of the Treasury Department at Washington were: of Currency $10,778,618; special deposit of legal tenders for the redemption of certificates of deposit, $35,645,000; Coin, $66,900,962; Coin certicates, $22,967,000.

The week's import entries of Foreign Merchandise at New York were $4,492,551, including $729,434 of Dry Goods.

The income of the Government from internal revennes in the current fiscal year, commencing with July 1, 1875, has been about 112 millions; and from Customs, 144½ millions.

Gold has been on the decline, the speculative inquiry having been less active, and the customs call quite moderate. The July coin interest disbursements have been working against the interests of operators for a rise. The export movemet has been fair. The extremes of the price during the week have been 111⅞@112⅜, closing on Wednesday at 111⅞, as against 112⅜ on Wednesday of the preceding week. The specie outflow last week was $1,753,950 against $1,123,310 the previous week. The imports of specie at this port last week were $253,165, and since January 1st $2,167,950 as against $6,886,933 same time last year. The customs demand for gold last week averaged $254,000 per day. Foreign Exchange has been in fair demand at about previous figures. Bankers sixty day bills on London closed on Wednesday at $4 87¾@$4 88; sight bills on London at $4 90@$4 90⅛ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $6,674,504. The week's imports of Dry Goods and general merchandise were to the specie value of $4,492,551 as against $6,934,666 the corresponding week of 1875.

Government Securities have been in moderately active demand for investment purposes but, with lower Gold figures, prices have shown less firmness. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $341,750,000.

U. S sixes of 1881 closed on Wednesday of this week at 123¾@123⅞; U. S. Five-Twenties of 1865, at 115¾@116; U. S. Five-Twenties of 1865 consolidated, 120⅛@120¾; U. S. Five-Twenties of 1867, 122⅛@122¾; U. S. Five-Twenties of 1868, 124@124⅛; U. S. Ten-Forties at 118⅜@118⅝; U. S. Fives of 1881, (Funding Loan 117@117¼; Six per cent. currency Sixes 126@126½.

State and Railway bonds have been in fair request, and prices of the more substantial loans have been very well supported. And in the line of Railway and Miscellaneous share property there has been less animation and prices have been quoted variable, closing however with some show of steadiness on the more active speculative properties.

General business has been on a restricted scale, checked in good part by the oppressively warm weather, and also in part by the decline in Gold. The approach of the July holidays has had its influence in limiting operations. Domestic produce has been, in most instance, quoted cheaper. Petroleum has been exceptionally strong and buoyant in price, on a decidedly more active export movement. Foreign merchandise has been without notable animation. Sugars and Coffee ruled firmer. The Metal trade has been quite tame, throughout. A sale of old T Rails, for Eastern delivery, was reported within our range. Eglinton Pig Iron quoted here at $27 50@$28; Glengarnock $29 50@$30; Coltness $30@$30 50. No. 1 American Pig at $22@$23; No. 2 do. at $20; Forge $18@20; American Rails at works $40@$43; Old Rails $21@$22. Wrought Scrap $28. Ocean freights have been quite active, and quoted firmer. Accommodation for Petroleum, Provisions, Grain, Cotton, Tobacco and Flour attracted most attention.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ OFFICE OF THE CENTRAL PACIFIC RAILROAD CO., No. 9 NASSAU STREET, NEW YORK, June 29, 1876—The coupons of the First Mortgage Bonds of the CENTRAL PACIFIC RAILROAD COMPANY, the WESTERN PACIFIC RAILROAD COMPANY and the CALIFORNIA AND OREGON RAILROAD COMPANY, due July 1, 1876, will be paid in gold at the office of FISK & HATCH, No. 5 Nassau street. Holders presenting ten or more coupons will leave them for examination, in which case a receipt will be given and payment made on the following day.

C. P. HUNTINGTON, Vice-President.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, June 21, 1876.

A DIVIDEND OF FOUR PER CENT. HAS been declared by this company, payable on the 1st day of August next to the holders of full paid shares registered at the close of the 14th day of July next, after which, and until the 5th day of August the transfer-books will be closed.

L. V. F. RANDOLPH, Treasurer.

☞ We invite attention to the advertisement of James Clayton, Manufacturer of Steam, Air, Vacuum, and Air-Compressor Pumps, etc., 14 Water Street, Brooklyn, N. Y.

☞ Mr. Samuel Sloan has been elected President of the Michigan Central Railroad Company.

Erie Railway.

At a meeting of the stockholders of the Erie Railway Company in London on the 23d ult., Sir Edward Watkins submitted the following plan: That without reducing the rate of interest, beginning next September, they should fund for a period of four and a half years the alternate coupons of the first bonds, paying alternate coupons in gold, and that they should fund of the second bonds nine half-yearly coupons in a lump. Sir Edward suggests that there should be power in 1880 to redeem the second bonds at 80. The meeting adopted the scheme after a complimentary allusion to Messrs. Jewett, Fleming and Miller.

Sir Edward explained that under the scheme submitted to the meeting the holder of a thousand dollars nominal of the second bonds would receive immediately $300 in new bonds, which would pay five per cent. interest, commencing June 1, 1877. After 1880 the interest on the second bonds which were not redeemed would be reduced from seven to six per cent. Preferred and ordinary shareholders were to be assessed respectively three and six per cent. It was decided that two or three leading Americans should be invited to co-operate and support Mr. Jewett.

☞ The reports of Hugh J. Jewett, Receiver of the Erie Railway Company, as passed upon by ex-Judge Spencer, the Referee, for the month of April were filed in the County Clerk's office on the 24th ult. From these it appears that on March 31 there was a balance on hand of $380,307 96. During the month $2,134,276 81 were received, and $1,829,270 85 expended. The balance of cash on hand April 30 amounted to $305,005 96. The total of the certificates of indebtedness issued by the Receiver amount $2,356,539 40. Of these, $1,186,539 40 have been canceled, leaving $1,170,000 outstanding.

☞ The Connecticut Valley Railroad Company which, since their completion, has leased and operated the Connecticut Central Railroad, from East Hartford to the Massachusetts State line, and the Springfield and New London Railroad, from the State line to Springfield, has given notice of the immediate termination of both leases on the ground that it cannot afford to pay the rental demanded. Probably both roads will be run hereafter by the Connecticut Central.

☞ Mr. Donald Mackensie, with an engineering party sailed from Liverpool on the 10th ult. for the west coast of Africa, their object being to make the necessary surveys for turning the waters of the Atlantic into the great desert of Sahara. He is confident that a canal eight or nine miles long will accomplish the object, and enable the flooding of the desert so that Timbuctoo will be brought within navigable distance of the sea.

☞ The Owenboro and Russellville railroad was purchased at auction by John Newman, of South Carrollton, Ky., for $120,000 over obligations.

☞ The Trustees of the Eastern Railroad Company have organized their office, and appointed Mr. Joshua Crane as chief clerk.

☞ The Woonsocket (R. I.) Machine Company has just shipped eighteen boxes of machinery to Amsterdam, Holland.

☞ Mr. John I. Blair has decided, it is said, to build a railroad from Blairstown, in Warren county, N. J., to Delaware Station, on the Delaware River, where the Delaware, Lackawanna and Western Railroad crosses from the Jersey to the Pennsylvania side of the river. The road will be about eighteen miles long and pass through a rich farming district, crossing Blairstown and Knowlton townships and touching at Centreville. It will give the farmers direct communication with New York and the West. The farmers and others along the line have donated the right of way, and Mr. Blair will build and equip the road at a cost of $250,000 and present it to the people of Blairstown.

☞ A meeting of the holders of the first and second mortgage bonds of the Mississippi Central Railroad Company was held on the 23d ult., to consider what steps it would be necessary to take to preserve their interests, the Illinois Central Railroad Company having determined to foreclose on them. A resolution was adopted authorizing the trustees of the first and second mortgages to be parties to the suit now pending, to employ counsel, and take all necessary steps to protect the interests of the first and second mortgage bondholders of the Mississippi Central Railroad.

☞ At Louisville, Ky., on the 23d ult., Chancellor Bruce, of the Chancery Court of that city, delivered a decision ordering the sale of the Louisville, Cincinnati and Lexington Railroad, known as the Short Line Road. The road has been in the hands of a Receiver since September, 1874. The decision rendered was caused by a suit brought by G. L. Douglass, Norman Greene and others, representing the bondholders.

☞ A company called the Nova Scotia Nictaux and Atlantic Central Railway Company was organized at Halifax on the 15th ult., having in contemplation the construction of a line of railway from a point on the Windsor and Annapolis Railroad to the Atlantic coast. Nova Scotia pays a liberal subsidy to aid the work, and ten per cent of the capital has been paid by the incorporators, who are chiefly New York capitalists.

☞ The award of $2,381,617 New York City six per cent consolidated stock, was made to Messrs. Morton, Bliss & Co, at 104 27. The bonds are called "twenty-fifties," redeemable 1896, payable 1926. Nearly one million city assessment 6 per cent bonds were also awarded at 102 17@101 47. The total amount of securities offered was $3,373,000, while the bids ran up to nearly $14,000,000.

☞ The local Board of Directors of the London, Huron and Bruce Railroad has been dissolved, and the vacancies on the directorate have been supplied by Right Hon. Hugh Childers, F. Broughton, and Sir Charles Young. This line is now fully under the control of the Great Western.

☞ A bill of complaint has been filed at Richmond, Va., for the appointment of a receiver for the Washington City, Virginia Midland and Great Southern railroad formerly known as the Orange and Alexandria.

☞ The suit against the Virginia Midland railroad, at Alexandria, Va., for a foreclosure of mortgage, has been settled and the case dismissed.

The Coal Trade.

The aggregate tonnage reported by the several carrying companies for the week ending on the 17th instant foots up 468,771 tons, against 347,762 tons for the corresponding week last year, an increase of 121,009 tons. The total amount of anthracite mined for the year is 7,118,544 tons against 6,080,062 for same period last year, an increase of 1,038,842 tons. The quantity of bituminous coal sent to market for the week was 76,476 tons, against 99,728 tons for corresponding week last year, a decrease of 23,252 tons. The whole bituminous tonnage from the beginning of the coal year is 1,522,703 tons, against 1,542,673 tons in corresponding time last year, a decrease of 19,973 tons. The total tonnage of all kinds of coal for the week is 545,247 tons, against 447,490 to corresponding date last year, a decrease of 97,757 tons, and the total tonnage for the coal year is 8,641,247 tons, against 7,662,735 tons to same date last year, an increase of 1,018,512 tons. The quantity of coal and coke carried over the Pennsylvania Railroad during last week was 99,192 tons, of which 82,918 tons were coal and 16,274 tons coke. The total carried this year is 1,873,780 tons, of which 1,543,070 were coal and 330,718 coke. This total embraces all the coal carried over the road, east and west. At Perth Amboy for the week ending on the 17th inst. the receipts of coal were 23,612 tons and the shipments 15,018 tons, leaving 83,850 tons on hand. Freights to New York, 35 cents; Hartford, 90 cents; Boston, 95 cents.—*Phila. Ledger, June* 26.

Coal Dust as Fuel.

The president of the Philadelphia and Reading Railroad Company read before the American Institute of Mining Engineers on the 20th ult. a paper showing the success of the company in burning coal dust as fuel. Instead of being moulded into blocks, as by the Loisean process, the dust, in its loose condition, is shovelled into furnaces of stationary engines or locomotives. The heat obtained from it is equal to that from an equal weight of lump coal. The burning is effected by forcing a current of air and steam through the dust in the furnace, which prevents it from caking, increases the supply of oxygen and adds some hydrogen, all of which tends to make the combustion more vigorous. The Pottsville Miners' Journal estimates that one-third of all the coal which is mined is crumbled to dust and made unsaleable. Forty million tons are thought to be available for market, and much of it is close by railroad tracks. The new invention is supposed to be applicable to the use of steamships and smelting furnaces.

☞ The general agent of the Chesapeake and Ohio Railroad Company loaded and cleared from the Chesapeake and Ohio wharves, at Richmond, Va., during the month of May, 55 vessels, of which four were foreign ships, all carrying 20,000 tons.

☞ The Supreme Court of Massachusetts has appointed William C. Rogers, of Brookline, William G. Bacon, of Boston, and William P. Phillips, of Salem, as Trustees of the Eastern Railroad, to hold and manage the road for the benefit of the creditors of said road.

☞ It is stated that subscriptions to the stock of the narrow gauge railroad between New Bedford and Boston via Middleboro' are coming in rapidly.

☞ It is stated that the Southwest Pennsylvania Railroad will be completed as far as Uniontown by the Fourth of July.

Toledo, Wabash and Western Railway.

The Bondholders' Committee, of which John W. Ellis is chairman, have addressed to the bondholders of the Toledo, Wabash and Western Railway Company the following circular:

To keep the bondholders advised of the condition of the Company and our progress toward a reorganization we have to report:

That under the decree of sale made in Ohio on the 14th December last, and subsequently concurred in by the courts of Indiana and Illinois, the road, equipment, &c., was sold on the 10th June, at Toledo, Ohio, and bought in by the Purchasing Committee in trust for the gold bondholders, subject to all previous mortgages. The sale has been confirmed by the court in Ohio, but cannot be confirmed for some weeks in the other States, as the courts have adjourned for the Summer. As soon as the confirmation of the sale is complete and the deed delivered, immediate steps will be taken for the formation of a new company to take the management of the property. It is our present expectation and intention that the new company shall resume payment on the 1st of February next of the coupons then due on the first mortgages on the main line, between Toledo and the Illinois River, and the Illinois and Southern Iowa Branch, with such further arrangement for the overdue coupons as shall prove satisfactory to the holders. It is intended to resume payment on the 1st of August, 1877, of the coupons of the Decatur and St. Louis Branch, and on the 1st of November, 1877, on the first mortgages of the Quincy and Toledo Branch, and on all the second mortgages on the main line.

The fullest details of these contemplated arrangements, together with those for the consolidated mortgages, will be published after the new company gets possession of the property.

☞ James B. Francis has been elected President, and Jacob Rogers Clerk and Treasurer, of the Stony Brook Railroad Company. The directors are: Wm. A. Burke, Benj. F. Clark, James B. Francis, Sewall G. Mack, Jacob Rogers, George F. Richardson and Joseph H. Read. No annual reports are made, as the road is leased to the Boston, Lowell and Nashua Railroad Co.

☞ Mr. Abram S. Hewitt, the President-elect of the Society of Mining Engineers, advocated, in his inaugural address in Philadelphia last week, a tax of five cents a ton on coal, by the anthracite companies, to be applied to the moral and social improvement of the workingmen and their families. This small tax, it is said, would produce $1,000,000 a year.

Phœnixville Bridge Works

Clarke, Reeves & Co.,

The attention of the officers of Railroad Companies is called to a new Album of Designs, showing the various styles of Iron Railway Bridges, Viaducts, etc., that we have constructed and are prepared to construct, which we will send by mail on application to

410 Walnut Street, PHILADELPHIA.

YORK CAR WORKS.

ESTABLISHED IN 1852.

Billmeyer & Smalls,

YORK, PENN.

This old established firm continue to build all kinds of Freight Cars to order.

Narrow Gauge Freight and Passenger Cars

having received their special attention, they are prepared to receive orders and to deliver promptly.

American Railroad Journal.

New York, Saturday, July 8, 1876.

Philadelphia and Reading Railroad.

The President of the Philadelphia and Reading Railroad Company has issued a statement addressed to the stockholders of that company giving, in the name of the Board of Managers, the reason for passing the July dividend on the common capital stock of the company. He says in substance that, as in the first half of every year, the coal trade is always dull, while it is very heavy in the latter half, the dividends declared during the first half have almost invariably been paid out of the surplus earnings of the latter half of the year preceding. During the year 1875, however, when the long strike of six months took place, the earnings of the company fell off so much that the reserve fund, which amounted to $936,771 19 at the beginning of the year, was practically exhausted and reduced to $65,453 54 after payment of the January dividend, and it therefore follows, that though the earnings of the first six months of the present year are really in excess of the average earnings of the company to the same period of the year, they are as usual insufficient to provide for the July dividend, after payment of interest; and there being no reserve fund to fall back upon, the dividend must be passed. The net profits of the two companies, *i. e.* the Railroad Company and the Coal and Iron Company, up to May 31, inclusive, of the present year, were $2,102,103 44 in excess of those of the corresponding period of last year. While it is true that five out of the first six months of last year were covered by the strike, and that, therefore, the same ratio of increased profits cannot be expected for the remainder of the present year, it must also be borne in mind that in consequence of the accumulated stock of coal on hand during the exceptionally mild weather of last winter, there was an absolute suspension of coal mining during the present fiscal year for a period extending from Dec. 11, 1875, to March 27, 1876, or over three and a half months; notwithstanding which the actual net profits resulting from railroad traffic alone for the first six months of the year are $1,479,231 81, a sum which has only been exceeded twice in the last ten years, and which is $326,955 47 more than the average profits of the company to the same date for the last fifteen years, a period which includes the heavy traffic which was carried and the high rates of transportation which prevailed during the entire war.

The statement then proceeds to show the financial standing of the Philadelphia and Reading Coal and Iron Company. Its operations are entirely satisfactory. It is true that with a market which takes a coal tonnage of little more than half of the productive capacity of the collieries already opened on the lands, it cannot be expected that a profit will be made sufficient to pay interest upon the entire investment in coal lands and collieries; yet, as the principal creditor of the Coal and Iron Company is the Railroad Company, which is amply able to earn in its own business enough to pay interest and sinking funds upon all the capital it has borrowed to advance to the Coal and Iron Company, it follows that the latter is only obliged to meet the interest upon its bonds held by the public, which amounts annually to only $1,044,194 50, a sum which can readily be met out of a mere rent of about thirty cents per ton upon the present yearly tonnage of the property, without counting upon any profit in mining; although since the resumption of mining this year the Coal and Iron Company has been earning a net profit each month of fully seventy per cent. more than sufficient to pay its entire monthly interest account, due to all others than the Railroad Company. The statement ends as follows:

The valuable coal lands of this Company are now represented by a cost, including all improvements and all interest charged upon all them during the time occupied in the purchase and improvement, of not over $500 per acre. The estate of 100,000 acres of coal land contains an average of at least 20,000 tons of merchantable coal to the acre, which at a mere rental value of 25 cents per ton would show an intrinsic value of $5000 per acre. The present depression cannot last forever, and with an ability even in the present dull times, so clearly demonstrated, of being able to keep intact the vast property of the two companies without in any manner adding to their capital by any accumulation of interest—it surely cannot be very long before the stockholders will be enabled to participate in the revenues which must flow from them—and meanwhile they can rely implicitly upon the following:

1. That there is not one dollar of the legitimate earnings of the companies diverted in any manner or by any intermediate agency from its proper owners, the stockholders of the Company.

2. That every dollar of profit fairly earned, will, after the accumulation of a proper reserve fund, be divided among the stockholders.

In conclusion it may be proper to state that while there was no course left to the managers but that of passing the dividend, the policy of so doing is sanctioned by all the principal stockholders in this country whose opinion could be ascertained, and has the direct approval of nine-tenths of the stockholders residing abroad, who through the London agents of the company, have telegraphed a respectful but firm protest against the declaration of dividends without an ample reserve fund accrued in cash.

FRANKLIN B. GOWEN, President.

The Block and Signal System.

The Highland Railway of Scotland is experimenting with what the English journals describe as a novel and ingenious combined block and signal system, the invention of Dr. Whyte, who has devoted several years to the work of improving the mechanical arrangements for operating railway trains. The system is entirely automatic, and its operations are performed with the agency of an electro-magnetic machine of simple con-

struction. An engine running past, say two stations, blocks the line at the first by raising a semaphore; places an automatic check against the passing of a second engine by the ringing of an alarm bell on the second engine itself, should it attempt to follow; announces its approach to the second station, or can be stopped by the station master there; and on reaching that station clear the line at the previous one of both semaphore and alarm bell, so as to leave it free for any approaching train. The advantages claimed for this system are that, being self-acting, it dispenses with human labor, which at some critical moment is apt to be at fault; that the certainty of its instantaneous action is secured by the concealment of its working parts and their protection from wet and dust; and that the expense of applying it to any railway is comparatively small.

Naugatuck Railroad.

The receipts from operations of this road for the years ending September 30, 1874 and 1875, were:

Secretary and Treasurer.—HORACE NICHOLS.

Superintendent.—GEO. W. BEACH.

American Institute of Mining Engineers.

The first meeting of the Convention of Mining Engineers was held at the Franklin Institute, Philadelphia, on Tuesday, the 20th ult., Mr. A. L. Holley, President, in the chair.

The chairman introduced Mr. F. B. Gowen, President of the Philadelphia and Reading Railroad Co., who welcomed the members to the city in an address in which he called attention to the great waste attending the present method of mining and preparing coal for market. Great piles of the purest carbon in the shape of coal dust lie near the mines, and their presence and character may possibly puzzle the future geologist. He explained a recent method invented by Mr. Wooten for utilizing this waste in making steam in stationary engines. After a trial of several months with stationary and locomotive engines he believed they had obtained results equal to those obtained from the most expensive coal.

There are at least forty million tons of this material lying useless in the anthracite regions. He threw out the suggestion that this material could be used in reverberatory furnaces in melting iron. The prosperity of this city is dependent upon the mining interests of the State of Pennsylvania. The time has gone by when the idea that practical men alone are required to develop these interests; there is needed also high scientific attainments such as this Institute represents.

The chairman announced the election as president of the Institute for the coming year, Mr. Abram S. Hewitt, whom he introduced.

The President-elect then addressed the Convention. He gave a history of the progress of mining engineering and the development of the metals during the last hundred years. The first pig iron made from American ore was smelted in England in 1608. In 1702 the first furnace was built at Pembroke, Mass. The total export of iron in 1717 was three tons; in 1771 it had increased to 7525 tons. The production of coal in the year 1874 in Great Britain amounted to 46.4 of the whole product of the world; in the United States, 18.4 In the same year the production of iron in Great Britain was 45.2, and in the United States 18.1 of the whole product. This shows that the production of coal and iron in any country generally bear the same relations to each other.

The leading facts in the mining history of the country may be enumerated as follows: First, the erection in Centre Square, Philadelphia, of the first steam engine ever built in America. In a hundred years, steam has transformed the face of the earth. Second, gold mining in the South in the early part of the century; third, the opening of the anthracite coal fields and the use of anthracite in blast furnaces; fourth, the use of raw bituminous coal in the blast furnace; fifth, the development of the copper mines in Lake Superior; sixth, the discovery of gold in California in 1848, or rather its rediscovery; seventh, the commencement of quicksilver mining in 1851; eighth, the introduction of the Bessemer steel process; ninth, the commencement of hydraulic gold mining; tenth, the commencement of iron mining in the Lake Superior region, and eleventh, the discovery of silver in the Comstock lode, which opened an era of speculation which has hardly ceased since that time.

He concluded his address by a review of the situation in the coal region, with suggestions as to how to harmonize the relations of the employers and employed.

At the conclusion the Convention adjourned to the rooms of the Institute, No. 1100 G rard street, where the President elect held a reception, which was largely attended by the members of the Institute and the Society of Civil Engineers.

The Convention re-assembled on Wednesday morning at Judges' Hall, Centennial Grounds, Mr. Holley in the chair.

The entire session was occupied in the reading of a long and valuable paper on "The Theory of the Action of the Hot Blast," by J. Lowthian Bell, of England, from which the following general statements are taken:

There has probably been no improvement in the manufacture of iron which created more surprise in the minds of practical smelters and of scientific men than Neilson's discovery of the hot blast. In 1829 Messrs. Dunlop & Co. consumed at the Clyde Works, near Glasgow, nearly 7¾ tons of coal to make a ton of iron, of which about twenty hundred weights were employed under the boilers of the blowing engines, leaving nearly seven tons for the consumption of the furnace itself. In 1833, by heating the air to 612 degrees Fahrenheit, three tons sufficed by burning eight hundred weights in the apparatus for raising the blast to this temperature.

Prior to Neilson's time the fuel employed in smelting iron was coke, and it was erroneously supposed at that time that coal in its raw state when burned with cold air was unfit for the purpose. In the form of coke not less than thirty hundred weight was saved by heating the blast to 615 degrees Fahrenheit.

There have been many opinions advanced to account for the apparent anomaly, but none satisfactorily explains the mode of acting the hot blast. The object of this paper is to present certain views of the writer which he had been led to adopt after many experiments.

In opposition to opinions formerly expressed by others, he ascertained that oxide of iron was susceptible of reduction to the metallic state at temperatures far below that believed to be necessary. This was proved by the following experiments: Oxide of iron, as it exists in various ores, was exposed at known temperatures in the labora-

tory to currents of carbonic oxide, as well as to mixtures of this gas with different proportions of carbonic acid, the latter substance being the product of the reduction in the smelting process.

Secondly, the same substances were afterwards placed in cavities in the blast furnaces, so as to secure treatment analogous to that which they undergo in the actual process of smelting.

Thirdly, the gases of different furnaces taken at different heights were analyzed, by which means it was ascertained when the combined oxygen they contained approached in quantity to that corresponding with the nitrogen as it is found in atmospheric air, proving thus that the materials under treatment had, at certain points, ceased to give off any notable quantity of oxygen gas.

In a very few minutes, therefore, after the ore is shot into the throat reduction begins, and, in most cases, by the time it has travelled downwards, through 12 or 15 feet, this division of the process may be said to be completed. Below this level the value of height in a blast furnace must only be regarded as a means of intercepting the heat which is carried upwards by the rapid current of gases generated by the combustion of fuel at the tuyeres. These gases arrive speedily at the point of exit, and, if the furnace be of insufficient height carry off a considerable portion of the combustibles employed in the operation

Until a dozen years ago the furnaces in general use rarely exceeded fifty feet in height. An experiment was tried by raising a furnace from forty-five to seventy-five feet, retaining the original diameter of fifteen or sixteen feet. Soon after larger dimensions were adopted, and in time this example of the north of England was extended to some cold blast furnaces,and the saving in fuel corresponded almost exactly with what had been accomplished by the use of hot air. The paper then goes on to show how the substitution of heated for cold air is equivalent to an increase of capacity in the furnace.

It is estimated that the ordinary burden of a hot blast furnace possesses heat absorbing power about one tenth superior to that of one blown with cold air, and by so much at least the useful capacity of the former is raised by the change. It was early remarked by manufacturers that the economy in fuel effected by the use of hot air varied considerably with different ores smelted by its aid. With Scotch black band the saving was not less than 30 cwts, of coke per ton of iron, whereas in Wales it did not much exceed one third this quantity, and in France furnaces were instanced where the change was scarcely appreciable.

About twenty years ago the Cleveland iron masters in the north of England raised the temperature of their blast to about 900 degrees, with considerable advantage in the matter of coke, and ten years later two furnaces at the Clarence Works were constructed, 80 feet high with a capacity of 16,000 cubic feet. The saving in fuel from these two alterations approximated eight or nine cwts., of which two-thirds was due to the enlargement. No benefit has been derived from an increase in size beyond this limit.

In no country are there more striking instances of the different characters of ores than in the United States. Large quantities of iron are run from individual furnaces of very moderate size. They are blown with air of no extraordinary temperature, and the consumption of fuel does not exceed that in the lofty furnaces of the north of England. This is especially the case with charcoal furnaces. There are actually to be found instances of furnaces 40 feet high and 9½ feet wide, containing less than 1500 cubic feet, running 250 tons of the richest gray iron in a week. This extraordinary production for such a capacity is achieved with a blast at seven hundred degrees, no benefit accruing from raising it to a higher temperature, and yet, in some instances, a ton of metal is said to be obtained for even less than an equal weight of charcoal. The dimensions of a furnace and temperature of blast are convertible terms until we arrive at a certain composition of the gases. This composition infers one-third carbon burned as carbonic acid, and two-thirds as carbonic oxide, and carbon thus burned means a given quantity of heat.

The Convention then adjourned to meet at the Franklin Institute at 10 A. M. Friday.

Dayton and Southeastern Railroad.

The exact distances between stations on the Dayton and Southeastern railroad now in process of construction are given by the company as follows: Dayton to Xenia, 17.59; Xenia to Jamestown, 11.01; Jamestown to Washington C. H., 18.37; Washington C. H. to Frankfort, 17.99; Frankfort to Chillicothe, 14.22; Chillicothe to Richmondale, 12.10; Richmondale to Marietta and Cincinnati junction, 4.09; Marietta and Cincinnati junction to Byer's station 7.15; Byer's to Sells, 5.22; Sells to Wellston, 6.65; Wellston to Jackson 5.10. From Dayton to Wellston the total distance is 114.39, and from Dayton to Jackson it is 113.84 miles.

Totals	$64,623,512 00	$1,938,705 36

Interest paid by United States, $30,141,513 06; interest repaid by transportation of mails, &c., $6,362,491 25; balance of interest paid by United States, $23,289,021 81.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, June 30, 1876.

B. H. BRISTOW,
Secretary of the Treasury.

BOOK NOTICE.

Practical Treatise on the Construction of Iron Highway Bridges for Use of Town Committees. By Alfred P. Boller, A. M. New York: John Wiley & Sons, 1876.

An octavo volume of 142 pages of unusually attractive typography. Decidedly the best published for the purpose.

Its brevity forbids as elaborate a treatise as S. H. Shreve's, published by D. Van Nostrand; but it dissects with strong common sense the several leading styles, including what is generally known as Whipple Single Canceled and Double Canceled, the Warren Girder or Triangular Truss, the Lattice, Fink Suspension, and Bowstring. A general rule laid down is to "ignore any plan of bridge that cannot be accurately analyzed as to the character and amount of strain occurring in all its parts." On the justly important point wherever sufficient means can be commanded, architectural effect, he quotes Ruskin: "Decorate the construction but not construct decoration." The book is intensely practical in its instructions for inviting bids, and gives full forms for contracts.

☞ The citizens of San Bernardino, Cal., have subscribed $100,000 to the stock of the Santa Monica and Independence Railroad, as an inducement for the company to extend the road to San Bernardino, via Anaheim, Rincon and Riverside.

Philadelphia and Reading Railroad.

We gave in our issue of January 22, an abstract of the "Transportation and Income Account" of this company for the fiscal year ending November 30, 1875, together with the Report of the Managers. Below will be found several important tables referring to the years 1874 and 1875, including the "General Account." We also append a statement of the Cost, Earnings, Dividends, etc., etc., since the completion of the road in 1842-'43:

	1874. Miles of Track.	1875. Miles of Track.	1874. M. of Sidings.	1875. M. of Sidings.	1874. Total.	1875. Total.

Louisiana Consolidated Bonds.

The following is an official copy of the act passed by the Legislature of Louisiana, providing for the consolidation and reduction of its debt; and also the amendments to the Constitution, adopted by the people, ratifying the act:

AN ACT to provide for funding obligations of the State by exchange for bonds to provide for principal and interest of said bonds; to establish a board of liquidation; to authorize certain judicial proceedings against it; to define and punish violations of this act; to prohibit certain officers diverting funds except as provided by law, and to punish violations therefor; to levy a continuing tax and provide a continuing appropriation for said bonds; to make a contract between the State and holders of said bonds; to prohibit injunctions in certain cases; to limit the indebtedness of the State, and to limit State taxes; to annul certain grants of State aid; to prohibit the modification, novation or extension of any contract heretofore made for State aid; to provide for the receipt of certain warrants for certain taxes, and to repeal all conflicting laws.

SECTION 1. Be it enacted by the Senate and House of Representatives of the State of Louisiana in General Assembly convened, That for the purpose of consolidating and reducing the floating and bonded debt of the State, the Governor, Lieutenant Governor, Auditor, Treasurer, Secretary of State, and Speaker of the House of Representatives are hereby authorized to cause to be prepared and to issue bonds, to be known as "Consolidated bonds of the State of Louisiana," of the denominations of one hundred, five hundred, and one thousand dollars, to the amount of fifteen millions of dollars, or so much thereof as may be necessary, all payable forty years from the first day of January, 1874, and all to be numbered consecutively, and made payable to bearer, and to bear interest at the rate of seven per cent per annum, payable semi-annually in the City of New York and City of New Orleans, on the first day of July and January of each year, and coupons for such interest shall be annexed thereto; said interest and principal to be payable in lawful money of the United States.

SEC. 2. Be it further enacted, etc., That the parties designated in the foregoing section shall constitute a board of liquidation, and a majority of said board shall elect a fiscal agent for the State, who shall be a member of said board.

SEC. 3. Be it further enacted, etc., That the bonds authorized by the section one shall be signed by the Governor, Auditor, and Secretary of State, and the coupons shall be signed by the Auditor and Treasurer; and when so prepared said bonds shall be exchanged by the Board of Liquidation for all valid outstanding bonds of the State and all valid warrants drawn previous to the passage of this act and by the respective Auditors of Public Accounts of the State on the Treasurer thereof, except warrants issued by the Auditor in payment of the constitutional officers of the State, at the rate of sixty cents in consolidated bonds for $1 in outstanding bonds and all valid warrants; provided, that the holder of any bond or valid warrant rejected by a majority of said board may apply by petition to the proper court for relief, and if final judgment shall be rendered in his favor against said board, it shall be the duty of said board to fund his said claim in bonds at the rate provided by this act; and provided, further, that if any member of said Board of Liquidation shall knowingly audit and fund any illegal claim against the State, he shall be deemed guilty of a misdemeanor, and shall, on conviction, be fined not less than five thousand dollars, and be imprisoned not less than two years, at the discretion of the court. And any person knowingly procuring the same to be done shall be subject to the same penalty.

SEC. 4. Be it further enacted, etc., That the exchange of the bonds or valid warrants authorised by this act shall be effected by said Board of Liquidation in the Cities of New Orleans and New York.

SEC. 5. Be it further enacted, etc., That the consolidated bonds herein authorized shall be sold and used by said Board of Liquidation only for the purpose of exchange as aforesaid; said bonds shall be used for no other purpose or purposes than as authorized by this act, and any member of the Board of Liquidation using or attempting to use, or attempting to induce any person or persons to use, said bonds or any of them for any other purpose or purposes, shall, on conviction thereof, be punished by a fine of not less than five thousand dollars and by imprisonment at hard labor for not less than one year.

SEC. 6. Be it further enacted, etc., That notice of the adoption of this act shall be published by said board in one or more journals of New Orleans, New York, London, Paris, and Amsterdam.

SEC. 7. Be it further enacted, etc., That a tax of five and a half mills on the dollar of the assessed value of all real and personal property in the State is hereby annually levied, and shall be collected, for the purpose of paying the interest and principal of the consolidated bonds herein authorized, and the revenue derived therefrom is hereby set apart and appropriated to that purpose, and no other. And that it shall be deemed a felony for the Fiscal Agent or any officer of the State or Board of Liquidators to divert the said fund from its legitimate channel as provided, and upon conviction the said party shall be liable to imprisonment for not more than ten years nor less than two, at the discretion of the court. If there shall during any year be a surplus arising from said tax after paying all interest falling due in that year, such surplus shall be used for the purchase and retirement of bonds authorized by this act, said purchases to be made by the said Board of Liquidation, from the lowest offers, after due notice; provided, that the total tax for interest and all other State purposes, except the support of public schools, shall never hereafter exceed twelve and a half mills on the dollar. The interest tax aforesaid shall be a continuing annual tax until the said consolidated bonds shall be paid or redeemed, principal and interest; and the said appropriation shall be a continuing annual appropriation during the same period, and this levy and appropriation shall authorize and make it the duty of the Auditor and Treasurer, and the said board respectively, to collect said tax annually, and pay said interest and redeem the said bonds until the same shall be fully discharged.

SEC. 8. Be it further enacted, etc., That the bonds and valid warrants outstanding at the time of the passage of this act shall, as fast as they are received in exchange for consolidated bonds, be canceled and destroyed by the said Board of Liquidation, and consolidated bonds purchased as provided for in section seven of this act shall be canceled and destroyed after public notice has been given of the same in the official journal of the State, in the presence of as many citizens as may desire to be present; in like manner, and within ten days after such destruction, in each case, a proces verbal of the same shall be published and a report made to the General Assembly on the first Monday of every year by said board.

SEC. 9. Be it further enacted, etc., That it shall be the duty of the Auditor in his next annual report to give a detailed account of the proceedings had under this act, including the amount of new bonds issued, the amount of old bonds and valid warrants canceled, the amount of the same outstanding and the cost of the exchange, and annually thereafter a full and exact statement of the condition of the public debt under the operations of this act.

SEC. 10. Be it further enacted, &c., That any Judge, Tax Collector, or any officer of the State, obstructing the execution of this act, or any part of it, or failing to perform his official duty thereunder, shall be deemed guilty of a misdemeanor and on conviction thereof shall be punished by imprisonment not exceeding five years, and by fine not exceeding two thousand dollars, at the discretion of the court; provided, that this section shall in no wise prejudice or affect the criminal proceeding under section five of this act.

SEC. 11. Be it further enacted &c., That each provision of this act shall be, and is hereby declared to be, a contract between the State of Louisiana and each and every holder of the bonds issued under this act.

SEC. 12. Be it further enacted, &c., That all grants of State aid heretofore made whether of bonds, indorsements, subscriptions of stock, or otherwise, which have become lapsed or forfeited, be and the same are hereby repealed and annulled, nor shall the State hereafter modify, novate or extend any contract heretofore made for the giving of State aid in any form or under any pretext.

SEC. 13. Be it enacted, &c., That the entire State debt prior to the year of our Lord nineteen hundred and fourteen, shall never be increased, directly or indirectly, beyond the sum of fifteen millions of dollars hereby authorized, it being the intent and object of this act, and of the exchanges to be effected thereunder, to reduce and restrict the whole indebtedness of the State, to a sum not exceeding fifteen million of dollars, and to agree with the holders of the consolidated bonds to be issued hereunder that said indebtedness shall not be increased beyond said sum during said period.

SEC. 14. Be it further enacted, &c., That any Tax Collector who shall turn over any money or warrants by him collected to any person except to the State Treasurer shall be deemed guilty of a misdemeanor and shall, on conviction, be subject to the penalties prescribed in section ten of this act, and shall, in addition thereto, be liable in damages in double the amount so turned over; and any State officer requiring or demanding that said taxes shall be turned over to him, except the Treasurer of the State, shall be liable on conviction to the same penalties as are prescribed in this section.

SEC. 15. Be it further enacted, &c., That from and after the passage of this act until the first day of July, 1874, all valid Auditor's warrants issued for debts due prior to January 1, 1874, shall be received for all back taxes, licenses, and interest and penalties thereon, due prior to said first of January, 1874, except two mills for school fund, three mills for levee construction and repair fund, and two mills to the interest fund, for the purpose of paying any interest in arrears accruing on the bonded debt of the State prior to the passage of this act.

SEC. 16. Be it further enacted, &c, That no court or Judge thereof shall have power to enjoin the payment of principal or interest of any bond issued under this act, or the collection of the special tax therefor, or to enjoin any officer of State or parish in receiving warrants as is prescribed in section fifteen of this act.

SEC. 17. Be it further enacted, &c., That all acts or parts of acts in conflict with this act or any section thereof, are hereby declared to be repealed, and that this act shall take effect from and after its passage.

(Signed,) CHARLES W. LOWELL,
Speaker of the House of Representatives.
(Signed,) C. C. ANTOINE.
Lieutenant Governor and President of the Senate.

Approved Jan. 24, 1874.
(Signed,) WILLIAM P. KELLOGG,
Governor of the State of Louisiana.

P. G. DESLONDE, Secretary of State.

No. 4.]

AN ACT Proposing Amendments to the Constitution of the State of Louisiana.

SECTION 1. Be it enacted by the Senate and House of Representatives of the State of Louisiana in General Assembly convened, (two-thirds of the members of each House agreeing thereto,) That the following amendments be proposed and entered upon the respective journals of the Senate and House of Representatives, with the yeas and nays taken thereon, and the Secretary of State

shall cause the same to be published three months before the next general election for representatives to the General Assembly in at least one newspaper in every parish of the State in which a newspaper shall be published. And said proposed amendments shall be submitted to the people at said election, in such manner and form that the people may vote for or against each amendment separately—i. e., "first proposed amendment, for approval," or "against approval," and in like manner as to the others; and if a majority of the voters at said election shall approve and ratify such amendment or amendments, the same shall be appropriately numbered and become a part of the Constitution, and be proclaimed as such by the Governor and Secretary of State.

PROPOSED AMENDMENTS TO THE CONSTITUTION.

No. 1.—The issue of consolidated bonds, authorized by the General Assembly of the State, at its regular session in the year 1874, is hereby declared to create a valid contract between the State and each and every holder of said bonds, which the State shall by no means and in no wise impair. The said bonds shall be a valid obligation of the State in favor of any holder thereof, and no court shall enjoin the payment of the principal or interest thereof, or the levy and collection of the tax therefor; to secure such levy, collection, and payment, the judicial power shall be exercised when necessary. The tax required for the payment of the principal and interest of said bonds shall be assessed and collected each and every year until the bonds shall be paid, principal and interest, and the proceeds shall be paid by the Treasurer of the State to the holders of said bonds as the principal and interest of the same shall fall due, and no further legislation or appropriation shall be requisite for the said assessment and collection, and for such payment from the Treasury.

No. 2.—Whenever the debt of the State shall have been reduced below twenty-five million dollars, the constitutional limit shall remain at the lowest point reached, beyond which the public debt shall not thereafter be increased; and this rule continue in operation until the debt is reduced to fifteen million dollars, beyond which it shall not be increased. Nor shall taxation for all State purposes, excepting the support of public schools, ever exceed twelve and a half mills on the dollar of the assessed valuation of the real and personal property in the State, except in case of war or invasion.

No. 3.—The revenue of each year derived from taxation upon real, personal and mixed property, or from licenses, shall be devoted solely to the expenses of the said year for which it shall be raised, excepting any surplus remain, which shall be directed to sinking the public debt. All appropriations and claims in excess of revenue shall be null and void, and the State shall in no manner provide for their payment.

(Signed,) CHARLES W. LOWELL,
Speaker of the House of Representatives.

(Signed.) C. C. ANTOINE,
Lieutenant Governor and President of the Senate.

Approved Jan. 24, 1874.

(Signed,) WILLIAM P. KELLOGG,
Governor of the State of Louisiana.

A true copy:
P. G. DESLONDE, Secretary of State.

STATE OF LOUISIANA,
OFFICE OF SECRETARY OF STATE,
NEW ORLEANS, Jan. 19, 1876.

I hereby certify that the above amendments to the Constitution of this State were duly ratified at the general elections held on the second day of November, A. D. 1874.

Given under my hand and the seal of the State, this nineteenth day of January, A. D. 1876, and of the independence of the United States the one hundredth.

P. G. DESLONDE, Secretary of State.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

Asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, July 8, 1876.

Financial and Commercial Affairs.

The week has been a broken one, through the observance of the national anniversary, which, this year commenced practically on Saturday July 1, and ended with Tuesday July 4, leaving for regular business purposes but three full days to come within the limits of the present review. In the financial and commercial lines the movements have been on an unusually limited scale. Money has consequently been in comparatively moderate demand, and without important changes as to price. Call loans were quoted at 2@4 per cent, and best mercantile credits at 4@6 per cent per annum. Preparations for the 1st of July interest and dividend disbursements tended to stiffen the market temporarily, but the impression thus made was not very decided. The U. S. Sub Treasury currency balance was cut down $988,820, and the specie reserve $1,701,001. National Bank notes received at the Treasury Department last week for redemption were to the amount of $5,286,000. The City Banks have had their deposits augmented $7,303,400; and their legal tender reserve $574,300. The specie average has been enlarged $3,391,400. The loan and discount item was increased $3,485,900. The circulation fell off $64,300. The U. S. Sub Treasury in this city closed the week with a currency balance of $33,921,255 against $34,911,075 the preceding week; and a coin board of $37,069,118 against $38,770,119 on the previous return. The City bank exchanges in currency reached $370,527,737, or a daily average of $61,754,623. The customs revenue of the port during the week was $1,527,000.

The City banks reported their average of gold

last week at $18,291,800, and their greenback average at $54,773,400. Their deposits stood at $216,055,260. The loan item was $251,883,300. The circulation was $15,539,200.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $19,056,400 as against $16,916,550, the preceding week.

The U. S. Sub Treasury receipts from all sources in June were $45,268,506, including $6,877,114 from customs; and the disbursements on all accounts were $39,406,552, including $7,624,494 of coin interest.

The Treasury disbursements by warrants during June on account of civil and miscellaneous, War, Navy, and Interior, (Indians and pensions,) were $11,488,419, exclusive of payments made on account of the interests for principal of the public debt of the United States.

The last public debt statement exhibited a further liquidation in June of $3,881,398, and since July 1, 1875, of $29,249,381 or equal to $2,437,448 per month, reducing the aggregate of the debt to $2,099,439,350 on July 1, 1876.

The aggregate of the outstanding U. S. currency, of all denominations, July 1st was $404,728,601. The outstanding amount of legal tender notes is $369,772,384. The National bank circulation is now $331,490,315 including $2,099,190 of national gold bank notes.

On Monday of this week the cash balances of the Treasury Department at Washington were: of Currency $13,064,142; special deposit of legal tenders for the redemption of certificates of deposit, $32,840,000; Coin, $73,625,585; Coin certificates, $28,681,400.

The week's import entries of Foreign Merchandise at New York were $3,486,548, including $802,114 of Dry Goods.

The income of the Government from internal revenues in the fiscal year, which closed with July 1, 1876, was about 113 millions; and from Customs, 146 millions.

Gold has been moderately active and rather stronger toward the close as to rates; the speculative inquiry having been somewhat brisker. The extremes of the price during the week have been 111¾@112⅛, closing on Wednesday at 112⅛, as against 112⅜ on Wednesday of the preceding week. The specie outflow last week was $1,536,721 against $1,753,950 the previous week. The imports of specie at this port last week were $3,185, and since January 1st $2,171,135 as against $7,371,104 same time last year. The customs demand for gold last week averaged $254,500 per day. Foreign Exchange has been in moderate demand at generally steady rates. Bankers sixty day bills on London closed on Wednesday at $4 87½@$4 88½; sight bills on London at $4 89½@$4 90⅛ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $3,984,025. The week's imports of Dry Goods and general merchandise were to the specie value of $3,486,548 as against $6,368,188 the corresponding week of 1875.

Government Securities have been more sought after for investment purposes and prices toward the close have shown more firmness. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $341,894,750.

U. S sixes of 1881 closed on Wednesday of this week (ex July coupon) at 120½@120¾; U. S. Five-Twenties of 1865, at 116¾@117; U. S. Five-Twenties of 1865 consolidated, (ex July coupon) 117⅝@117⅞; U. S. Five-Twenties of 1867, 119⅝@118¾; U. S. Five-Twenties of 1868, 121¼@121½; U. S. Ten-Forties at 118⅞@119⅛; U. S. Fives of 1881, (Funding Loan) 117¾@118; Six per cent. currency Sixes 126@¼127.

State and Railway bonds have been attracting more attention from investment buyers and prices of the more substantial loans have been quoted stronger. And in the line of Railway and Miscellaneous share property business has been on a moderate scale, with prices quoted variable, closing however with some show of buoyancy.

General business has been less active in Produce and Merchandise, yet prices have been without very marked changes. Metals have attracted less attention. Eglinton Pig Iron quoted here at $27 50@$28; Glengarnock $29 50@$30; Coltness $30@$30 50; No. 1 American Pig at $22@$23; No. 2 do. at $20; Forge $18@20; American Rails at works $40@$43; Old Rails $21@$22. Wrought Scrap 28. Ocean freights have been moderately active, with rates generally firmer.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, June 21, 1876.

A DIVIDEND OF FOUR PER CENT. HAS been declared by this company, payable on the 1st day of August next to the holders of full paid shares registered at the close of the 14th day of July next, after which, and until the 5th day of August the transfer-books will be closed.

L. V. F. RANDOLPH, Treasurer.

Lake Shore & Michigan Southern Railway.

At a meeting of the directors of this company held on the 5th inst., the following report from the auditor was presented:

	Jan. to June, 1876.	Jan. to June, 1875.
Gross earnings	$7,004,000	$6,920,000
Operating expenses and taxes	4,594,000	5,467,000
Net earnings	$2,410,000	$1,453,000
Interest, rents and dividend of 1st August on guaranteed stock	1,375,000	$1,405,000
Balance	$1,035,000	$48,000

During the past six months about 6,000 tons of steel rails have been substituted for iron. The cost of the substitution was all paid out of current revenue, and is included in the amount of expenses above stated. By this means the fund applicable to such substitution, spoken of in the statement published Jan. 5, 1876, remains unimpaired. The company has no floating debt, nor outstanding obligations in that nature. During the past six months the bonded debt has been reduced $125,000 by the purchase of that amount of bonds as the half-year's requirement for the sinking fund, and now compares with Jan. 1 last as follows:

At this date	$36,125,000
On Jan. 1, 1876	36,250,000

The road, machinery and property have been in all respects fully maintained at their high standard condition, and in many respects materially improved. Whereupon it was resolved that a dividend of two per cent upon the capital stock, out of the earnings for the six months ending with June 30, 1876, be paid on the 1st day of August next at the office of Messrs. Chase & Atkins, No. 18 Broad street, New York.

☞ The Connecticut Valley Railroad was on Wednesday surrendered to the State Treasurer for the benefit of the second mortgage bondholders. Messrs. Babcock and Wiggin, agents for the trustees, will continue to manage the road for the present.

Burlington, Cedar Rapids and Northern Railway.

The Burlington, Cedar Rapids and Minnesota Railroad was sold at Cedar Rapids, Iowa, on the 22d ult., in pursuance of the decree of foreclosure by the United States Court for the district of Iowa, and purchased by Fred. Taylor, Alexander Taylor, John M. Denison and M. Shepard Bolles for the benefit of the holders of the first mortgage bonds of the respective divisions, who get the entire property. The sums bid were as follows:

For main line	$100 000
For Milwauka division	30,000
For Pacific division	20,000
For Muscatine division	20,000
Total	$170,000

In anticipation of the sale, a new company which was to come into possession of the road was organized on the 19th ult., under the name of the "Burlington, Cedar Rapids and Northern Railway Company;" articles of incorporation were filed in pursuance of law, and the following gentlemen appointed directors: Fred. Butterfield, L. P. Morton, William S. Nichols, William S. Opdyke, Alexander Taylor, Fred. Taylor, of New York; Chas. Bard, of Norwich, Connecticut; M. Shepard Bolles, of Boston, Massachusetts; John M. Denison, of Baltimore, Maryland; John I. Blair, of Blairstown, New Jersey; James I. Gilbert, of Burlington, Iowa; S. C. Bever, and E. F. Winslow, of Cedar Rapids, Iowa.

At a meeting of the board of directors held on the 22d ult., the following officers were elected for the current year: Fred. Taylor, President; E. F. Winslow, Vice president and General Manager; Alexander Taylor, Treasurer; W. D. Walker, Secretary; C. Stickney, Assistant Treasurer; Wm. S. Opdyke, General Solicitor.

It was understood that the Receiver of the property would close up his accounts by the 1st of July, and turn the road over to the new company, at which time they would probably assume the management of the same.

Steel Rails an Element of Railroad Prosperity.

The General Manager of the Chicago and Northwestern Railway, in giving his views upon the war of the trunk lines, took occasion to say that whatever effect it might have upon the railroads, it could not fail to be beneficial to the country at large. After all the depression of the past few years, it was essential that there should be something to stimulate activity. The low prices of transportation by rail was doing this, and the country was consequently reaping the benefit. Traffic had much improved, and although the rates were less, the aggregate and net receipts were large. It was a mistake to suppose that low rates always cause a loss. If a road was well built, with steel rails, good rolling stock, and properly managed, low rates and good profits were possible. The benefits to the trade of this country arising from the introduction of steel rails no man can foresee. Cheap transportation was to be obtained, not by special freight railroads, not by legislation or by clamor, but through the means of steel rails. The substitution of steel for iron rails had worked a wonderful change. The iron rail which lasted for a few months and gave much trouble in constant repairing and replacing was superseded by a rail the life of which extended over years. As a consequence the cost of transportation had been so diminished that the steel railroads could work at a rate so much lower than before known as to excite the astonishment of those who were not familiar with the facts. The Chicago and Northwestern Railway Company operated 2,000 miles of railroad. As fast as the iron rails give out they are replaced by steel. The Company will lay 175 miles of steel rail this year.

Chicago, Burlington and Quincy Railroad.

The earnings of the Chicago, Burlington and Quincy Railroad in May, 1876, were $1,049,569 82, the expenses $558,043 38, and the net earnings $491,526 44. In May, 1875, the earnings were $989,084 56, the expenses $463,563 73, and the net earnings $525,520 83—showing an increase in earnings $60,485 26, an increase in expenses of $94,479 65, and a decrease in net earnings of $33,994 39. From January 1 to May 31, 1876, the earnings were $4,586,277 10, the expenses $2,468,228 11, and the net earnings $2,118,048 99. For the corresponding period of the previous year the earnings were $4,514,675 45, the expenses $2,405,224 87, and the net earnings $2,109,450 58—showing an increase in earnings of $71,601 65, an increase in expenses of $63,003 24, and an increase in net earnings of $8,598 41.

Chesapeake and Ohio Canal.

The new outlet locks from the Chesapeake and Ohio Canal to the Potomac River have been completed, and a boat passed from the canal to the river and then returned to the canal. The mode of operating this outlet is entirely new, being the only work of the kind in this country, and is considered a great feat in engineering. The elevation to be overcome is forty feet. Under the old system it would require eight locks and not less than fifty minutes to pass a boat through. With the present arrangement the boat is passed directly from the canal into a large caisson filled with water, the caisson resting on trucks, run down an inclined plane to the river in less than six minutes. The weight of caisson and boat is about 350 tons. The work, constructed under the supervision of Mr. W. R. Hutton, engineer, has already attracted the attention of many of the best engineers in the country.

☞ A correspondent of the Baltimore Sun, writing from Fredericksburg, Md., says it is rumored that the Grand Land Grant Company, which recently purchased the unfinished railroad from that place to Orange Court House, and which declared its purpose to finish the road at once, have changed front, and have arranged with the Valley railroad to do the work proposed to be done, and have ordered the engineers to cease the work of locating beyond Orange Court House.

☞ The earnings of the Philadelphia and Erie Railroad for the month of May, 1876, were $298,495 64, the expenses $205,184 84, and the net proceeds $93,310 80. For the month of May, 1875, the earnings were $266,125 22, the expenses $201,412 48, and the net proceeds $64,712 74—showing an increase in earnings of $32,370 42, with an increase in expenses of $3,772 36, making the increase in net proceeds $28,598 06.

Producers' Consolidated Land and Petroleum Co.

We have received from the Stock Exchange the following report of the Producers' Consolidated Land and Petroleum Company:

Balance net earnings from statement of March 1876	$115,200 07
Receipts from sale of production and purchase oil; net profits on sundry contracts and value of production on hand at current price, say $2 25 per barrel	148,055 55
	$263,255 62

CONTRA.

Current expenses for month of March, April and May, 1876	$56,026 72
Dividend No. 3, of six per cent, payable July 20, 1876	150,000 00
	$206,026 72
Surplus net earnings on hand on May 31, 1876	$57,228 90

☞ The Newark and Clinton Horse Car Company have introduced an invention on their road whereby horses can be supplied with water while traveling. The arrangement, which is very simple, consists of a reservoir of water on top of the car, with rubber tubes leading therefrom to the bits in the horses' mouths, the bits being hollow, and perforated with small holes. The driver can at pleasure open the tubes and cause the water to run into the mouths of the animals.

☞ At a meeting of the Maine Telegraph Company at Bangor on the 28th ult., the following Board of Directors was elected: A. W. Paine, J. A. Smith, Albert Horton, Wm. Gallup, of Bangor; W. H. Simpson, Daniel Faunce, of Belfast; Bion Bradbury, W. P. Merrill, of Portland; E. F. Littlefield, of Winterport. At a subsequent meeting of the Directors A. W. Paine was elected President.

☞ The Fall River *Herald* says since the introduction of the steam hammer in the Iron Works a surprising improvement has taken place in the quality of the stock turned out. The furnaces have been tested to their utmost to furnish sufficient material for the hammer, and plate for the nailers, and it has necessitated the construction of a couple of new furnaces, work upon which has already been started.

☞ The act providing for funding the obligations of the State of Louisiana by the exchange of bonds, under which the Louisiana 7 per cent. consolidated bonds were issued, as well as the constitutional amendment which was adopted by the people in 1874, ratifying the act, will be found in full elsewhere. These documents will be of interest, as the bonds are now dealt in at the New York Stock Exchange.

☞ The Union Trust Company of New York, as mortgagee in trust, has taken possession of all the property of the Missouri, Kansas and Texas Railway Company, and appointed W. A. Bond, late receiver, as general manager.

☞ Mr. Bramwell, the eminent English engineer, asserts that railway accidents are frequently aggravated by applying the brake power too sharply.

The Coal Trade.

There was no special feature in the anthracite coal trade for the week ending on the 24th ult. It being what is called an off week, that is, a week in which the companies and individual operators had agreed to suspend operations in order to check the growing overstock of coal, the entire tonnage of the week reported by all the companies amounted to only 153,918 tons, against 393,449 tons for the corresponding week last year, a decrease of 239,531 tons. The total amount of anthracite mined for the year is 7,726,534 tons, against 6,462,211 for same period last year, an increase of 814,323 tons. The quantity of bituminous coal sent to market for the week was 75,715 tons, against 95,883 tons for corresponding week last year, a decrease of 20,168 tons. The whole bituminous tonnage from the beginning of the coal year is 1,598,417 tons, against 1,638,545 tons in corresponding time last year, a decrease of 40,128 tons. The total tonnage of all kinds of coal for the week is 229,633 tons, against 489,332 to corresponding date last year, a decrease of 259,699 tons, and the total tonnage for the coal year is 8,874,951 tons, against 8,100,756 tons to same date last year, an increase of 774,195 tons. The quantity of coal and coke carried over the Pennsylvania Railroad during last week was 94,837 tons, of which 79,482 tons were coal and 15,355 tons coke. The total carried this year is 1 953,212 tons, of which 1,527,552 were coal and 349,073 coke. This total embraces all the coal carried over the road, east and west. At Perth Amboy for the week ending on the 24th ult. the receipts of coal were 10,809 tons and the shipments 18,807 tons, leaving 81,961 tons on hand. Freights to New York, 37 cents; Hartford, 90 cents; Boston, 95 cents.—*Phila. Ledger, July 3.*

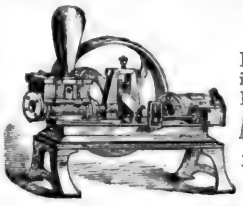
☞ The Metropolitan Railroad extends from Washington, Dt. of Columbia, to Point of Rocks, Md., a distance of 43 miles. A new route has been laid off from Hanover Switch, Washington Branch, to Gaithersburg, taking in Sandy Springs and Brookville, in Montgomery county, shortening the route to the Point of Rocks some 25 miles. It is anticipated that the route will be open for travel a year hence.

☞ The Amador (Cal.) Dispatch says that there can no longer be any doubt as to the early completion of the Amador Branch Railroad from Galt to Ione City. The grading is all done, and track laying will soon be commenced. The company was organized on the 8th of July, 1875. The whole length of the road is about 27 miles. Leland Stanford is President. The office of the company is at San Francisco.

☞ The name of the New York and Boston Railroad has been changed to New York, Westchester and Putnam Railway. It has been decided to issue two and a quarter millions of first mortgage bonds to grade and equip the road.

☞ Freight is now passing over the Intercolonial Railway from Toronto and Montreal direct to St. John, Halifax and intermediate stations.

YORK CAR WORKS.
ESTABLISHED IN 1852.
Billmeyer & Smalls,
YORK, PENN.
This old established firm continue to build all kinds of Freight Cars to order.
Narrow Gauge Freight and Passenger Cars
having received their special attention, they are prepared to receive orders and to deliver promptly.
Circulars sent on application.



The Fatigue Of Metals
under Repeated Strains, with various Tables of Results of Experiments. From the German of Prof. Ludwig Spangenburg, with a preface by S. H. Shreve, A. M. Being No. 24 Van Nostrand's Science Series, 18mo., boards, 50c.
D. VAN NOSTRAND, Publisher,

American Railroad Journal.

New York, Saturday, July 15, 1876.

Cooper, Hewitt & Co.'s Exhibit.

In the Main Exposition Building, section T, column 66, a number of exhibits are made by Cooper, Hewitt & Co., 17 Burling slip, New York, of the products of the Trenton Iron Company, Denham Iron Works, New Jersey Steel and Iron Company, and Ringwood Iron Works. From a pamphlet descriptive of the capacity and products of these establishments we learn that the products of the Trenton Iron Company are as follows: Bar Iron, Market Wire, Bridge Wire, Cast Steel Wire, Telegraph Wire, Gun-screw Iron Wire, Wire Rods, Screw Wire, Bail Wire, Weaving Wire, Chain Wire, Tinned Wire, Fence Staples, Brazier Rods, Fence Wire, Square and Flat Wire, Spring Wire, Coppered Wire, Buckle Wire, Martin Steel Wire, Copperas.

Of the New Jersey Steel and Iron Company, located at Trenton, New Jersey, the statement is made that its works "comprise rolling mills, a sponge furnace, a Siemens-Martin steel plant, machine shops for the manufacture of bridges, etc., chain works, and a horse shoe shop;" and that the capacity of the finishing mill is "equivalent to a product of 20,000 tons of rails per annum."

The pamphlet also states that "Messrs. Cooper, Hewitt & Co. are the owners or sole representatives in the United States of the Martin, Post, Pernot, Slade and Tessie du Motay patents, relating to the manufacture of steel in the open hearth;" and the following reference is made to the last named patents:

The patents of Mr. Frederick J. Slade refer to the use of iron sponge in the Martin process, and to the manufacture of steel in which phosphorus predominates over carbon. The latter invention is also the subject of the patent of M. Tessie du Motay, according to which the now celebrated "phosphorus steel" rails are successfully manufactured at Terre Noire, in France. The discussion of this interesting question cannot be entered upon in the present brief statement. It is certain that large quantities of rails, containing .25 per cent., and sometimes much more, of phosphorus, have been used in France and have given satisfaction to the railway engineers. It is anticipated that this process will open a new and much desired opportunity for the utilization of old iron rails, which contain too large a percentage of phosphorus to be suited to the Bessemer or other steel process.

Dudgeon's Direct Acting Steam Hammer.

Since the introduction into the Fall River Iron Works of Dudgeon's Direct Acting Steam Hammer, a surprising improvement has taken place in the quality of the stock turned out. The furnaces have been tested to their utmost to furnish sufficient material for the hammer, and plate for the nailers, and it has necessitated the construction of a couple of new furnaces, work upon which has already been started. Mr. Dudgeon has also put up one of his steam hammers of smaller size in the repair shop of the Providence and Worcester Railroad Company, at Providence, R. I., which is giving great satisfaction. These Hammers are justly celebrated for their simplicity of construction and their durability. Mr. Dudgeon also manufactures Hydraulic Jacks and Punches, Roller Tube Expanders, and Jacks for Pressing on Car Wheels—of all of which he is the Patentee.

Manual of the Railroads of the United States.

Poor's Manual of Railroads for 1876-'77 has been issued, and contains more information relating to Railroads, their history, growth, cost, operations and present condition than any previous number. The introduction consists of a sketch showing the wonderful increase of railroads from 1826, when the first charter was granted, to 1876, when 74,658 miles are operated, costing $4,658,208,630, and earning for the year $503,065,505, while the dividends paid amounted to the sum of $74,294,208.

This Manual is the only work of the kind now issued, and is simply invaluable to any one who wishes to have an accurate knowledge of our railroad system. It contains a detailed account of every road in the country, with a complete list of their directors and officers, and every fact necessary to gain a correct idea of its condition and operations. It also gives a full tabular summary of the leading facts, and thus enables one, at a glance, to see the entire work for the past year.

The present issue of the Manual is the ninth, in annual order; and it is larger by 100 pages than any previous number. The price remains the same, $5; and it will be sent to any address on application to the publishers, Messrs. H. V. & H. W. Poor, 68 Broadway.

Valley Railroad.

The Valley Railroad, from Harrisonburg to Staunton, Va., was opened for travel on the 11th inst., and the trains made connection with the trains of the Valley branch of the Baltimore and Ohio Railroad. The road has been idle since the first of May last, and is now operated under a temporary lease by Mr. William Milnes, Jr., president of the Shenandoah Valley Railroad Company. A traffic arrangement with the Baltimore and Ohio Railroad Company, by which freight will be carried through from Baltimore to Staunton, Va., is expected to be arranged without delay. The stockholders of the Shenandoah Valley Company meet at Winchester, Va., on the 19th inst., to decide upon the confirmation or rejection

of the contract made with the Valley Company by its president, Mr. Milnes.

New Jersey Railroads.

The recently issued report of the Controller of the State of New Jersey contains some valuable information concerning the Railroads of that State. Subjoined will be found extracts from the three most important roads which go directly from New York City through the most populous districts of New Jersey.

The following shows the condition of the United New Jersey Railroad and Canal Company, as reported and sworn to February 14, 1876:

Capital stock	$19,890 400
Bonded debts	20,842,868
Total capital and debts	$40,733,268
Receipts:	
From passengers	$4,440,876
From freight	3,764,991
From express	259,346
From mail	69,746
From miscellaneous	108,965
From D. & R. Canal	1,067,661
From investments	197,579
Total earnings	$9,909,164
Operating expenses of railroads	$5,894,742
Operating expenses of canal	541,035
	6,435,777
Net income	$3,473 387

These "united companies" are leased to the Pennsylvania Railroad Company at 10 per cent on the stock and assumption of all liabilities. The latter company report that the result for 1875, including taxes, interest and dividends amounted to $4,121,053, or $647,666 more than the net earnings, showing that the road only earned equal to 6¾ per cent on its capital, instead of the 10 per cent paid by the Pennsylvania Railroad Company.

The following shows the condition of the Central Railroad Company of New Jersey, as reported and sworn to February 5, 1876:

Capital stock	$20,525,000
Funded debt	$21,075,000
Other indebtedness	6,793,007
	26,868,007
Total capital and debt	$47,393,007
Cost of road and equipment	19,707,419
Receipts:	
Passengers	$1,867,991
Merchandise	932,989
Coal	1,760,482
Mail, express, rents, etc	175,345
	$4,136,807
Expenses:	
Running expenses	$971,883
Fuel consumed	211,053
Repairs road, docks, etc	478,351
Repairs of equipment	704,084
Ferry expenses	108,308
Miscellaneous expenses	230,759
	2,703,998
Balance net earnings	$1,432,809

The foregoing does not include the earnings, expenses or rentals of the Lehigh and Susquehanna Railroad, but it will be noticed that the net earnings of the road proper are insufficient to pay the interest on the bonded debt, which amounts to $1,475,250, and are only equal to about 5⅓ per cent on the total debt.

The following shows the condition of the Morris and Essex Railroad, as reported and sworn to January 29, 1876:

Capital stock	$15,000,000
Bonded debt	18,112,000
Total capital and debt	$33,112,000
Cost of railroad and equipment	$33,112,000
Income during the year:	
From passengers	$857,192
From freight	3,297,762
From other sources	193,396
	$4,340,350
Expenditures for working road:	
Maintaining road, etc	$690,365
Repairs to machinery	312,338
Operating road	1,861,933
Taxes, State and other	102,830
	2,967,456
Net earnings	$1,372,894

This road is leased in perpetuity to the Delaware, Lackawanna and Western Railroad at 7 per cent on stock, with an assumption of all liabilities The entire bonded debt bears 7 per cent interest, so the sum of rental for 1875 amounted to $2,317,840, or $944,946 in excess of its actual earnings, which sum represents the loss incurred by the Delaware, Lackawanna and Western Railroad Company from operating the road.

Connecticut River Railroad.

The earnings of this road for the years ending September 30, 1874 and 1875, were as follows:

	1874.	1875.
From passengers	$347,704 43	$320 743 84
" freight	321,527 73	292,033 92
" mails	12,625 47	11,419 51
" express	13,000 03	13,019 79
" rents, etc	11,547 79	12,032 20
	$706,405 45	$349,249 26
Expenses, viz:		
Repairs of road	$127,934 30	$68,100 41
" bridges	2 787 33	4,994 61
" buildings	20,172 72	17,738 80
" locomotives	25,488 00	12,192 47
" cars	40,524 85	29,091 90
" tools, etc	2,016 98	1,004 94
Running trains	127,991 86	128,496 30
Station expenses	54,334 65	49,605 17
General expenses	18,947 44	18,606 38
Stationery, etc	6 153 07	5,717 32
Gratuities and damages	3,570 88	6,659 04
Removing snow and ice	2,214 62	3,688 59
Water works	3,084 61	1,766 36
Miscellaneous	9,496 72	24,117 19
	$444,718 03	$371,779 48
Net earnings	$261,687 42	$277,469 78
Surplus per last report	128,409 40	214,116 34
Total	$490,096 82	$491,586 12
Against which are charged—		
Interest paid	$21,489 54	$22,378 82
Payment to sinking fund	8,000 00	8,000 00
Taxes	46,089 30	45,298 55
Insurance	401 64	2,601 62
Dividend of January	97,500 00	105,000 00
Dividend of July	102,500 00	84,000 00
Surplus September 30	214,116 34	224,307 13
Total, as above	$490,096 82	$491,586 12

Compared with the previous year the gross earnings show a decrease of $57,156 19, with a decrease in expenses of $72,938 55, making an increase in net earnings of $15,782 36. The report says:

In view of the general depression of business throughout the country, the stockholders will hardly be surprised at the continued falling off in the receipts. They may feel disposed to inquire whether the corresponding report of decreased operating expenses is consistent with a thorough maintenance of the road and property.

In reply the directors would say that the hard times have not been allowed to affect their settled policy in this regard. The maintenance of the property is their first care. The amount of any dividend is determined by the surplus income remaining after the full provision for all needed expenditures to keep the road up to a high standard of excellence. Reason and experience have taught us that true economy and the largest profit are to be found in this course.

The present condition of the road and equipment will not suffer by a comparison with that of any former period. The department of road repairs has been supplied with 110 tons of iron rails, 220 tons of steel rails, about 22000 cross ties and 150 kegs of spike. The large expenditures heretofore made in substituting steel for iron rails, is now yielding a satisfactory return in the diminished cost of repairs and renewals. Of the seventy-three miles of main track, about forty-one miles are now laid with steel. The present cost of steel rails is such that no road can afford to use iron in its renewals of superstructure.

At the repair shops, the new locomotive, Brightwood, has been completed and put into service at a cost of $4,800. The repairs of the cars and engines generally have been such as to warrant the statement, that the equipment has not depreciated in value. The engine house and turn table at Springfield have been thoroughly renovated at a cost of $2,500.

During the year we have erected at Springfield a passenger shed, 240 feet in length by 25 feet wide, in connection with the passenger house of the Boston and Albany Railroad, at a cost of $3,200. We have also made an addition of 66 by 32 feet to the freight house at Chicopee Junction, costing $2,400, and have built a stone arch bridge for a new street through the road bed near Greenfield, at a cost to the company of $1,600.

With the exception of about $700, these several works have been charged to the expense account, and this action gives additional assurance that the value of our property has been fully maintained.

The company have 19 locomotives; 25 passenger, 12 baggage, mail and express, 134 box, 180 platform, and 45 stock, coal and other cars, and 19 snow plows. Miles run with passenger trains, 202,704; with freight, etc., trains, 126,846—total, 329,550. Number of passengers carried, 1,050,846; do. carried one mile, 11,677,636. Tons of freight carried, 298,822; do. carried one mile, 7,357,921. Earnings per mile of road, $11,593 74. Earnings per mile run, $1 97; operating expenses per mile run, $1 12.5; net earnings per mile run, $0 84.2. Percentage of expenses to earnings, 58.

BALANCE SHEET, September 30,

	1874.	1875.
Cost of road and equipment	$2,680,417 32	$2,681,122 50
Materials	89,425 87	77,161 10

The office of the company is at Springfield, Mass. The officers are:

President.—DANIEL L. HARRIS.

Directors.—Daniel L. Harris, I. M. Spelman, Edward A. Dana, Charles S. Sargent, Chester W. Chapin, Oscar Edwards, W. B. Washburn, Roland Mather, S. M. Waite.

Clerk and Treasurer.—SETH HUNT.

Auditor.—JOHN WHITTLESEY.

Superintendent.—JOHN MULLIGAN.

A Manufacturer's Views of the Mogul Locomotive.

In a recent letter to a prominent gentleman, touching the use of "Mogul" locomotives on narrow gauge railroads, Mr. H. G. Brooks, President of the Brooks Locomotive Works, Dunkirk, N. Y., makes the following among a number of other practical observations, which we take the liberty of transferring to our columns, as matter which we believe will interest many of our readers. After referring briefly to the subject of friction as it relates to the operating of railroads, he says:

One of the most important questions for the consideration of parties designing to construct, equip or operate a narrow gauge railway, is to decide upon such a weight and design of locomotive as shall secure to them all the advantages to be derived from the adoption of such gauge. The proper distribution of weight, in order that the maximum weight upon any one point upon the rail may never exceed a given limit, and that limit so largely under the capacity of a light iron rail to receive without injury, as to be used many years without perceptible depreciation, should receive minute attention and consideration. Now I assert, as the experience resulting from a careful study of this question, that upon a thirty-five pound rail the weight upon a single point should never exceed three tons; and I also assert that if the weight is kept down to two and one-half tons upon a single point, the rail will only wear out from lateral abrasions, and will be practically indestructible from hammering and consequent lamination.

Mr. Brooks admits that

There is no doubt that very heavy depreciation would follow the use of these locomotives at a high rate of speed upon a standard gauge, for the reason that upon such gauge, the lightest "Mogul" locomotive built has a weight upon each driving wheel exceeding five tons; and the general and more frequent fact is, that they are run with a weight exceeding six tons upon a single point.

But he claims that

There is not the slightest difficulty in attaining and maintaining a speed of thirty miles per hour, if desired, with a diameter of driving wheel thirty-six inches. A very high velocity is not expected nor generally desired upon the narrow gauge, and as the question of the elevation of the center of gravity is really a most important one, driving wheels thirty-six inches in diameter will be found to give the best results in the end. Hence I do not hesitate to recommend a properly proportioned "Mogul" locomotive with thirty-six inch driving wheels as the best and most economical for adoption for general traffic upon a narrow gauge.

Poughkeepsie Bridge Co.

There was unusual interest felt throughout the city on Saturday in the action of the Directors of the Bridge Company, as it was believed and expected that the fate of the great enterprise would be definitely settled at the meeting held that day. We are glad to be able to say that so much progress was made that the directors feel fully assured of success, but that some work still remains to be done, and the actual closing of all conditions and the giving of the order to begin work, has therefore been still further postponed.

The popular subscription started on Friday was a complete success. When the directors had announced in the *Eagle* that morning that they wanted our people to raise $25,000 more, few believed it could be done, but when the meeting at the Opera House closed in the evening nearly half the sum was on the books, and the canvassers then appointed, with those previously selected, worked so vigorously throughout Saturday that before night they had made up the full amount and a thousand over. One public spirited lady, who had been conspicuous for her aid to other enterprises here, put down $5,000, and the balance was made up of small sums, every man doing what he could.

In the evening we called on Mr. Rust, and he stated that the American Bridge Company had already prepared its bills for timber and stone required, and if the response of our directors is what all hope and believe it will be, these will be sent out immediately and contracts for the materials will be made. Meantime such further examinations at the bottom of the site of the piers will be made by their engineers as may be thought necessary, and as soon as the materials can be got here a force of men will be employed putting in the foundations. This will probably be in about sixty days, so that work will begin early in September.—*Poughkeepsie Eagle, July* 5.

The Lumber Trade.

The recently-issued circular of the National Association of Lumbermen shows some interesting facts in connection with the exports and imports of all classes of lumber and timber during the years 1874 and 1875. One thing is very noticeable, that although the falling off in value of the exports of 1875 as compared with the year previous was $3,613,601 the decline in superficial feet was 144,371,009, showing the considerable reduction in price which has taken place in lumber in common with most other staples. It appears that the export of boards, clap-boards, deals, planks, joists, scantling, laths, shingles, shooks, fire-wood, masts, timber, wooden-ware, and all other manufactures of wood, in 1875, amounted to $17,740,085, and in 1874 to $21,353,786. The imports of lumber, boards, cabinet-ware, etc., amounted to $6,182,988 in 1875, and $8,953,524 in 1874. The imports of lumber in the form of boards, deals, joists, and scantling, were more than double the exports in 1874, and considerably greater, though not double, in 1875. The decrease in imports, for the latter year was 168,609,000 feet. With regard to the home consumption, the Northwestern Lumberman says:

At the beginning of the present century scarcely one hundred feet per person was consumed annually, while in 1870 the amount of sawed lumber consumed in the United States, according to returns of the ninth census was 12,755,543,000 feet, being over three hundred feet per person, with at least fifty per cent of its aggregate value of shingles, staves, and box material. If this consumption goes on in the same ratio, as it is reasonable to infer must be the case, it is somewhat startling to conjecture how the next generation is to be supplied.

We are assured, however, that there are still left 225,000,000,000 feet in the ligneous regions of our little country, to which may be added some twenty-five billion feet in the non-ligneous districts, while we must also bear in mind that forests are constantly growing. Notwithstanding the enormous destruction of hard timber for furniture-making, there is still left a belt standing from central Pennsylvania to near the Gulf of Mexico, of one unbroken forest of furniture timber, besides the fields of Indiana and Southern Illinois, Southeastern Missouri, and one-fourth of the State of Arkansas. There also remains in timber over forty per cent of all New England, over fifty of New York, Pennsylvania and Ohio, from which but a moderate share of that adapted to furniture making has, as yet, been cut. And even our Northwestern pine fields are not without a goodly share of furniture timber interspersed. This, however, does not exonerate us from taking good care of our timber lands and doing all in our power to help them increase and multiply.

Chicago, Danville and Vincennes Railroad.

The motion to confirm the Master's report, previously filed, in the foreclosure cases of Fosdick and others against the Chicago, Danville and Vincennes Railroad Company, was heard in the United States Court at Chicago on the 3d inst. The defendants claimed that they were entitled under the rule to thirty days' time to file exceptions to the master's report. After some argument Judge Drummond granted the time asked, on the representation that the defendants wished it, but not on the ground that they were entitled to it on anything growing out of the record or face of the report. The court, however, overruled a motion then made by the defendants to strike from the files certain depositions taken in New York on the part of the complainants, the court stating that though by the act of Congress of 1789 it was required in cases like the present that the testimony should be reduced to writing by the officer taking the depositions, or by the witness, yet it appeared that the parties had agreed that the testimony should be written out by a stenographer, and the parties were thus estopped from making the objection.

Atlantic, Mississippi and Ohio Railroad.

A few days ago counsel for Francis Skiddy and others, trustees, filed a petition in the matter of Atlantic, Mississippi and Ohio Railroad, before Judge Bond in chambers, at Baltimore, setting forth that there is due for interest on mortgages prior to the mortgage to the petitioners about $100,000, and that the further sum of about $185,000 interest would be due on 1st of July, (instant,) which the receivers of the Atlantic, Mississippi and Ohio Railroad will not be prepared to meet. The petitioners therefore ask that the court authorize the receivers to borrow what may be needed at a rate of interest not to exceed 7 per cent.

On Monday the clerk of the United States Circuit Court received an order from Judge Bond fixing the 18th instant for hearing argument upon the petition. He also ordered upon petition of the same parties that the receivers' official bonds heretofore filed be approved, and that the receivers be authorized to settle and adjust with railroad, steamboat or steamship companies any traffic balances, whether existing at the time of the appointment of the receivers or subsequently accruing.—*Richmond (Va) Dispatch, July* 4.

☞ John Thompson, the newly appointed Receiver of the Clinton, Dubuque and Western and Chicago, Clinton and Dubuque Railroads, took possession of them on the 1st instant. J. G. Johnston assumed the duties of General Superintendent on the same day.

Testing Materials Used on Railroads.

Probably if the Master Mechanics of most of our railroads were to make requisitions for testing machines, to determine the strength and quality of iron and other materials used, in at least nine cases out of ten, their superior officers would regard such a demand as unnecessary extravagance. It is probable, nevertheless, that such an investment of money, instead of being useless, would in many cases result in very great economy. It is certainly very important to companies whose expenditures for materials are counted by millions, to know definitely what they are getting for their money, which it is often impossible to know without carefully testing that which is bought. A 1 inch iron bar which will resist a strain of 40,000 lbs. is worth much more than one that breaks at half that weight. It is desirable, therefore, that an engineer, Master Mechanic or car builder should be able, when he buys iron, to determine certainly and promptly what its strength is. If iron were bought with the understanding that it must be of a certain definite strength, and be tested in a specified way, it is quite certain that a very much better quality would be furnished than if no such tests were made. The same is true of other material, such as boiler-plate, cast-iron, rope, etc. The amount of knowledge, too, which a Master Mechanic would acquire by having at hand a ready means of making such tests would be of immense service to him and to his employers in contracting for material, and also in designing machinery and other structures. Without such facilities, he is obliged to depend upon material of whose strength he is ignorant. It is impossible, for example, to know the strength of a chain from mere inspection without experiment, and yet, if applied to the trucks of cars, the lives and safety of the passengers at some time may be entirely dependent upon its quality and strength. In designing machinery much valuable knowledge would thus be gained by careful tests of the materials employed. It does not require much experience to learn that a purchaser who is ignorant of the qualities of the goods he buys is nearly always at the mercy of the seller. There is nothing which conveys so much information of the qualities of metals as careful experiments concerning their strength, and the tricks of trades which have been revealed by good testing machines would surprise many novices. The accidents which are almost daily causing sorrow and suffering, or exciting indignation or apprehension, all warn us of the importance of more careful inspection of materials and machinery. If railroad managers know more definitely the nature of the material of which their rails, wheels and axles are made, the list of accidents which are published monthly would be greatly reduced. At the present time it seems to be regarded as sufficient reason and excuse for an accident that it is found to be attributable to a broken rail or wheel. Quite the reverse would be regarded as conclusive evidence of culpability on the part of the railroad company. It is not alone, however, in the strength and power of resistance of materials that testing machines are useful. They serve quite as good a purpose in revealing the mistakes and defects of design and construction as they do in determining the quality of materials. We took occasion only a short time ago to call attention to the proportions of the fastenings of car check chains. The same faults are common in boiler stays and many other parts of railroad machinery, the defects of which would be at once revealed by a few experiments.

Much valuable information has been obtained during the past year by the Supervising Inspectors of Steamboats in their experiments upon the Riehle Bros. Testing Machines (one of which is stationed at each of the chief commercial centers), in regard to the strength of boiler plate, etc., and so important has it become that a number of our leading plate mills and others have provided themselves with one of these machines that they may thus know from time to time the exact nature of the iron they are making, and so reach and maintain a grade of excellence that will insure entire confidence in the uniformity of their product. We understand the Riehle Bros. have allotted a department in their works in Philadelphia for testing specimens of metals, etc., and have issued circulars with diagrams showing sizes of specimens they are prepared to test for a mere nominal charge. This is a great benefit to those who have no machines, and we hear is being appreciated by the number of specimens received from all parts of the country to be so tested.—*Chicago Railway Review, July* 1, 1876.

The Coal Trade.

The report of the tonnage of anthracite coal is for the week ending on the 1st instant, and, being a working week, the product of coal is comparatively large—the entire tonnage of the week reported by all the companies amounting to 394,036 tons, against 482,297 tons in corresponding week last year, a decrease of 88,261 tons. The total amount of anthracite mined for the year is 7,673,891 tons, against 6,842,677 for same period last year, an increase of 831,214 tons. The quantity of bituminous coal sent to market for the week was 104,820 tons, against 111,047 tons for corresponding week last year, a decrease of 6727 tons. The whole bituminous tonnage from the beginning of the coal year is 2,134,118 tons, against 1,948,463 tons in corresponding time last year, a decrease of 185,655 tons. The total tonnage of all kinds of coal for the week is 498,356 tons, against 593 344 to corresponding date last year, a decrease of 94,988 tons, and the total tonnage for the coal year is 8,908,009 tons, against 8,791,140 tons to same date last year, an increase of 1,016,869 tons The quantity of coal and coke carried over the Pennsylvania Railroad during last week was 95,802 tons, of which 81,623 tons were coal and 14,179 tons coke. The total carried this year is 1.969,532 tons, of which 1,624,693 were coal and 344,897 coke. This total embraces all the coal carried over the road, east and west. The Reading Coal and Iron Company has fixed the following prices for coal delivered on board vessels at Port Richmond, Philadelphia, for the current month: Hard and soft white ash—Lump, $4 40; steamer, $4 50; broken, $4 60; egg, $4 70; stove, $5 30. Schuylkill red ash—Egg, $4 80; stove, $5 40; chestnut, $4 50. Shamokin—Egg, $4 90; stove, $5 40; chestnut, $4 50. Lorberry—Broken, egg and stove, $5 50; chestnut, $4 55 Lykens Valley—Broken, egg and stove, $5 95; chestnut, $5.—*Phila. Ledger, July* 10.

The Coal Mines of England.

It appears from the report of the Inspectors of Mines recently submitted to Parliament that last year was, despite the general depression of trade, one of unusual activity, to judge by the extent of the yield, in colliery operations. The total produce of coal was 133,306,485 tons, an increase of six and a half millions of tons over the output in 1874. There was an increase also in the produce of ironstone and shales, and a decrease in the one item of fireclay only. The number of tons of coal raised in North and East Lancashire in 1875 was 8,881,137; in West Lancashire, 9,048,914, or upward altogether of seventeen millions—two millions more than the total yield of Yorkshire, which was 15,860,000. From the same returns we learn that in the aggregate 535,845 persons are employed in and about the mines, 427,017 under ground, and 108,282, including 6,504 women, above ground. There has been no diminution in the number of deaths reported. The total number of accidents was 927, as compared with 895 in the previous year, and 1,244 deaths followed from these accidents, against 1,056 for 1874. Death was caused in 288 cases from explosions of fire damp, in 458 from falls of roof or sides in the workings, 172 from accidents in shafts, 227 from casualties of various kinds under ground, and 99 from casualties above ground. There are 4,501 mines, and the deaths are in the proportion of more than three to every mine, and one in every 430 persons employed.

The Resources of Ireland.

The population of Ireland, by the census of 1871, was 5,409,435. The inhabited houses are 959,393. The total number of owners of land is 68,758. For every thousand persons there are thirteen owners of land, and seventy-two owners of land for every thousand inhabited houses. Of the owners of land, less than half—that is 36,144—have less than an acre; 32,614 an acre or more. It is evident that the 'land less than an acre' represents generally a house, with or without a bit of garden, for the aggregate of these small properties, though of considerable value, covers little ground. While the 32,614 owners of an acre and upward have 20,150,612 acres, with a ratable valuation of £12,052,809, the 36,144 owners of less than an acre have only 6,065 acres, but of the ratable value of £1 366,449. The majority of 'Irish owners of land' could be comprised in the area of many an English parish known as a good-sized village, or small market town. It is only when we come to the fifth figure—that is, the thousands—that the aggregate properties of half the land owners affects the total acreage. This disproportion is by no means uniform in the several Provinces. In Leinster, while 10,040 owners own 4,809,292 acres, 15,684 own no more than 3,119 acres; in Munster 7,677 persons own 5,895,859 acres, 8,101 only 2,511 acres; in Ulster 11,956 own 5,257,253 acres, 10,036 only 3,010 acres; in Connaught 2,941 own 4,188,207 acres, while 2,322 have properties covering altogether 424 acres, or only about a ten thousandth part of the total territory possessed by the more fortunate moiety of Connaught land owners.

Pork Packing Trade of the West.

The Bureau of Statistics at Washington has published figures, collected by the Cincinnati Chamber of Commerce, showing the growth, value and extent of the pork packing trade of the Western States since 1849, a period of twenty seven years. From that publication the following statement is made:

The hog packing business is done almost entirely between Nov. 1 and March 1 of each year, and is, in the main, confined to seven States, viz.: Ohio, Indiana, Illinois, Kentucky, Missouri, Iowa and Wisconsin. Illinois packs the greatest number. In the season of 1875-6 the entire number of hogs packed was 4,850,192. Of that number Illinois packed 1,913,895, Ohio 822,935, Missouri 555,319, Indiana 568,367, Iowa 351,406, Kentucky 260,165 and Wisconsin 209,255. Michigan, Minnesota, Kansas and Nebraska together packed about 150,000.

Since 1849 the hog packing trade has increased more than threefold. In the season of 1849-'50, the number of hogs packed was 1,652,220, while last season the number was nearly five millions. The gross weight of last season's packing was 1,332,215,076 pounds, and the aggregate cost of the hogs $93,422,543. The yield of lard from the operations of last season was 174,803,333 pounds.

The production of the past twenty seven years divided into periods of nine years, shows as follows: For the period ended 1857-8 the number of hogs packed was 17,546,965. Period ended 1866 7, the number was 23,895,891. Period ended 1875-6, the number was 38,549,206. By segregating these figures the value and extent of the hog packing trade will be better appreciated. In the period named, twenty seven years, the aggregate number of hogs packed in the Western States was 79,992,062. The returns of the trade for the past six years show that a fair average weight for hogs is 270 pounds. This would make the aggregate weight of the pork packed in the past twenty seven years 21,597,856,740 pounds. The estimated cost of the hogs is $1,166,284,262. The

yield of lard in the same period was 2,879,714,232 pounds.

Chicago is the principal point of the pork packing trade. Last season there were packed at Chicago 1,592,065 hogs, or more than one-fourth of the entire number packed. The points at which over one hundred thousand were packed, are Cincinnati, 563,359; St. Louis, 329,895; Indianapolis, 323,184; Louisville, 223,147; Milwaukee, 181,972. Peoria, Cleveland, and St. Joseph each packed over eighty thousand; Cedar Rapids Iowa, and Kansas City, each 75,000; Quincy and Dubuque, each 50,000; Des Moines, 40,000. At thirty other points the number packed at each ranged from ten to thirty three thousand. The figures given show that Chicago is three times more of a "Porkopolis" than Cincinnati. The yearly average price of mess pork in New York in 1875 was $21 09, and lard $14 03. The steady increase of the business is shown by the returns made for the past six years, during which period the aggregate number of hogs packed was 29,632,937, weighing 8,182,206,268, and costing $434,720,129. The yield of lard in the same period was 1,099,235,549 pounds.

The General Postal Union.

The "General Postal Union," which went into operation one year ago, was designed to effect international postal communication with the United States embracing all Europe and the larger part of Asia and Africa. On the 1st instant all British possessions in India, and all French colonies in Asia, Africa and America were admitted to this postal union; these latter added to the union 245,000,000 people, and increased the territory of the union to a grand aggregate of 999,000 square miles with nearly 624,000,000 people.

The rates of postage to be prepaid in the United States to India and the French colonies, since July 1, are: On prepaid letters, 10 cents per half ounce; on postal cards, 4 cents each; on newspapers, 4 cents each. If not so prepaid, letters will be forwarded, but will be charged double postage on delivery.

Spain and the Netherlands have asked that their colonies may be added to the postal union; Brazil has announced its readiness to join it; and Great Britain will probably ask a similar privilege for all its colonies—scattered "from the rising of the sun to the going down of the same." So that the "General Postal Union" will soon be called the "Postal Union of the World."

American Pine Timber for Spain.

A communication has been received by the Secretary of State of the United States from John F. Quarles, United States consul at Port Mahon, capital of the Island of Minorca, in the Mediterranean, belonging to Spain, which is of interest in its bearing on our foreign export trade. Mr. Quarles refers to the importation of pine timber into Spain from the Southern United States. He says he has been recently informed by a number of Spanish dealers that the American pine timber is beginning to find a more ready market in the Mediterranean islands, along the southern coast of Spain and in Algeria, it having been discovered that it is equally as well adapted for the manufacture of furniture, and better suited for the construction of buildings than that brought from the northern countries of Europe. A number of vessels have been sent from Port Mahon to engage in this trade. He asks to have the attention of the owners of American merchant vessels directed to this important and growing branch of American exportation.

Three years ago, when Mr. Quarles entered upon his duties, there had never been an American cargo landed in any of the ports of the islands, but since then a trade has gradually sprung up between Savannah and Palma, and the consular agent at the latter place expects in his next report to show a large increase. Alcandia, a small port in Majorica, is also importing large quantities of American timber for re-exporting to Algeria, and Port Mahon is engaged in the same trade. He can see no reason why American vessels should not participate in this lucrative trade, thus far almost monopolized by Spanish vessels. He says he is convinced that the pine timber of the Southern States is soon to become one of our chief exports, and when he remembers the immense quantities of timber yearly imported into Spain, and being assured of the superior quality of our pine, he can but believe that it will require but a little fostering care to build up a most important trade between the United States and Spain.

Columbus and Toledo Railroad.

The Ohio State Journal says that the tracklayers on the Columbus and Toledo Railroad, above Carey, have reached a point in Seneca county about three miles north of the county line, and are but ten miles south of Fostoria. The other gang is now about three miles north of Marion. In a few days tracklaying will be commenced at Delaware, toward Columbus. The Fostoria Review, of 7th inst., in speaking of the Columbus and Toledo Railroad, says:

The iron having been laid south from Carey to the point where ties are to be procured for the northern portion of the road, about forty hands commenced to lay iron from Carey toward this place, last week, and they are confidently expected by the 16th inst. We understand that upon finishing the ironing of that portion of the road between Fostoria and Carey, the entire southern portion of the road is to be finished before the iron is laid between here and Toledo—the object being to ballast the road up so as to enable the company to transport their iron from Columbus for the balance of the road on their own line.

Tahoe and Cassen Narrow Gauge Railroad.

The following is a description of a narrow gauge road in California known as the Tahoe and Cassen Narrow Gauge, which presents some novel features of railway engineering.

The road bed runs along the lake for about a mile, until it reaches a huge gorge in the mountains; up this dark and uninviting canyon, through long cuts in the solid granite, over high trestles, runs the track until, after attaining an altitude of some thousand feet, it reaches the summit of a giant mountain. To most civil engineers this peak would be an obstacle unimpassible; not so with Mr. Anderson, the company's very skilled surveyor. The summit of the peak had to be reached, and if the grade was too heavy up an angle of less than forty-five degrees there was still another way to attain the summit, and that was a zigzag road in the shape of a letter Z, piled on another across the face of the old bald mountain, and then instead of turning a curve, runs its catcher into a corner of the Z, and backing out and up the grade, continues in that manner until the summit is reached, a distance of seven and a half miles from Flenbook. From there across a fertile little valley which crowns the summit, the road runs past Spooner's Station, a relic of the ante-railroad days, situated on the old Placerville freight road to Sacramento. Through a tunnel four hundred and eighty feet long pushes the road until a short distance beyond it reaches the flume station. Here are at least a million feet of lumber of different lengths awaiting their turn to be carried down on the swiftly running waters of the flume into Carson City, thence by rail up and into that tomb of the Sierras, the Comstock lode. The entire length of the narrow gauge will be nine miles. The rolling stock at present consists of two engines, and about sixty flat cars, which are deemed sufficient for the present wants of the road.

Railroad Earnings.

The earnings of the Toledo, Peoria and Warsaw Railway for the month of June, 1876, were $135,927 85; for the month of June, 1875, $77,963 04—increase, $57,964 81. For the six months ending June 30, 1876, the earnings were $693,364 45, against $429,415 14 for the six months ending June 30, 1875—an increase of $263,949 31.

The earnings of the Ohio and Mississippi Railroad for the month of June, 1876, were $304,846 20; for the month of June, 1875, $257,323 81—increase, $47,522 39. From January to June 30, 1876, $1,847,769 17, against $1,589,064 31 for the corresponding period of 1875—an increase of $258,704 86.

The earnings of the St. Louis, Kansas City and Northern Railway for the month of June, 1876, were $228,719 65; for the month of June, 1875, $178,332 52—increase, $50,387 13. From January 1 to June 30, 1876, $1,499,756 02, against $1,236,931 22 for the corresponding period of 1875—an increase of $262,824 80.

The earnings of the Chicago, Milwaukee and St. Paul Railway for the month of June, 1876, were $877,571, against $742,168 for the month of June, 1875, an increase of $135,403; and since January 1, 1876, $3,960,396, against $3,392,442 for the corresponding period of 1875. an increase of $567,954.

The earnings of the Chicago, Rock Island and Pacific Railroad for June, 1876, were $614,005 06; for June, 1875, $576,082 28—increase $37,922 78.

The earnings of the Chicago and Northwestern Railroad for June, 1876, were $1,287,853; against $1,052,890 for June, 1875—an increase of $184,963.

The earnings of the Chicago and Alton Railroad for the month of June, 1876 were $441,390 27; for the month of June, 1875, $382,232 58—an increase of $59,157 69. For the six months ending June 30, 1876, the earnings were $2,237,008 59, against $2 112,965 65 for the six months ending June 30, 1875—an increase of $124,042 94.

The earnings of the Union Pacific Railroad for the month of May, 1876, were $1,201,954 61, the expenses $501,067 05, and the surplus $700,887 56. Included in the operating expenses are $19,584 36 for taxes and $74,104 75 for steel rails.

The earnings of the Central Pacific Railroad in 1876, 1875 and 1874, compare as follows:

For the month of June, 1876	$1,639,000
For the month of June, 1875	1,738,869
For the month of June, 1874	1,866,614
Earnings first six months, 1876	7,901,000
Earnings first six months, 1875	7,910,188
Earnings first six months, 1874	6,823,963

☞ Jas. J. W. Taylor, of Harford county, Md., has constructed an application to railroad cars which is proposed to relieve passengers of the manifold discomfort of cinders, dust and smoke. The invention consists of a trough on the car eaves, which is to collect the offensive particles and conduct them to the ground, instead of through the car windows as at present; and also to prevent dust arising from the track to the car windows.

Baltimore, Pimlico and Pikesville Railroad.

At the annual meeting of the stockholders of this company, held in Baltimore on the 10th inst., a committee previously appointed to ascertain the financial condition of the company made a report. They say there has been spent in construction, equipment, repairs, &c., $46,858 18; loss in operating road three years, $1,648 90; paid interest on discounts, $1,856 39; total expenditure, $50,425 73; received in subscriptions to stock, $37,490; leaving a deficit of $12,935 73. The board have loaned their joint notes for $12,000 to the company on mortgage on road, equipments, &c., and the company owes in unsettled accounts $935 73, making the deficits as above. With an uncompleted road, without proper terminus, and a parallel steam railway as a competitor, through a new section of country, and in these times of depression, the board think they have much to congratulate themselves upon—with three years running only $1,645 90 as actual loss. It has been the hope of the board that long ago a sufficient sum would have been pledged on the route from Rogers avenue, (2½ miles,) to have completed the road to that point, but so far it has not been realized, and they now claim it to be a necessity to reach the turnpike at a point near Arlington, so that its receipts (in the winter months particularly) may equal its operating expenditures. After discussion the stockholders appointed J. Howard McHenry, Joshua Parsons and Chas. Classen a committee to see what would be the probable cost to complete the road to Pikesville, and what moneys would be subscribed by the owners of property. Directors were elected for the ensuing year as follows: Wm. Shirley, John D. Saurberg, Wm. H. Jones, E. D. McConkey, J. Howard McHenry, John W. Numsen and Jesse L. Hutchinson. Mr. Saurberg declined re-election as president, but his declension was refused. Mr. Numsen was chosen treasurer and Mr. McConkey secretary.

Sale of Centennial Exhibits.

A bill was passed by the House of Representatives on the 11th inst., authorizing the Secretary of the Treasury to make such regulations as will enable foreign exhibitors at the centennial exposition to dispose of separate articles of their merchandise now on exhibition without being required to pay the customs duties upon the entire exhibit. The bill requires foreign exhibitors who desire to make sales to pledge their entire exhibit to the United States as security for the payment of customs duties upon any articles that may be sold. Under the existing law the entire exhibit is required to be entered for consumption and sale before a single article can be sold and removed.

New Engine for Ascending Steep Gradients on Railroads.

Tests have been made in England with a new engine, designed for ascending steep gradients on railways. The principal idea of the invention is the conversion of a locomotive into a stationary engine by the action of two gripping struts, placed on either side at the end of the engine. In the framework of the latter is fixed a hauling drum about one foot in diameter, round which is wound a wire rope. At the foot of a steep incline, this wire rope is paid out, and the engine ascends by itself. When a sufficient distance has been traversed, the engine is stopped, and the gripping struts, holding firmly to the rails, allow the train to be drawn up by the rope, as if by an ordinary stationary engine. The powerful gripping action of these struts is shown by their not yielding when the force of steam is worked directly against them. The tests which have been made show that, when descending an incline, they act as brakes, and are capable of stopping a train traveling forty miles an hour in 370 feet, which is certainly a very satisfactory result.

The Canals and the Grain Trade.

The receipts of all kinds of grain at Buffalo, last month, according to the tables of the *Commercial Advertiser*, aggregated 7,905,907 bushels. In the same month last year the total was 7,520,228 bushels, showing a small increase in favor of this year. The receipts for the entire navigation season are over 2,000,000 bushels in excess of those of 1875. The exports by canal also show a slight improvement over those of last year. The total shipments from that port, from the opening to June 30th, reached 8,710,193 bushels; in the corresponding period last season only 7,223,331 bushels were sent East by water. The tolls collected at the port of Buffalo this year were $184,173, against $160,990 in the same months of 1875. But this immense business was done for almost nothing both by lake and canal.

Eastern (N. H.) Railroad.

At the annual meeting of the stockholders of this company, held at Portsmouth, N. H., on the 11th inst., the following gentlemen were unanimously elected directors, viz: Moody Currier of Manchester, N. H., Dexter Richards of Newport, N. H, Walter Hastings of Boston, Mass., Francis Thompson of Boston, Mass., Edward L. Giddings of Beverly, Mass., a new board throughout. Votes were passed instructing the Directors to obtain a change in the charter in relation to votes at the meetings, &c. The following order was also passed:

Voted, That the Directors be and hereby are instructed to ascertain what are the rights and liabilities of this Corporation under any contracts of lease or otherwise. To take such measures in relation to collection of dividends or rentals due the stockholders of this Corporation, and for such purpose to employ such counsel and cause such investigations as in their judgment may be deemed fit and proper; and with full power to do such acts and take such steps as to them may seem proper in relation thereto.

At a meeting of the Directors, held subsequently, Hon. Moody Currier was elected President, Thomas J. Lee Treasurer, and William H. Hackett Clerk.

☞ At the meeting of the stockholders of the Portsmouth, Great Falls and Conway Railroad, held at Portsmouth, N. H., on the 11th inst., the following gentlemen were elected Directors: Ichabod Goodwin, Portsmouth; W. H. Y. Hackett, Portsmouth; George William Burleigh, Great Falls; Frederick W. Choate, Beverly; Robert W. Hooper, Boston. Hon. W. H. Y. Hackett was subsequently chosen President, and Wallace Hackett Clerk. On motion of Mr. Rollins of Portsmouth, the vote passed uniting this road with the Eastern R. R. Co. some years ago was rescinded, and the meeting was dissolved.

☞ The Northwestern Lumberman says that 25 miles of the missing link between Flint and Lansing of the Chicago and Lake Huron railroad have been graded, and that the laying of iron will commence in August. It is expected the road will be connected in November.

Chicago, Clinton and Western Railroad.

The application of the Receiver of the Chicago, Clinton and Western Railroad for permission to issue receivers' certificates for work and material for the continuation of the building of the road between Clinton and Tipton, (said certificates to be considered a first lien) was argued at Davenport, Iowa, before Dist. Judge W. I. Hayes, on the 28th of June. The leading business men of Iowa City, Clinton and Tipton, who are financially interested in the building of the road, were present, and all expressed themselves in favor of the receiver's application. A written proposition was also presented by the Receiver from eastern iron manufacturers, agreeing to take these certificates and furnish iron for twenty miles of road to fill the gap between Clinton and Tipton, sixteen miles of road from the former city being already ironed. A final hearing was postponed until the 27th of July.

California Pacific Railroad.

San Francisco, July 11.—Two of the German bondholders of the California Pacific Railroad and the Directors of the Central Pacific Railroad have submitted an agreed case to the Nineteenth District Court, asking for a decision, without consideration, as to the validity of the indorsement of the bonds of the California Pacific by the Central Pacific, to enable parties to at once take the case on appeal to the Supreme Court. The Judge rendered a pro forma decision, holding that the indorsement is valid. The case will at once go up on appeal. The object of the procedure is evidently by a favorable decision of the Supreme Court to override the decision of the Fourth District Court in the case of the stockholders against the Directors of the Central Pacific, declaring the indorsement invalid, and enjoining payment of interest on the bonds.

☞ The Central Railroad Company of New Jersey has negotiated the balance of its Consolidated Mortgage bonds through a foreign banking house in this city. This makes a total issue of $15,000,000, the remainder being held in reserve, according to the terms of the mortgage, against the outstanding first mortgage and convertible bonds and the Newark and New York Railroad Company's bonds.

☞ The banking firm of Henry Clews & Co. is succeeded by Livermore, Clews & Co. Mr. Livermore, the senior member, is reputed to be a millionnaire, and returns to active business after a long retirement therefrom. The newly organized firm have taken offices at No. 3 Nassau street and No. 16 Wall street.

☞ A permanent alliance has been made between the Erie Railway Company and the United States Express Company. The latter has issued a scrip dividend of ten per cent., and has increased its capital by $1,000,000, one-half to the Erie and one-half to its stockholders.

☞ Operations commenced Monday on the Lachine Canal enlargement. The tender for the enlargement of the Cornwall Canal will be called for immediately.

☞ The President has signed a bill authorizing the construction of a pontoon railway bridge across the Missouri river, at Nebraska City.

RAILROAD EARNINGS—MONTHLY.

	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.	Total.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterick (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, July 15, 1876.

Financial and Commercial Affairs.

The extraordinary heat through the past week has been a very serious hindrance to activity, and a source of much embarrassment to the more important business interests. Money has been in much less request, and with more liberal offerings rates have been again ruling in favor of borrowers. Call loans were quoted at 2@3½ per cent, and best mercantile credits at 4@6 per cent per annum. From speculative and mercantile sources the inquiry for accommodation has fallen far short of the available supply of money. Balances of considerable magnitude have been without employment, in a lucrative form. With a view to the safe and profitable investment, purchases have been made to a very respectable aggregate of Government and State bonds, and of the more substantial interest bearing railway mortgages, which have shown decided firmness. The U. S. Sub Treasury currency balance was enlarged $329,268, and the specie reserve reduced $1,836,522. National Bank notes received at the Treasury Department last week for redemption were to the amount of $3,250,000. The City Banks have had their deposits again augmented $7,648,900; and their legal tender reserve cut down $1,397,200. The specie average has been increased $5,358,000. The loan and discount item was expanded $3,770,800. The circulation $24,400. The U. S. Sub Treasury in this city closed the week with a currency balance of $34,250,523 against $33,921,255 the preceding week: and a coin board of $35,282,595 against $37,069,118 on the previous return. The City bank exchanges in currency reached $313,064,746, or a daily average of $52,

177,457. The customs revenue of the port during the week was $1,825,000.

The City banks reported their average of gold last week at $23,650,600, and their greenback average at $53,331,200. Their deposits stood at $223,704,100. The loan item was $255,653,300. The circulation was $15,563,600.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $21,105,777 as against $19,056,400, the preceding week.

The aggregate of the outstanding U. S. currency, of all denominations, July 1st was $404,723,601. The outstanding amount of legal tender notes is $369,772,384. The National bank circulation is now $330,516,126 including $2,099,190 of national gold bank notes.

On Monday of this week the cash balances of the Treasury Department at Washington were: of Currency $13,094,142; special deposit of legal tenders for the redemption of certificates of deposit, $32,840,000; Coin, $73,625,585; Coin certicates, $28,681,400.

The week's import entries of Foreign Merchandise at New York were $2,538,262, including $595,934 of Dry Goods.

Gold has declined under the freer offerings, mainly of the July 1st coin interest disbursements. At the reduced figures, a moderately active business has been reported. Speculation has not shown much life. The customs drain has been somewhat lighter while the export movement has been up to a fair average. The political news from Europe has not been deemed particularly threatening. The neutrality of the great powers has been viewed as a guarantee of peace. The extremes of the price during the week have been 111⅝@111¾, closing on Wednesday at 111¾, as against 112⅛ on Wednesday of the preceding week. The specie outflow last week was $1,486,900 against $1,536,721 the previous week. The imports of specie at this port last week were $154,953, and since January 1st $2,326,088 as against $7,386,161 same time last year. The customs demand for gold last week averaged $220,833 per day. Foreign Exchange has been quite moderately sought after at generally unchanged rates. Bankers sixty day bills on London closed on Wednesday at $4 87⅛@$4 88⅛; sight bills on London at $4 89½ @$4 90⅛ to the £ sterling. The week's exports of Domestic Produce have been to the very liberal currency value of $7,170,898. The week's imports of Dry Goods and general merchandise were to the specie value of $2,538,262 as against $4,342,501 the corresponding week of 1875.

Notwithstanding the fall in Gold, an active demand has been reported for Government Securities for investment account and prices have been well supported, showing toward the close an upward tendency on most issues, with very moderate offerings reported of the favorite coin-bearing six per cents. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $341,259,759.

U. S sixes of 1881 closed on Wednesday of this week (ex July coupon) at 120@120¼; U. S. Five-Twenties of 1865, at 116¼@116½; U. S. Five-Twenties of 1865 consolidated, (ex July coupon) 117⅛@117⅝; U. S. Five-Twenties of 1867, 119⅜@119⅝; U. S. Five-Twenties of 1868, 121⅛@121½; U. S. Ten-Forties at 118½@118¾; U. S. Fives of 1881, (Funding Loan) 117⅝@117⅞; Six per cent. currency Sixes 125½@126.

State and Railway bonds have been in more request, for investment purposes and prices of the more substantial loans have shown more firmness. And in the line of Railway and Miscellaneous share property business has been moderately active but prices have been quoted unsettled and generally weaker, closing however with some show of steadiness.

Owing to the oppressive heat of the weather, business in produce and merchandise has been on a restricted scale. Breadstuffs, Provisions and Cotton have been quoted lower. Petroleum and Naval Stores dearer. Much of the Wheat and Corn offerings here is out of order. And the warm weather has turned large quantities of Flour, which have been reported as souring, and otherwise deteriorating in quality. Foreign merchandise has been held with more confidence, especially Groceries. Metals have been more active especially Tin and Copper. Eglinton Pig Iron quoted here at $27 50@$28; Glengarnock $29 50@$30; Coltness $30 @$30 50; No. 1 American Pig at $22@$23; No. 2 do. at $20; Forge $18@20; American Rails at works $40@$43; Old Rails $21@$22. Wrought Scrap 28. Ocean freights have been quoted generally firmer. with an active demand reported for accommodation for Grain, Petroleum, Provisions, Tobacco, and Cotton.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Illinois Central Railroad.

During the month of June, 1876, 1,273.12 acres of land were sold for $10,248 99. The Cash collected on Land Contracts during the same time was $16,637 61. The Traffic on the Main Line in Illinois was $472,898 56, against $446,832 in June, 1875. The Traffic of the Iowa Lines, (leased at 35 per cent of gross receipts) was $141,585 88, against $155,673 27 in June, 1875. A dividend of $4 per share will be paid August 1st.

☞ A Pardee, Esq., of Hazleton, Penn., has been elected President of the Belleville and North Hastings (Ca.) Railway Company.

Atchison, Topeka and Santa Fe Railroad.

The earnings of this road for the month of June, 1876, compared with same month last year, were as follows:

June, 1876	$187,000
June, 1875	104,437
Increase	$82,563

For the past six months of this year, compared with last year, they were as follows:

Six months ending June 30, 1876	$1,037,795 61
Six months ending June 30, 1875	575,677 14
Increase	$462,118 47

LAND DEPARTMENT.

The sales in the Land Department were as follows:

June, 1876, 11,000 acres	$77,000
June, 1875	12,000
Increase	$65,000
For six months ending June 30, 1876	$433,275
For six months ending June 30, 1875	114,774
Increase	$318,501

☞ At a meeting of the stockholders of the New Orleans, St. Louis and Chicago Railroad Company, held in this city on the 6th inst., the following gentlemen were elected directors: H. S. McComb, L. P. Bush, Thomas A. Scott, Henry Day, J. N. Du Barry, E. Norton, J. S. Rogers, J. B. Alexander, E. D. Randolph, S. H. Edgar, Cadwalader Evans, F. D. Cobb, A. Schreiber, L. Q. C. Lamar, L. S. Trimble, Henry Talmadge, A. M. West, George K. Sistare, W. A. Gordon, William Calhoun and Herman R. Leroy.

☞ Articles of incorporation of the Knightsville and Chicago Railroad Company, with a capital stock of $150,000, have been filed with the Secretary of State of Indiana. The proposed line extends from Knightsville, Clay County, to some convenient point of intersection with the Zionsville, Terre Haute and Chicago Railroad, in the county of Vigo. The directors are: Joseph Collett, John Collett, W. K. Edwards, Samuel Groendyke, L. D. Thomas, Ensign Bennett, Wm. Watson, R. M. Hollingsworth, and James T. Casteel.

☞ Col. Paine, engineer on the East River Bridge, has constructed an apparatus on the New York tower, extending between the top and bottom, by which he can test the strength of wire. At the lower end is a windlass and above is a beam and vernier, so graduated that the exact tension is indicated. Communications between those using the apparatus are kept up either by a bell or speaking tube. The wires are all enclosed in a wooden tube.

☞ The Iron Moulders' International Association, in session at Cleveland, has elected the following officers: President, Wm. Saffin, of Cincinnati; Vice Presidents, John J. Grace, of Albany, Francis Sullivan, of St. Louis, John Nolan, of Toronto, and Dennis Guion, of San Francisco; Secretary, M. F. Hayburn, of New York; Treasurer, P. J. Meany, of Brooklyn.

☞ A general meeting of the Brotherhood of Locomotive Engineers is called to meet in Cleveland, Wednesday, July 19, at ten A. M., for the purpose of organizing an accident insurance association.

CORNWALL CANAL ENLARGEMENT.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the Secretary of Public Works, and endorsed "Tender for the Cornwall Canal," will be received at this office until the arrival of the Eastern and Western mails, on WEDNESDAY, the NINTH DAY OF AUGUST NEXT, for the formation of a new entrance—south of the present one—at the lower end of the Cornwall Canal, embracing the construction of two Lift-locks, Waste-weir, &c.

The works will be let in one section, as indicated on the map of that part of the line, which, together with plans and specifications of the various works, can be seen at this office, and at the office of the Canal Superintendent, Cornwall, on and after FRIDAY, the TWENTY-EIGHTH DAY OF JULY (INSTANT), at either of which places printed Forms of Tender can be obtained.

Contractors are requested to bear in mind that Tenders will not be considered unless made strictly in accordance with the printed forms, and—in the case of firms—except there are attached the actual signatures, the nature of the occupation, and place of residence of each member of the same; and further, an accepted bank cheque, or other readily available security, for the sum of FOUR THOUSAND DOLLARS, must accompany each Tender, which shall be forfeited, if the party tendering declines or fails to enter into contract for the works when called upon to do so, at the rates stated in the offer submitted.

The cheque or money thus sent in, will be returned to the respective parties whose tenders are not accepted.

For the due fulfillment of the contract, satisfactory security will be required on real estate, or by deposit of money, public or municipal securities, or bank stocks, to the amount of five per cent. on the bulk sum of the contract, of which the sum sent in with the Tender will be considered a part.

Ninety per cent only of the progress estimates will be paid until the completion of the works.

To each Tender must be attached the actual signatures of two responsible and solvent persons, residents of the Dominion, willing to become sureties for the carrying out of these conditions as well as the due performance of the works embraced in the contract.

This Department does not, however, bind itself to accept the lowest or any Tender.

By Order,
F. BRAUN,
Secretary.

Department of Public Works,
OTTAWA, 10th July, 1876.

The Poughkeepsie Bridge.

There is reason for rejoicing "all along the line" that work upon the long talked of bridge over the Hudson at Poughkeepsie is soon to be commenced, and that in due time this new avenue for trade will be opened to the people of New England. The Poughkeepsie Eagle of Tuesday has an article upon the subject which says that the requisite amount of subscriptions has been so nearly reached that the directors have guaranteed the full amount, and the American Bridge company will this week send out its invitations to lumbermen and quarrymen, and work will begin as soon as the necessary preliminaries can be arranged. It is expected that cars will run over the bridge by the 1st of January, 1879. The benefits to the Connecticut Western Railroad from the opening of this line for Western traffic must be large. There is encouragement now for the owners of that road to hope for a paying and profitable business in the not far distant future. Wise and careful management until the bridge and its connections are completed, will put the road in a position so that the benefits of this enterprise may be enjoyed by its present owners.—*Hartford Courant.*
